Logitech Keys-to-GO 2 Portable Wireless Keyboard User Manual

Your guide to setting up, operating, and maintaining your Keys-to-GO 2 keyboard.

1. INTRODUCTION

About Your Keys-to-GO 2 Keyboard

The Logitech Keys-to-GO 2 is an ultra-portable wireless keyboard designed for seamless typing across multiple devices. Its slim and compact design, coupled with a built-in protective cover, makes it an ideal companion for on-the-go productivity.

- **Multi-OS Compatibility:** Compatible with iOS, iPadOS, MacOS, Android, ChromeOS, and Windows devices.
- **Ultra-Portable Design:** Super slim and lightweight, perfect for travel.
- **Protective Cover:** Built-in cover safeguards the keyboard from damage.
- **Comfortable Typing:** Features perfectly spaced scissor keys for a roomy and comfortable typing experience.
- **Easy-Switch:** Connect and switch between up to three devices with ease.
- **Full Row of Shortcut Keys:** Provides one-tap access to volume, media controls, screen brightness, and more.
- **Long Battery Life:** Enjoy up to 3 years of battery life with pre-installed coin cell batteries.
- **Sustainable Design:** Made with 36% recycled plastic, contributing to a climate-positive future.

2. WHAT'S IN THE Box

Your Logitech Keys-to-GO 2 package includes the following items:

- Logitech Keys-to-GO 2 Portable Wireless Keyboard
- USB Cable (for charging, though the keyboard uses replaceable batteries)
- 2 x CR2032 Coin Cell Batteries (pre-installed)

3. SETUP

Powering On/Off

To power on your Keys-to-GO 2 keyboard, locate the small power switch on the side of the keyboard. Slide the switch to the 'On' position. To power off, slide the switch back to the 'Off' position. The keyboard is designed for long battery life, lasting up to 3 years on a single set of batteries.

Pairing Your Keyboard

The Keys-to-GO 2 keyboard uses Bluetooth for wireless connection. It can be paired with up to three devices simultaneously, allowing for quick switching between them.

1. Ensure your keyboard is powered on.
2. On your device (tablet, phone, computer), enable Bluetooth and search for new devices.
3. On the Keys-to-GO 2 keyboard, press and hold one of the Easy-Switch keys (labeled 1, 2, or 3) until the corresponding LED light starts blinking rapidly. This indicates the keyboard is in pairing mode.
4. Select "Keys-to-GO 2" from the list of available Bluetooth devices on your screen.
5. Follow any on-screen prompts to complete the pairing process. The LED light will turn solid for a few seconds to confirm successful pairing.
6. Repeat these steps for up to two additional devices using the other Easy-Switch keys.

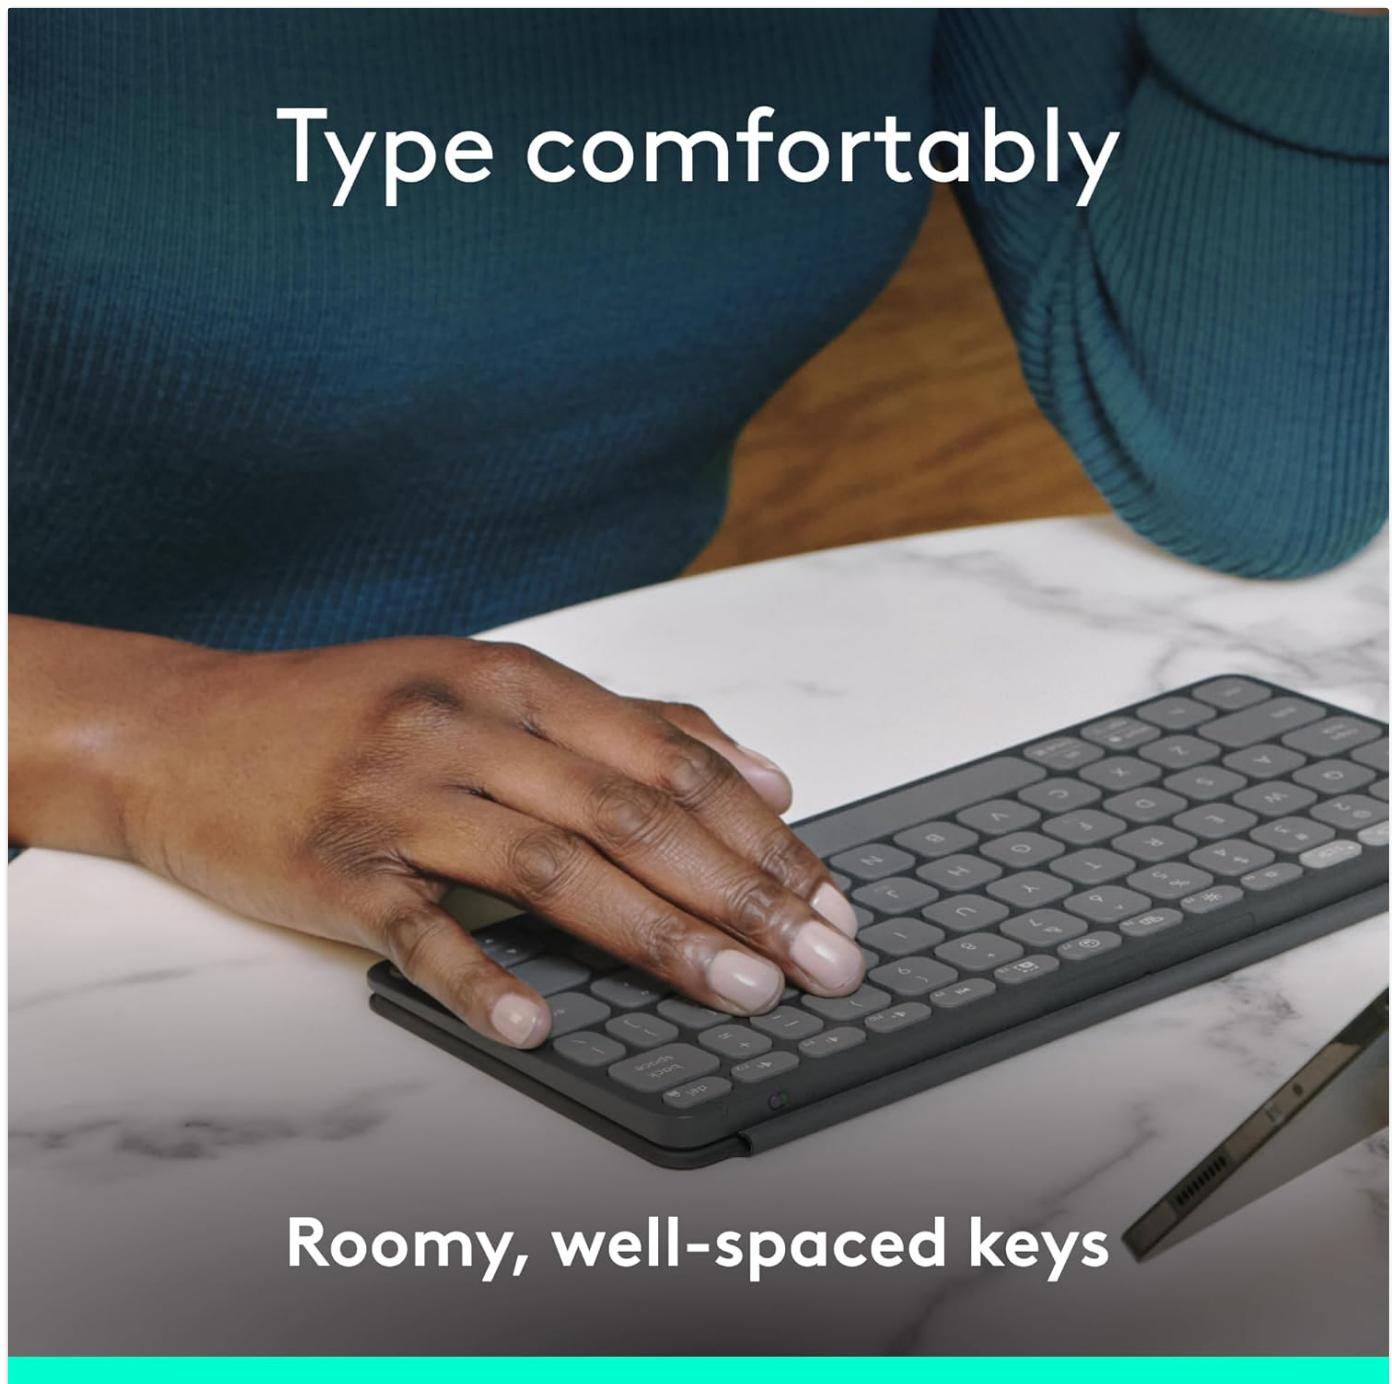

This video demonstrates the Logitech Keys-to-GO 2 keyboard's features and compatibility with Apple devices, including the multi-device

pairing process.

4. OPERATING YOUR KEYBOARD

Typing Experience

The Keys-to-GO 2 offers a comfortable and responsive typing experience thanks to its perfectly spaced scissor keys. Despite its compact size, the key layout is designed to minimize typing errors and provide a familiar feel.

A user's hands are shown comfortably typing on the Keys-to-GO 2 keyboard, highlighting its ergonomic design.

Multi-Device Switching

To switch between paired devices, simply press the corresponding Easy-Switch key (1, 2, or 3) located on the top row of the keyboard. The keyboard will instantly connect to the selected device.

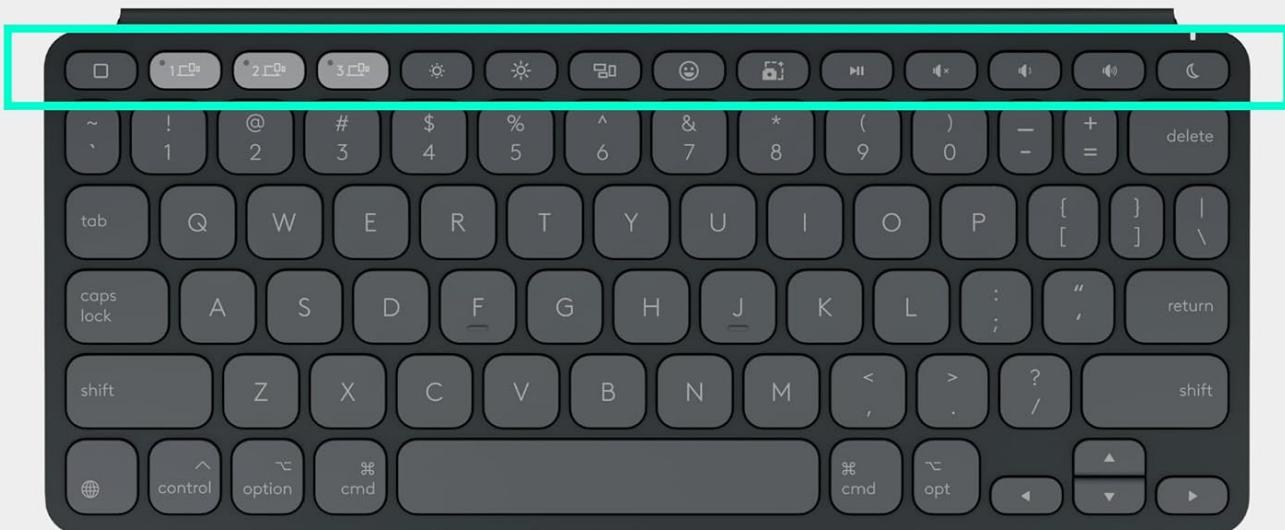

Shortcut Keys

The Keys-to-GO 2 features a full row of shortcut keys that provide quick access to various functions, including:

- Volume controls (mute, decrease, increase)
- Media playback controls (play/pause, previous, next)
- Screen brightness adjustment
- Home screen access
- Search function
- And more, depending on the operating system.

For advanced customization of the F-row keys, you can use the Logi Options+ App, available on Windows and macOS.

5. MAINTENANCE

Cleaning Your Keyboard

To keep your Keys-to-GO 2 keyboard in optimal condition, regularly clean it with a soft, lint-free cloth. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using abrasive cleaners or harsh chemicals.

Battery Replacement

The Keys-to-GO 2 keyboard is powered by two CR2032 coin cell batteries, which are designed to last up to 3 years under normal use. When the batteries need replacement, you will typically notice a decrease in performance or connectivity issues.

To replace the batteries:

1. Power off the keyboard.
2. Locate the battery compartment on the side of the keyboard. It is secured by small screws.
3. Carefully unscrew the cover and remove the old batteries.
4. Insert two new CR2032 batteries, ensuring correct polarity.
5. Replace the cover and secure it with the screws.
6. Power on the keyboard and re-establish connection if necessary.

The Keys-to-GO 2 boasts a long battery life, allowing for worry-free use for up to 3 years.

6. TROUBLESHOOTING

If you encounter issues with your Logitech Keys-to-GO 2 keyboard, try the following troubleshooting steps:

- **No Connection:** Ensure Bluetooth is enabled on your device and the keyboard is powered on and in pairing mode. Try re-pairing the keyboard.
- **Keys Not Responding:** Check the battery level. Replace batteries if low. Ensure the keyboard is connected to the correct device.
- **Lag or Delayed Typing:** This could be due to interference. Try moving closer to your device or away from other wireless devices. Check for any software updates for your device's operating system.
- **Unexpected Behavior:** Power cycle the keyboard (turn off, then on again). If issues persist, try removing the keyboard from your device's Bluetooth settings and re-pairing it.

For further assistance or advanced troubleshooting, refer to the Logitech support website or use the Logi Options+ App.

7. SPECIFICATIONS

Feature	Detail
Brand	Logitech
Model Number	920-012866
