4. SETUP

4.1 Initial Charging

Before first use, connect the keyboard to a USB power source using the provided USB-C cable to ensure it is fully charged. The keyboard can be used while charging in wired mode.

4.2 Connectivity Modes

The NYXI Striker keyboard supports three connection modes: Bluetooth 5.0, 2.4GHz wireless, and USB wired. Use the switch located on the keyboard to select your desired mode.

• USB Wired Mode:

- 1. Set the mode switch on the keyboard to the wired (USB) position.
- 2. Connect the USB-C end of the cable to the keyboard and the USB-A end to your computer.
- 3. The keyboard will be recognized automatically by your operating system.

• 2.4GHz Wireless Mode:

- 1. Retrieve the 2.4GHz USB receiver from its compartment on the keyboard.
- 2. Set the mode switch on the keyboard to the 2.4G wireless position.
- 3. Plug the 2.4GHz USB receiver into an available USB port on your computer.
- 4. The keyboard should connect automatically.

• Bluetooth 5.0 Mode:

- 1. Set the mode switch on the keyboard to the Bluetooth position.
- 2. The keyboard supports up to 5 Bluetooth channels. PressFn + 1/2/3/4/5 to select a Bluetooth channel. The display screen will indicate the selected channel.
- 3. To enter pairing mode, press and hold $\mathbf{Fn} + \frac{1}{2}\frac{3}{4}$ for 3-5 seconds until the indicator light flashes rapidly or the display screen shows a pairing icon.
- 4. On your device (computer, tablet, phone), go to Bluetooth settings and search for new devices.
- 5. Select "NYXI Striker" from the list of available devices to pair.
- 6. Once paired, the indicator light will become solid, and the display screen will confirm the connection.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

The keyboard powers on automatically when connected via USB or when a wireless mode is selected and the battery has charge. To conserve battery, ensure the keyboard is switched off when not in use for extended periods.

5.2 Switching Between Devices/Modes

To switch between connected Bluetooth devices, press Fn + 1/2/3/4/5 to select the desired paired channel. To switch between wired, 2.4G, and Bluetooth modes, use the physical switch on the keyboard.

5.3 RGB Backlighting Control

The keyboard features 22 RGB lighting modes. Use the following key combinations to control the backlighting:

- Fn + Left Ctrl: Cycle through different RGB lighting effects.
- Fn + Arrow Up/Down: Adjust brightness levels.
- Fn + Arrow Left/Right: Adjust lighting effect speed.

5.4 Display Screen Operation

The integrated display screen can show various animations and status indicators. Use the NYXI Driver App

for advanced customization of the display screen content.

5.5 Volume Roller

Rotate the dedicated roller on the top right of the keyboard to adjust the system volume. Pressing the roller typically mutes/unmutes audio.

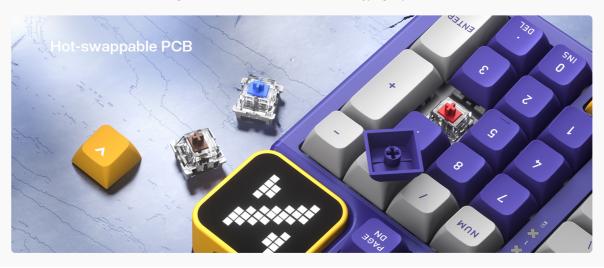

6. KEY FEATURES

The NYXI Striker keyboard is designed with several advanced features to enhance your user experience:

- **Multi-Device Connection:** Supports Bluetooth 5.0, 2.4GHz wireless, and USB wired modes. It also features a built-in five-channel mode for seamless switching between multiple devices (Windows, Android, macOS, iOS, iPad systems).
- Hot-Swappable and Gasket Structure: The keyboard supports hot-swappable switches, allowing for easy replacement without soldering. Its gasket structure, constructed with PC+ABS material, provides a soft and elastic typing feel, reducing noise and improving overall acoustics.
- Personalized Aesthetics: Features 22-color RGB backlighting with various glow modes and effects.
 The display screen supports 4 dynamic matrix display modes, which can be customized further via software.
- NYXI Driver App Macro Customization: A dedicated software application allows for extensive macro customization, key remapping, and lighting management. This app supports wired, 2.4G, and Bluetooth connections for flexible setup.
- **Comfort Design:** Integrates a precision volume roller, anti-slip silicone pads for stability, and a three-stage tilt stand for adjustable ergonomic comfort during extended use.

7. MAINTENANCE

7.1 Cleaning

- Use a soft, dry cloth to wipe the keyboard surface.
- For deeper cleaning, use the provided keycap puller to remove keycaps and clean dust or debris with compressed air.
- Avoid using harsh chemicals or abrasive materials that could damage the keyboard finish or keycap legends.

7.2 Storage

Store the keyboard in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, ensure the keyboard is fully charged and then powered off.

8. TROUBLESHOOTING

· Keyboard not responding:

- Ensure the keyboard is powered on and the correct connectivity mode (wired, 2.4G, or Bluetooth) is selected.
- For wireless modes, check battery level. Recharge if necessary.
- For 2.4GHz, ensure the receiver is properly plugged into a USB port.
- For Bluetooth, ensure it is paired correctly and the selected channel (Fn + 1-5) matches the paired device. Try re-pairing.
- Try connecting via USB wired mode to rule out wireless issues.

· RGB lights not working/displaying correctly:

- Ensure RGB is enabled (check the NYXI Driver App if installed).
- Cycle through lighting modes using Fn + Left Ctrl.
- Adjust brightness using Fn + Arrow Up.

· Keys not registering:

- If a specific key is not working, the switch might be faulty. Utilize the hot-swappable feature to replace the switch with one of the spares provided.
- Ensure no debris is lodged under the keycap or switch.

• Connectivity issues (lag, disconnections):

- For wireless modes, ensure the keyboard is within range of the receiver/device and there are no significant obstructions.
- Minimize interference from other wireless devices.
- Ensure the keyboard's battery is sufficiently charged.

If issues persist, please refer to the Warranty & Support section for further assistance.
