

## TecTake 801224

# tectake® Outdoor Garden Gazebo Instruction Manual

Model: 801224

## 1. INTRODUCTION

Thank you for choosing the tectake® Outdoor Garden Gazebo. This versatile and robust gazebo is designed to provide a perfect setting for various outdoor events, from barbecues and birthday parties to casual gatherings. Its chalet-style design, waterproof and UV-resistant fabric, and flexible roll-up side panels offer adaptable protection against the elements. This manual provides essential information for safe assembly, operation, and maintenance to ensure long-lasting enjoyment of your product.

## 2. SAFETY WARNINGS

- **Anchoring:** Always ensure the gazebo is correctly and securely anchored, especially in windy conditions. Use all provided tension ropes and pegs. Inadequate anchoring can lead to collapse and injury.
- **UV Exposure:** While the fabric is UV-resistant, prolonged exposure to direct sunlight can still cause material degradation over time. Be mindful of extended use in intense sunny conditions.
- **Weather Conditions:** Do not use the gazebo in extreme weather conditions such as heavy winds, storms, or significant snowfall. Disassemble the gazebo if severe weather is anticipated.
- **Assembly:** Always follow the assembly instructions carefully. It is recommended to have at least two people for assembly to ensure safety and ease of installation.
- **Fire Hazard:** Keep all heat sources and open flames away from the gazebo fabric. The material is not fireproof.

## 3. PACKAGE CONTENTS

Please check that all components are present before beginning assembly:

- 1 x Pavilion structure (frame components)
- 1 x Roof cover
- 6 x Side panels
- 6 x Tension ropes
- 12 x Pegs
- 1 x Assembly instructions manual

## 4. SPECIFICATIONS

Overall Dimensions (L x W x H)	Approx. 6 x 3 x 2.5 m (19.7 x 9.8 x 8.2 ft)
--------------------------------	---

Passage Height	190 cm (6.2 ft)
Frame Diameter	Approx. 2.5 cm (1 inch)
Fabric Thickness	Approx. 110 g/m²
Weight	Approx. 13.1 kg (28.9 lbs)
Materials	Epoxy-coated steel, polyethylene, polypropylene

## 5. SETUP AND ASSEMBLY

Assembly of the tectake® gazebo is designed to be straightforward, utilizing a simple interlocking system. It is recommended to assemble the gazebo on a flat, stable surface.

1. **Frame Assembly:** Begin by connecting the steel frame components using the interlocking system. Ensure all connections are fully engaged and secure. The frame is made of robust epoxy-coated steel for durability.

1. Montage facile et rapide par emboîtement

2. Fixations auto-agrippantes pratiques

3. Cordes résistantes pour une stabilité accrue

4. Pieds ancrables à l'aide de piquets

Image: Step 1 - Easy and quick assembly by interlocking. Step 2 - Practical hook-and-loop fasteners.

2. **Attach Roof and Side Panels:** Once the frame is erected, securely attach the roof cover and the six side panels to the frame using the integrated hook-and-loop fasteners. Ensure all fasteners are firmly attached to prevent the fabric from detaching.

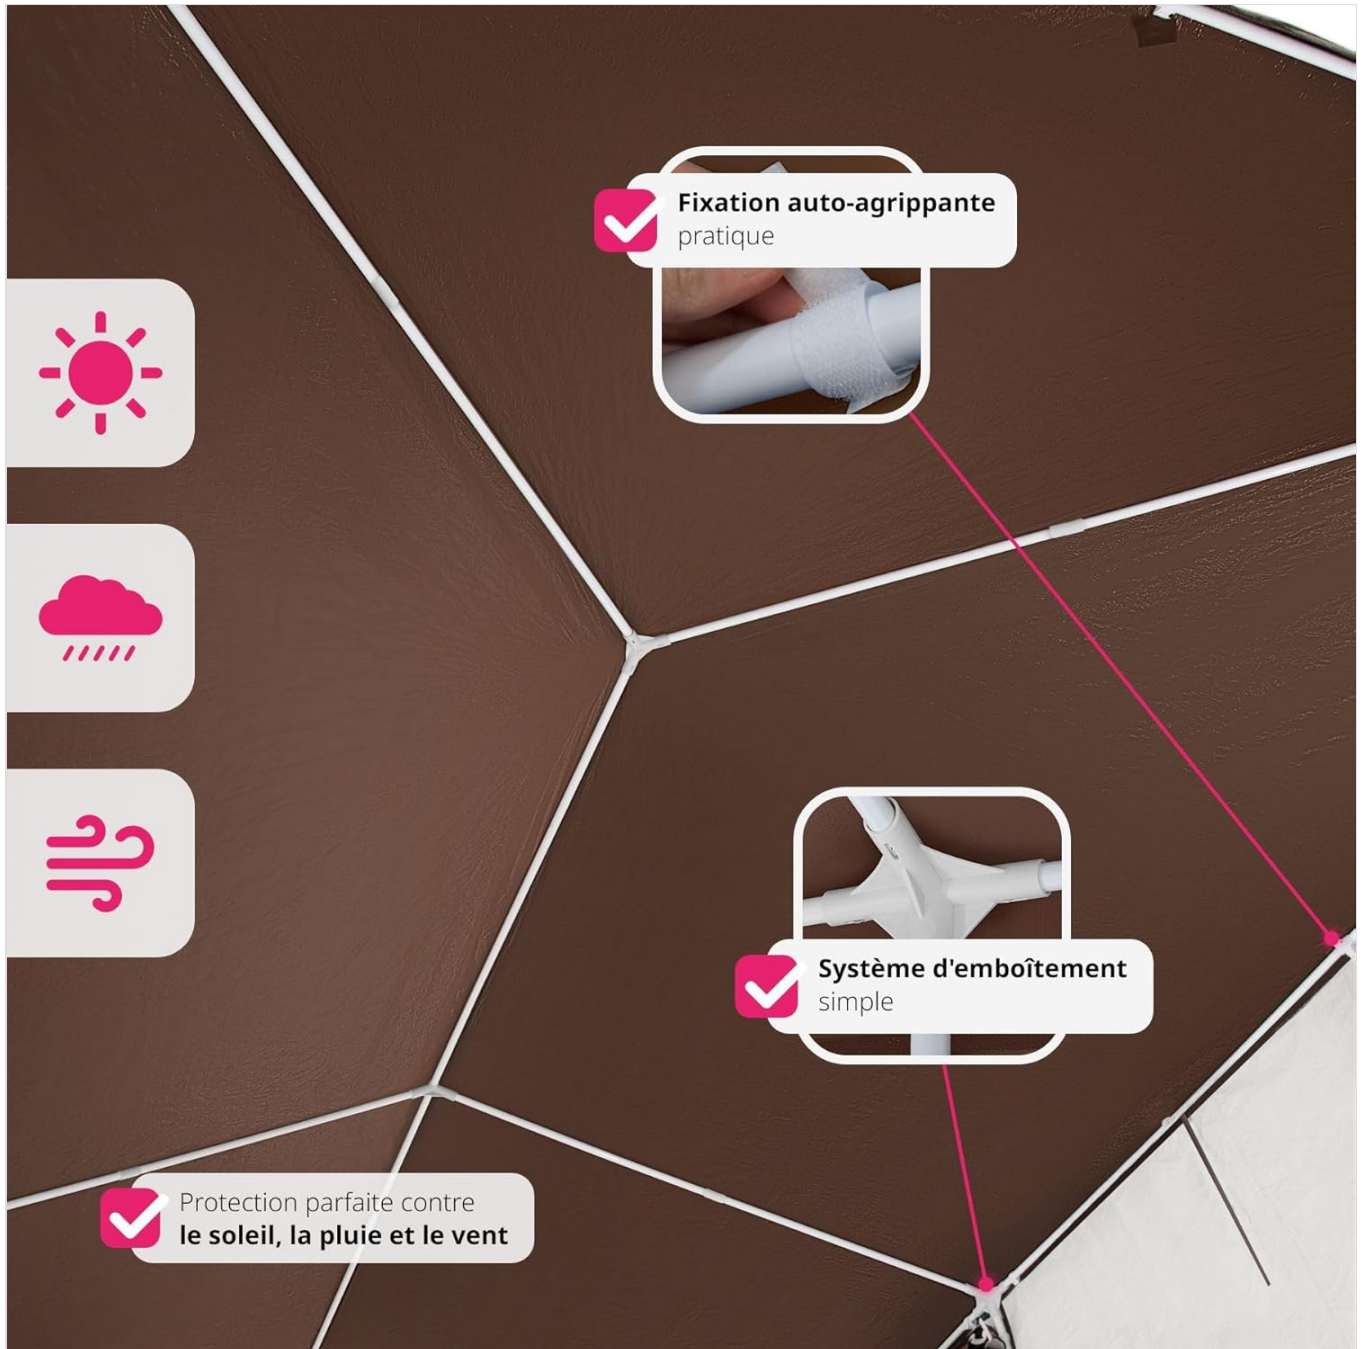

Image: Close-up showing the practical hook-and-loop fastener and simple interlocking system for secure attachment.

3. **Secure Anchoring:** For absolute stability, especially in varying weather conditions, attach the 6 tension ropes to the designated points on the gazebo frame. Drive the 12 pegs into the ground through the feet of the gazebo and secure the tension ropes to the ground using the remaining pegs. This reinforced anchoring system is crucial for stability.

**1.** Montage facile et rapide par emboîtement

**2.** Fixations auto-agrippantes pratiques

**3.** Cordes résistantes pour une stabilité accrue

**4.** Pieds ancrables à l'aide de piquets

*Image: Step 3 - Resistant ropes for increased stability. Step 4 - Anchorable feet with pegs.*

The gazebo is designed to offer protection from sun, rain, and wind, making it ideal for various outdoor occasions.

### CARACTÉRISTIQUES

**Look charmant**

style chalet pour une ambiance sympa & rustique

**100 % étanche**

grâce à la toile indéchirable avec coutures scellées

**Cadre robuste**

en acier laqué époxy solide

**Montage rapide**

grâce au système d'emboîtement pratique

**6 panneaux latéraux**

flexibles, enroulables et amovibles

**Grande stabilité**

grâce à 6 pieds et 6 câbles de tension résistants

**Résistance UV élevée**

protège contre la décoloration et l'usure

**Ancrage solide**

avec 12 piquets pour une stabilité supplémentaire

Image: Features of the tectake® gazebo, including its charming chalet style, 100% waterproof fabric, robust epoxy-coated steel frame, quick assembly, 6 flexible roll-up side panels, high stability with 6 feet and tension cables, high UV resistance, and solid anchoring with 12 pegs.

## 6. OPERATING INSTRUCTIONS

The tectake® gazebo offers flexibility for various uses:

- **Roll-up Side Panels:** The six side panels can be easily rolled up and secured to create an open, inviting space, or left down for increased privacy and protection from wind or sun. This feature allows you to adapt the gazebo to changing weather conditions or event needs.

## 7. MAINTENANCE

---

- **Cleaning:** Clean the fabric and frame with a mild soap solution and water. Do not use harsh chemicals or abrasive cleaners, as these can damage the materials. Rinse thoroughly and allow to air dry completely before storage.
- **Storage:** When not in use for extended periods or during severe weather, disassemble the gazebo and store all components in a dry, cool place, away from direct sunlight. Ensure the fabric is completely dry to prevent mold and mildew.
- **Inspection:** Periodically inspect the frame for any signs of rust or damage. Check the fabric for tears or excessive wear. Replace any damaged components immediately to maintain structural integrity and safety.

## 8. TROUBLESHOOTING

---

- **Gazebo unstable:** Ensure all frame connections are fully engaged. Verify that all tension ropes are taut and all 12 pegs are securely driven into the ground. If the ground is soft, consider using larger or additional anchoring methods (e.g.,

sandbags, weights).

- **Water pooling on roof:** Ensure the roof cover is taut and properly stretched over the frame. Water pooling can occur if the fabric sags, potentially leading to damage or collapse. Adjust the frame or fabric tension as needed.
- **Difficulty with assembly:** Refer to the assembly instructions provided. Ensure you have enough space and assistance (at least two people are recommended). Check that all parts are correctly oriented before attempting to connect them.
- **Fabric tears or holes:** Small tears can often be repaired with a suitable fabric repair kit. For larger damage, replacement parts may be necessary. Contact customer support for availability.

## 9. WARRANTY AND SUPPORT

---

This product comes with a standard manufacturer's warranty against defects in materials and workmanship. Please retain your proof of purchase for warranty claims. For technical support, replacement parts, or any other inquiries, please contact tectake® customer service through the retailer where you purchased the product or visit the official tectake® website for contact information.

Information regarding spare parts availability is currently not available. Please contact customer support for specific inquiries.
