### 3. PRODUCT FEATURES

- **2-in-1 Suction & Blow Function:** This device offers both vacuuming and air blowing capabilities, allowing for versatile cleaning and inflation tasks.
- **Powerful Suction:** Equipped with 16000Pa suction power and an 84000RPM motor for efficient debris removal.
- **Type-C Fast Charging:** Features a built-in 4000mAh rechargeable battery with a 2.5-hour charging time, providing approximately 30 minutes of continuous operation.
- **Dual Filtration System:** Utilizes both a metal filter for larger particles and a HEPA filter for fine dust, ensuring thorough cleaning and easy maintenance.
- **Compact & Lightweight:** Weighing just 0.8LB, its cordless design offers enhanced portability and flexible use.
- **Integrated LED Light:** Provides illumination for cleaning in dark or hard-to-reach areas.
- **Low Noise Operation:** Operates at approximately 40 decibels, minimizing disturbance during use.

## 4. OPERATING INSTRUCTIONS

### 4.1 Charging the Device

1. Locate the Type-C charging port on the device.

2. Connect the provided Type-C charging cable to the device and a suitable power source (e.g., car charger, power bank, PC, or power adapter).
3. The charging indicator light will illuminate. Allow approximately 2.5 hours for a full charge.

## 4.2 Attaching Nozzles

The device supports various nozzles for both vacuuming and blowing functions. Simply align the desired nozzle with the appropriate port (suction or blow) and twist to secure.

- **For Vacuuming:** Use the Long Suction Nozzle for tight spaces, the Brush Suction Nozzle for delicate surfaces, or the Floor Brush for larger flat areas.
- **For Blowing:** Attach the Blower Nozzle for general dust removal, the Air Inflation Nozzle for inflating items, or the Air Bleed Nozzle for deflating.

Image 4.2: Multi-purpose nozzles for diverse cleaning and inflation needs.

### 4.3 Power On/Off

Press the power switch to turn the device on or off. The integrated LED light will activate when the vacuum is in use, illuminating the cleaning area.

### 4.4 Usage Examples

- **Car Interior:** Use the Long Suction Nozzle to reach crumbs and debris between seats or in tight crevices.
- **Keyboard Cleaning:** Attach the Small Brush Nozzle to the blower port to dislodge dust from keyboard keys, then use the vacuum function to collect it.
- **Inflation:** Use the Air Inflation Nozzle with the blowing function to quickly inflate small items like swimming rings.

Video 4.3.4: Overview of the vacuum cleaner's universal applications.

Video 4.3.5: User demonstrating the handheld car vacuum's effectiveness for car owners.

## 5. MAINTENANCE

### 5.1 Emptying the Dust Cup

1. Ensure the device is turned off.
2. Press the release button to detach the dust cup from the main body.
3. Carefully empty the collected debris into a trash receptacle.

### 5.2 Cleaning the Filters

The JONYJ Handheld Car Vacuum Cleaner features a dual filtration system with a metal filter and a HEPA filter, both of which are washable and reusable.

1. After emptying the dust cup, remove the metal filter and then the HEPA filter.
2. Rinse both filters under running water until clean.
3. Allow the filters to air dry completely before reassembling. Ensure they are fully dry to prevent damage and maintain suction efficiency.
4. Reinsert the HEPA filter, followed by the metal filter, and then reattach the dust cup to the main body.

Image 5.2: Detailed steps for disassembling and cleaning the filters.

## 6. TROUBLESHOOTING

If you encounter any issues with your JONYJ Handheld Car Vacuum Cleaner, please refer to the following common troubleshooting steps:

- **No Power:** Ensure the device is fully charged. Check the charging cable and adapter for proper connection.
- **Weak Suction:** Check if the dust cup is full and needs emptying. Inspect filters for blockages or excessive dirt; clean or replace if necessary. Ensure all nozzles and attachments are securely fitted.
- **Unusual Noise:** This may indicate a blockage in the nozzle or dust cup. Turn off the device, remove attachments, and clear any obstructions.

If the problem persists after following these steps, please contact customer service for further assistance.
