Nasitip N4ky-2388YC18Dud5

Nasitip 24V 2-Seater Kids Ride-On Car Toy User Manual

Model: N4ky-2388YC18Dud5

1. INTRODUCTION

This manual provides essential information for the safe assembly, operation, and maintenance of your Nasitip 24V 2-Seater Kids Ride-On Car Toy. Please read it thoroughly before initial use and retain it for future reference. This electric ride-on car is designed for children aged 3-8 years, offering a fun and interactive driving experience with options for both child and parental control.

2. SAFETY INFORMATION

Always prioritize safety when operating the ride-on car. Adult supervision is required at all times. Ensure children wear appropriate safety gear, such as helmets and knee pads, especially when operating the vehicle independently.

General Safety Guidelines:

- Do not operate the vehicle near roads, motor vehicles, steep inclines, swimming pools, or other bodies of water.
- Ensure the vehicle is used on flat, dry surfaces. Avoid wet conditions, mud, or loose terrain.

- The maximum weight capacity is 200 lbs (90 kg). Do not exceed this limit.
- The maximum speed is 4 MPH.
- Always use the provided seat belt.
- Keep hands, hair, and clothing away from moving parts.
- Only use the charger and battery specified by the manufacturer.
- Regularly inspect the vehicle for damage, loose parts, or wear before each use.

3. WHAT'S IN THE BOX

Upon opening the package, verify that all components are present and undamaged:

- Kids ride on vehicle toy (main body)
- Remote control
- Wheels (4x)
- Axles (front and rear)
- Steering wheel
- Seats (driver and rear/storage)
- Pedals (driver and parental control)
- Charger
- Assembly hardware (screws, nuts, washers, pins)
- Instruction Manual

4. ASSEMBLY INSTRUCTIONS

Follow these steps carefully for proper assembly. Refer to the accompanying video for visual guidance **Note: The video demonstrates assembly using a pink model, but the steps are identical for your blue car.**

Your browser does not support the video tag.

Step-by-Step Assembly:

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out and verify against the 'What's in the Box' section.
2. **Assemble Front Axle:** Attach the steering linkage components to the front axle. Secure them using the provided bolts and nuts.
3. **Install Front Axle to Chassis:** Position the assembled front axle onto the underside of the car chassis. Secure it firmly with the appropriate screws.
4. **Attach Front Wheels:** Slide a washer onto the front axle, then place a front wheel. Secure it with a nut and a decorative cap. Repeat for the other front wheel.

5. **Install Rear Motor Wheels:** Attach the motor wheels to the rear axle. Ensure the motor connection points are aligned. Secure with nuts and caps.
6. **Connect Driver Pedal:** Locate the wiring for the driver's pedal. Connect it to the corresponding port on the car's chassis. Secure the driver pedal in place with screws.
7. **Connect Parental Control Pedal:** Locate the wiring for the parental control pedal. Connect it to its corresponding port. Secure the parental control pedal with screws.
8. **Install Steering Wheel:** Connect the steering wheel's internal wiring to the steering column's connector. Insert the steering wheel onto the column and secure it with the provided screw.
9. **Connect Battery:** Open the main seat compartment. Connect the red battery terminal to the red wire and the black battery terminal to the black wire.
10. **Install Seats:** Place the main driver's seat over the battery compartment and secure it with screws. Insert the rear storage box/seat into its designated slot.
11. **Remote Control Battery Installation:** Open the battery compartment on the remote control using a screwdriver. Insert 2 AAA batteries (not included) according to polarity. Close the compartment.
12. **Remote Control Pairing:** Turn on the car. Press and hold the pairing button on the remote control until the indicator light stops flashing and remains solid, indicating successful pairing.

5. OPERATING INSTRUCTIONS

The Nasitip Ride-On Car offers multiple driving modes for varied experiences and safety.

Driving Modes:

- **Child-Controlled Driving:** The child operates the steering wheel and foot pedal to control the car's movement.
- **Parental Remote Control:** Parents can override child control using the remote control. This mode is prioritized for safety and allows parents to steer, accelerate, brake (P gear), and select speeds.
- **Dual Pedal System:** The car features both a driver pedal and a parental control pedal, allowing either the child or the parent (from the rear seat) to control acceleration.

Controls:

- **Power Button:** Turns the car on/off.
- **Speed Control:** Buttons for High/Low speed selection.
- **Forward/Reverse:** Lever or button to select driving direction.
- **Music/Sound:** Integrated music system for entertainment.

6. CHARGING INSTRUCTIONS

To ensure optimal battery life and performance, follow these charging guidelines:

- **Initial Charge:** Charge the battery for 8-12 hours before the first use. Do not overcharge.
- **Regular Charging:** A full charge typically takes 8-12 hours.
- **Charging Port:** The charging port is usually located near the dashboard or under the seat. Plug the charger into the port and then into a standard wall outlet.
- **Indicator:** The charger may have an indicator light to show charging status (e.g., red for charging, green for fully charged).
- **Playtime:** A fully charged battery provides approximately 1-3 hours of playtime, depending on usage and terrain.

- Do not charge the battery for more than 18 hours to prevent damage.

7. MAINTENANCE

Regular maintenance helps prolong the life and ensure the safe operation of your ride-on car.

Cleaning:

- Wipe the car with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Avoid spraying water directly onto electrical components.

Storage:

- Store the car in a dry, cool place away from direct sunlight and moisture.
- If storing for extended periods, charge the battery fully every 30 days to prevent deep discharge.
- The rear seat can be removed to create a storage space, allowing the car to be stored more compactly.

Image: The car's integrated storage box feature.

Battery Care:

- Do not allow the battery to completely drain.
- If the car will not be used for a long time, disconnect the battery.

8. TROUBLESHOOTING

If you encounter issues with your ride-on car, refer to this section for common problems and solutions.

Common Issues:

- **Car does not move:** Check battery connections, ensure the power button is on, and verify the remote control is paired and has fresh batteries.
- **Slow speed/Loss of power:** The battery may need charging. Ensure the car is not overloaded. Check for obstructions in the wheels or motors.
- **Remote control not working:** Replace remote batteries. Re-pair the remote control with the car. Ensure no interference from other devices.
- **Unusual noises:** Inspect wheels and axles for debris or damage. Ensure all assembly screws are tight.

If problems persist after attempting these solutions, contact customer support.

9. SPECIFICATIONS

Feature	Detail
Product Dimensions	39.37 x 22.83 x 11.02 inches
Item Weight	46.5 pounds
Model Number	N4ky-2388YC18Dud5
Battery	24V 7Ah
Motors	2 x 120W
Maximum Load	200 LBS (90 KG)
Maximum Speed	4 MPH
Charging Time	8-12 Hours
Playing Time	1-3 Hours
Recommended Age	3 - 8 years
Manufacturer	Nasitip
