4. Setup

4.1 Initial Power On

To power on your Ulefone Armor Pad PRO for the first time, press and hold the Power button until the Ulefone logo appears on the screen. The tablet will then guide you through the initial setup wizard.

4.2 SIM Card and MicroSD Card Installation

The Armor Pad PRO supports dual SIM cards and a microSD card for expanded storage up to 2TB. Locate the SIM/microSD card slot on the side of the device, gently open the protective flap, and insert your cards as indicated by the tray's diagram. Ensure the flap is securely closed to maintain water and dust resistance.

4.3 First-Time Setup Wizard

Follow the on-screen prompts to complete the initial setup:

1. **Select Language:** Choose your preferred language.
2. **Connect to Wi-Fi:** Select your Wi-Fi network and enter the password.
3. **Google Account:** Sign in with your Google account or create a new one. This is essential for

accessing the Google Play Store and other Google services.

4. **Date & Time:** Set your current date and time, or allow the network to set it automatically.

5. **Security:** Set up a screen lock (PIN, pattern, password, or fingerprint).

Powerful 7,650mAh Battery

You're full of energy, and so is the Armor Pad Pro. Its massive 7,650mAh battery capacity is twice that of the iPad Mini and about the same as the iPad Pro 11. It gives you the confidence to go through an entire workday or outdoor activities, with up to 14 hours of intensive tasks, team communication, GPS tracking, and video viewing.

6. Maintenance and Care

The Ulefone Armor Pad PRO is built to be rugged, but proper care will extend its lifespan and maintain its performance.

IP68, IP69K Rated MIL-STD-810H Certified

Your next adventure awaits. Ulefone Armor Pad Pro is constructed using tough, shock-absorbent materials and engineered to handle the hardest jobs. This rugged tablet comes with high IP68 and IP69K ratings against water, dust, and dirt. It's even MIL-STD-810H certified, which means superb durability that survives extreme temperatures and multiple drops from 1.5 meters.

- Water and Dust Resistance:** Ensure all port covers are securely closed before exposing the device to water or dust. Do not intentionally submerge the device beyond its rated depth (1.5m for 30 minutes) or expose it to high-pressure water jets.
- Drop Protection:** While MIL-STD-810H certified for drops up to 1.5m, extreme impacts can still cause damage. Avoid unnecessary drops.
- Battery Care:** Avoid exposing the battery to extreme temperatures. Use only the provided charger and cable. Do not fully discharge the battery frequently.
- Cleaning:** Use a soft, damp cloth to clean the device. Avoid harsh chemicals or abrasive materials. For ports, ensure they are dry before charging.
- Temperature:** Operate the device within recommended temperature ranges. Extreme heat or cold can affect performance and battery life.

7. Troubleshooting

If you encounter issues with your Ulefone Armor Pad PRO, try the following solutions:

- Device Not Responding:** Press and hold the Power button for about 10-15 seconds to force a restart.

- **Cannot Connect to Wi-Fi:** Ensure Wi-Fi is enabled in Settings. Restart your router and the tablet. Forget the network and reconnect.
- **Poor Cellular Signal:** Check if your SIM card is properly inserted. Ensure you are in an area with network coverage. Note network compatibility restrictions mentioned in Section 5.4.
- **Battery Drains Quickly:** Reduce screen brightness, close unused apps, disable unnecessary connectivity features (Bluetooth, GPS) when not in use. Check battery usage in Settings to identify power-hungry apps.
- **Apps Crashing/Freezing:** Clear the cache and data of the problematic app in Settings > Apps. If the issue persists, uninstall and reinstall the app.
- **Device Overheating:** Close background apps, reduce screen brightness, and avoid using the device while charging for extended periods.
- **Factory Reset:** As a last resort, if software issues persist, you can perform a factory reset in Settings > System > Reset options > Erase all data (factory reset). **Warning: This will erase all data on your device. Back up important data before proceeding.**
