K KASONIC FL-JC62

K KASONIC 3-Outlet Plug Adapter with Light Indicator

Model: FL-JC62

Brand: K KASONIC

1. Introduction and Overview

The K KASONIC 3-Outlet Plug Adapter is designed to expand a single grounded wall outlet into three, providing convenient power access for multiple devices. This compact and lightweight adapter features a built-in light indicator for enhanced usability and is ETL listed for safety.

- **3 Grounded Outlets:** Converts one wall outlet into three, allowing simultaneous power for up to three devices.
- **Heavy Duty Construction:** Rated for 15 amps, 125 volts, 60 Hz, and a maximum of 1875 watts.
- **Built-in Light Indicator:** An auto-sensor LED night light automatically activates when ambient lighting is insufficient, providing a guiding light.
- **Space-Saving Design:** Compact dimensions (approximately 3.58 x 1.85 x 1.69 inches) make it suitable for various locations and travel.
- **ETL Listed:** Certified for safe indoor use in dry locations.

2. Setup and Installation

1. **Unpack the Adapter:** Carefully remove the plug adapter from its packaging.
2. **Inspect the Adapter:** Before use, ensure the adapter is free from any visible damage.
3. **Plug into Wall Outlet:** Insert the adapter's prongs firmly into a standard grounded 125V AC wall outlet. Ensure it is fully seated.
4. **Connect Devices:** Plug your devices into the three available outlets on the adapter. Ensure the total power consumption does not exceed 1875 watts.

The adapter is designed to fit snugly into the wall outlet. Its angled design helps prevent blocking adjacent outlets, depending on the orientation.

3. Operating Instructions

The K KASONIC 3-Outlet Plug Adapter operates immediately upon being plugged into a live wall outlet. There are no switches or

buttons for the main power function.

- **Power Distribution:** Once plugged in, all three outlets are active and ready to supply power to connected devices.
- **Light Indicator Function:** The built-in LED night light features an auto-sensor. It will automatically turn on when the surrounding ambient light is insufficient and turn off when the area is well-lit. This provides a subtle guiding light in dark environments.

4. Safety Information

- **Indoor Use Only:** This adapter is designed for indoor use in dry locations. Do not use it outdoors or in wet environments.
- **Electrical Rating:** Do not exceed the maximum electrical rating of 15 Amps, 125 Volts, 60 Hz, or 1875 Watts. Overloading the adapter can lead to overheating and fire hazards.
- **Grounded Outlets:** Ensure the wall outlet you are plugging the adapter into is properly grounded.
- **Avoid Overlapping:** While designed to minimize blocking, ensure that large power adapters or plugs do not obstruct adjacent outlets or the adapter itself, which could lead to improper connection or overheating.
- **Keep Away from Children:** Store the adapter out of reach of children when not in use.
- **ETL Listed:** This product is ETL listed, indicating compliance with North American safety standards.

5. Specifications

Feature	Specification
Model Number	FL-JC62
Total Power Outlets	3
Voltage	125 Volts
Maximum Current	15 Amps
Maximum Wattage	1875 Watts
Special Features	ETL Listed, Heavy Duty, Light Indicator
Product Dimensions	5.08 x 4.57 x 2.54 cm (9.1L x 4.7W Centimetres)
Material	Acrylonitrile Butadiene Styrene
Color	White

6. Troubleshooting

- **No Power to Devices:**
  - Ensure the adapter is fully inserted into a working wall outlet.
  - Check if the wall outlet itself is receiving power (test with another device).
  - Verify that the total wattage of connected devices does not exceed 1875W.

- **Light Indicator Not Working:**
  - The light indicator is auto-sensing; it only turns on in low-light conditions. Test it in a dark environment.
  - Ensure the adapter is receiving power.
- **Adapter Feels Warm:**
  - A slight warmth is normal during operation. However, if the adapter feels excessively hot, immediately unplug all devices and the adapter from the wall. Reduce the load by connecting fewer devices or devices with lower power consumption.
