## PRODUCT FEATURES

### Powerful Cooling & Brushless Motor

The Saker Handheld Turbo Fan delivers powerful airflow, reaching speeds up to 12m/s. It features a high-speed brushless motor that provides infinitely variable speed control, allowing you to precisely adjust the fan's intensity across 100 different settings, from a gentle breeze to a strong gust.

## High Speed Brushless Motor

The Maximum Wind Speed Can Reach 12m/s

Figure 3: High-speed brushless motor for powerful airflow.

## Removable & Rechargeable Batteries

Equipped with two 8800mAh removable batteries, the fan offers extended operation from 3 to 24 hours depending on the speed setting. A single battery fully charges in approximately 2.5 hours via the Type-C port, ensuring continuous use by swapping batteries.

## 8800mAh High Quality Battery

Up to 24 hours of continuous operation with 2 batteries. The base is detachable and the battery can be replaced freely.

Figure 4: Long-lasting 8800mAh removable batteries.

## Portable Design

With its compact dimensions (2.9"D x 2.5"W x 6.9"H) and lightweight design (15.84 ounces), this fan is highly portable. It easily fits into bags or pockets, making it convenient for on-the-go cooling.

# Portable Small Size

*Easy to carry and use as needed*

Figure 5: Compact and portable design for easy carrying.

## Versatile Use with Nozzle

The included round wind nozzle transforms the fan into a powerful blower, suitable for tasks like outdoor barbecue or cleaning dust from keyboards. Its versatility makes it perfect for various occasions, from travel and makeup to camping and office work.

Figure 6: Multifunctional use with the included round wind nozzle.

# SETUP

## Battery Installation

1. Remove the battery compartment cover at the bottom of the fan handle.
2. Insert one of the provided 8800mAh Lithium-Ion batteries into the compartment, ensuring correct polarity.
3. Replace the battery compartment cover securely.

## Charging the Battery

1. Connect the Type-C data cable to the charging port on the fan's handle.
2. Connect the other end of the cable to a compatible USB power source (e.g., power bank, adapter, car charger, laptop).
3. The indicator light will show red while charging and turn green when fully charged.

Figure 7: Type-C charging port for convenient charging.

## Attaching the Round Wind Nozzle

Align the round wind nozzle with the fan's air outlet and gently push it into place until it is secure. To remove, pull the nozzle off.

# OPERATING INSTRUCTIONS

## Power On/Off

To turn the fan ON or OFF, long press the switch button located on the handle for 2 seconds.

## Adjusting Fan Speed

Once the fan is on, rotate the switch button to adjust the wind power:

- Rotate right to increase wind power (speeds 1-100).
- Rotate left to decrease wind power.

## One Touch To Trigger

Long press for two seconds to switch on or off  
Rotate right to increase wind power

Figure 8: One-touch trigger and speed adjustment dial.

## Indicator Light Status

- Red light: Charging in progress.
- Green light: Fully charged.

## MAINTENANCE

### Cleaning

To clean the fan, ensure it is turned off and unplugged. Use a soft, dry cloth to wipe the exterior. For the air outlet, you may use the included nozzle as a blower to clear any dust or debris. Do not immerse the fan in water or use harsh chemicals.

### Battery Care

To prolong battery life, store batteries in a cool, dry place when not in use. Avoid fully discharging batteries frequently. Recharge them regularly, even if not used for extended periods.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Fan does not turn on.	Battery is low or depleted.	Charge the battery fully.
	Battery not installed correctly.	Ensure battery is inserted with correct polarity and securely.
	Power button not pressed long enough.	Long press the power button for 2 seconds.
Weak airflow.	Speed setting is too low.	Rotate the dial to increase speed.
	Air outlet is obstructed.	Clear any debris from the air outlet.
Short battery life.	Operating at high speeds.	Lower the speed setting for longer battery life.

Problem	Possible Cause	Solution
	Battery is old or damaged.	Replace with a new Saker battery.

## SPECIFICATIONS

Feature	Detail
Model Number	897
Dimensions (L x W x H)	2.9 x 2.5 x 6.9 inches
Weight	15.84 ounces
Battery Capacity	8800mAh (2 x 4400mAh equivalent)
Battery Type	Lithium Ion (Replaceable)
Charging Time	Approx. 2.5 hours (per battery)
Operating Time	3-24 hours (depending on speed)
Max Wind Speed	12 m/s
Motor Type	Brushless Motor
Speed Settings	100 (Infinitely Variable)
Charging Port	USB Type-C
Wattage	17.6 watts
