6. TROUBLESHOOTING

Issue	Possible Solution
Headphones do not power on	Ensure the headphones are charged. Press and hold the MFB for 2 seconds.
Cannot pair with device	Ensure headphones are in pairing mode (LED blinks red and white). Turn off and on Bluetooth on your device. Forget the device in your Bluetooth settings and try pairing again.
No sound or low volume	Check headphone and device volume levels. Ensure headphones are properly connected. Try another audio source.

Issue	Possible Solution
ANC not working effectively	Ensure ANC mode is activated (press the ANC button). Adjust headphone fit for a better seal.
Intermittent connection	Move closer to your device. Avoid obstacles between headphones and device. Ensure no other strong wireless signals are interfering.
Factory Reset	If issues persist, perform a factory reset by pressing and holding both VOL+ and VOL- for 10 seconds. The LED will blink red 5 times, then blue, indicating a successful reset. This will clear all pairing information.
