SETUP

Setting the Time and Date

Your LN LENQIN R015 watch is equipped with a crown for adjusting the time and date. Follow these steps:

- To Set the Date:** Gently pull the crown out to the first click position. Turn the crown counter-clockwise to adjust the date.
- To Set the Time:** Pull the crown out further to the second click position. Turn the crown clockwise or counter-clockwise to adjust the hour and minute hands to the correct time.
- Once the time and date are set, push the crown back in completely to its original position to start the watch movement.

EASY TO SET THE DATE AND TIME

Calendar Function: Pull the crown out to the first gear, and then turn counterclockwise set the date.

Time Function: Pull the crown out to the second gear, then turn it until the correct time appears. Remember to push the crown back to the original position.

OPERATING

Water Resistance

This watch is 30M (3 ATM) water-resistant, meaning it is suitable for daily life activities such as hand-washing, sweat, and rain. It is **not** suitable for bathing, swimming, or diving. Avoid pressing any buttons underwater.

DAILY LIFE WATERPROOF

- | | |
|---------------|------------|
| ✓ Hand-wash | ✗ Swimming |
| ✓ Sweat-proof | ✗ Bathing |
| ✓ Rain-proof | ✗ Diving |

USE TIPS:

Note1: Forbidden to soak sea water, touch corrosion liquid or hot water.

Note2: Please do not press any button underwater.

Luminous Dial

The watch features a luminous dial, allowing for easy time reading in low-light conditions. The luminosity depends on the watch's exposure to light; longer exposure to light results in a more noticeable glow in the dark.

EASY TO READ TIME IN DARK

Note: It depends on the time of the watch exists under the light, the longer the time under the light, and it is more noticeable at night.

Image: The luminous dial of the watch, visible in darkness.

12/24 Hour Format

The watch dial displays both 12-hour and 24-hour (military) time formats, providing clear and accurate timekeeping for various preferences.

LARGE SCREEN 12/24 HOURS FORMAT

Accurate number make it more easier to see the time whether in day and night.

German imported mineral glass, anti-scratch, exquisitely crafted, more durable.

MAINTENANCE

To ensure the longevity and optimal performance of your LN LENQIN R015 watch, please follow these maintenance guidelines:

- **Cleaning:** Wipe the watch case and strap regularly with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Strap Care:** The ultra-soft silicone strap is wear-resistant and breathable. Clean it with mild soap and water if necessary.
- **Battery:** The watch uses an imported Japanese quartz analog movement and battery, designed for long-term operation (more than a year). When the battery needs replacement, it is recommended to have it done by a professional watch technician to maintain water resistance.
- **Avoid Extreme Conditions:** Do not expose the watch to extreme temperatures, direct sunlight for prolonged periods, or strong magnetic fields.
- **Water Exposure:** As mentioned, avoid soaking in seawater, touching corrosive liquids, or hot water. Do not press buttons underwater.

POWERFUL JAPAN MOVEMENT & BATTERY

Japan imported quartz analog movement, keep accurately time. Imported battery, long-term operation standby for more than a year.

Image: Information on the watch's Japan imported quartz movement and long-lasting battery.

TROUBLESHOOTING

- **Watch Not Glowing in the Dark:** Ensure the watch has been sufficiently exposed to light. The luminous material needs to absorb light to glow.
- **Water Inside the Watch:** If water appears inside the watch, immediately take it to a professional watch repair service. This may indicate a compromised seal, especially if the watch was exposed to conditions beyond its 30M water resistance rating (e.g., swimming, bathing, diving).
- **Inaccurate Timekeeping:** Check if the crown is fully pushed in. If the issue persists, the battery may need replacement or the movement may require servicing.

SPECIFICATIONS

Feature	Detail
Item Model Number	R015
Case Diameter	1.57 inch / 40mm
Case Thickness	0.43 inch / 11mm
Strap Width	0.78 inch / 20mm
