Contents of the BlueAnt Soundblade package, including the soundbar, cables, and remote.

SETUP GUIDE

Follow these steps to set up your BlueAnt Soundblade:

1. Place the Soundblade on a stable surface directly under your monitor.
2. Connect the power cable to the Soundblade and a power outlet.
3. Choose your preferred audio connection:
 - **USB-C:** Connect the USB-C to USB-C cable from the Soundblade to your computer. If your computer only has USB-A, use the provided USB-C to USB-A cable.
 - **Bluetooth:** Power on the Soundblade and activate Bluetooth pairing mode. Search for "Soundblade" on your device and connect.
 - **3.5mm Auxiliary:** Connect the 3.5mm to 3.5mm AUX cable from the Soundblade to your audio source.
4. (Optional) Attach the extended feet pegs if additional height is required for your monitor stand.

MAINTENANCE

To ensure the longevity and optimal performance of your Soundblade:

- Keep the device clean by wiping it with a soft, dry cloth.
- Avoid exposing the Soundblade to water or excessive moisture.
- Do not block the speaker grilles or ventilation openings.
- Store in a cool, dry place when not in use for extended periods.

TROUBLESHOOTING

No Power:

Ensure the power cable is securely connected to both the Soundblade and a working power outlet. Check if the power adapter is functioning correctly.

No Sound:

Verify that the correct input source (USB-C, Bluetooth, or AUX) is selected. Check the volume levels on both the Soundblade and your connected device. Ensure all audio cables are properly connected.

Bluetooth Pairing Issues:

Make sure the Soundblade is in Bluetooth pairing mode. Disable and re-enable Bluetooth on your device, then try pairing again. Ensure no other devices are actively connected to the Soundblade via Bluetooth.

Distorted Audio:

Reduce the volume on both the Soundblade and your connected device. Check for any loose cable connections. Try a different audio source or cable.
