Hatteker 565808

Hatteker 8-in-1 Multifunctional Grooming Kit Instruction Manual

Model: 565808

Brand: Hatteker

INTRODUCTION

The Hatteker 8-in-1 Multifunctional Grooming Kit is designed to provide comprehensive grooming solutions for men. This versatile kit includes multiple interchangeable heads and guide combs, allowing for precise trimming, shaving, and styling of various body areas including beard, mustache, head, nose, face, chest, and body hair. Featuring adjustable speed settings, a smart LED display, and a durable metal body, this grooming kit offers convenience and high performance for both personal use and professional applications.

SAFETY INFORMATION

For your safety and to ensure optimal performance of your Hattaker grooming kit, please adhere to the following guidelines:

- Always unplug the trimmer before cleaning or changing attachments.
- Keep blades away from water unless the device is specifically designed for wet use and the head is detached for cleaning.
- Do not use on dry or irritated skin to prevent discomfort or injury.
- Avoid contact with eyes.
- Always supervise children when the trimmer is in use or accessible.
- Follow recommended cleaning and maintenance procedures to ensure optimal performance and longevity of the device.

SETUP

1. Charging the Device

Before first use, fully charge the trimmer. Connect the USB-C charging cable to the port at the bottom of the main unit and plug the other end into a compatible USB power adapter (not included). The smart LED display will indicate the charging status and battery level. A full charge takes approximately 90 minutes and provides up to 180 minutes of cordless trimming time.

2. Attaching/Detaching Trimmer Heads

To attach a trimmer head, align the head with the main unit and press firmly until it clicks into place. To detach, gently pull the head away from the main unit. Ensure the device is turned off before changing heads.

3. Attaching/Detaching Guide Combs

For T-blade and hair trimmer heads, select the desired guide comb and slide it onto the blade until it securely locks. For the precision trimmer head, use the integrated dial to adjust the cutting length from 1mm to 10mm. To remove a comb, gently slide it off.

VARIOUS HAIR CUTTING LENGTH OPTIONS

OPERATING INSTRUCTIONS

1. Power On/Off and Speed Adjustment

Press the power button to turn the trimmer on or off. The smart LED display will show the current RPM and battery level. Use the '+' and '-' buttons to adjust the motor speed between 6000 RPM and 7000 RPM, allowing for optimal performance on different hair types and densities.

2. Using Different Trimmer Heads

- **T-blade Trimmer Head:** Ideal for precise beard and mustache trimming, hair lining, and carving intricate hairstyles. Use with 1mm, 3mm, 5mm, or 7mm guide combs for desired length.
- **Hair Trimmer Head:** Suitable for general hair cutting. Use with 3mm, 6mm, 9mm, 12mm, 15mm, left, or right guide combs for various hair lengths and styles.
- **Precision Trimmer Head:** Features a 1-10mm dial comb for fine-tuning beard and stubble length.
- **Micro Razor Head:** Provides a close, smooth shave for finishing touches.

- **Nose/Ear Trimmer Head:** Designed for safely and comfortably removing unwanted nose and ear hair.
- **Body Groomer/Body Hair Trimmer Head:** Use for trimming hair on the chest and other body areas.

IPX6 WASHABLE BODY

Can be rinsed under running water for easy cleaning

Detachable head, Easy to remove

MAINTENANCE

1. Cleaning

The Hattaker grooming kit features an IPX6 waterproof design, allowing for easy cleaning. Detach the cutter heads and rinse them under running water. The main unit can also be rinsed, but ensure the charging port is dry before charging. Use the included cleaning brush to remove any trapped hairs from the blades and internal mechanisms.

REASONABLE SIZE & ERGONOMIC DESIGN

Ergonomic and easy to use, without excessive force.

HANDY STORAGE

Avoid loss or confusion and make it more neat and organised.

2. Drying

After cleaning, ensure all parts are thoroughly dried before reassembling or storing the device. This helps prevent corrosion and maintains the longevity of the blades and internal components.

3. Storage

Store the grooming kit and all its accessories in the provided storage bag or on the storage stand. This keeps all components organized and protected, preventing loss or damage.

Image: Two methods of storage for the grooming kit: in a travel bag and on the included stand.

TROUBLESHOOTING

If you encounter any issues with your Hatteker grooming kit, please refer to the following common troubleshooting tips:

- **Trimmer not turning on:** Ensure the device is fully charged. Check the USB-C cable and power adapter connection.
- **Poor trimming performance:** Clean the blades thoroughly, as trapped hairs can affect performance. Ensure the correct guide comb is attached and properly seated. The blades may need to be oiled (refer to general trimmer maintenance guides if no oil is included).
- **Reduced battery life:** Ensure the device is fully charged before each use. Over time, battery capacity may decrease.
- **Unusual noise:** Turn off the device and check for any obstructions in the blade area. Ensure the trimmer head is securely attached.

If the issue persists after attempting these steps, please contact Hatteker customer support for further assistance.

SPECIFICATIONS

Brand	Hatteker
Model Number	565808
