AMERLIFE BMB018

AMERLIFE King Size Farmhouse Bed Frame Instruction Manual

Model: BMB018

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Ensure all parts are present and undamaged before beginning assembly. If any parts are missing or damaged, do not proceed with assembly.
- Assembly should be performed by two adults to ensure safety and ease.
- Do not use power tools for assembly unless specifically instructed, as this may overtighten fasteners and damage the product.
- Periodically check all connections and fasteners to ensure they remain tight.
- Do not exceed the recommended weight capacity of 900 lbs.
- Keep small parts away from children during assembly.
- Please confirm if the item is intact when you receive it.

2. PACKAGE CONTENTS

Verify that all components listed below are included in your package. If any items are missing, please contact customer support.

- Headboard (1)
- Footboard (1)
- Side Rails (2)
- Wood Slats (Set)
- Center Support Beam (1)
- Support Legs (Multiple)
- Hardware Pack (Bolts, Washers, Nuts, Allen Wrench)
- Installation Manual (1)

3. SETUP AND ASSEMBLY

Follow these steps carefully for proper assembly. It is recommended to assemble the bed frame in the room where it will be used.

1. **Unpack and Identify Parts:** Lay out all components on a clean, soft surface (like a carpet) to prevent scratches. Refer to the parts list to identify each piece.
2. **Attach Side Rails to Headboard:** Connect the side rails to the headboard using the provided bolts and an Allen wrench. Do not fully tighten bolts until all major components are assembled.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard. Ensure the headboard and footboard are facing the correct direction.
4. **Install Center Support Beam:** Place the center support beam along the middle of the frame. Attach it to the headboard and footboard using the designated hardware.
5. **Attach Support Legs:** Securely attach the adjustable support legs to the center support beam and any other designated points on the frame. Adjust them to ensure even contact with the floor.
6. **Install Wood Slats:** Position the wood slats evenly across the bed frame. The embedded design helps prevent mattress slippage. Secure the slats using the provided fasteners or by placing them into the designated slots. Some slats may include 'jacks' for additional support; ensure these are properly installed and adjusted.
7. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and fasteners. Do not overtighten.

Image: Illustration of how the support jacks are installed beneath the slats to provide additional stability to the bed frame.

4. OPERATING INSTRUCTIONS

This bed frame is designed for optimal comfort and support without the need for a box spring.

- **Mattress Placement:** Place your King size mattress directly onto the installed wood slats. The frame is compatible with mattresses ranging from 9 to 16 inches in height.
- **Under-Bed Storage:** The design provides ample under-bed storage space, approximately 11.8 inches from the ground to the item. This area is suitable for storage bins or for robot vacuum cleaners.
- **Noise-Free Design:** The bed frame incorporates silent cotton padding to minimize noise during use, ensuring a peaceful sleeping environment.

Maximize Space

with Ample Under-Bed Storage

5. MAINTENANCE AND CARE

Proper care will extend the life and appearance of your bed frame.

- **Cleaning:** Wipe the wood surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Regular Inspection:** Periodically inspect all bolts and connections to ensure they are secure. Tighten any loose fasteners as needed.
- **Avoid Excessive Moisture:** Protect the bed frame from prolonged exposure to moisture or direct sunlight to prevent warping or fading.

6. TROUBLESHOOTING

If you encounter any issues with your bed frame, refer to the following common solutions.

- **Squeaking Noises:**

- Ensure all bolts and fasteners are securely tightened. Loose connections are a common cause of squeaking.
- Check the placement of the silent cotton padding. Ensure it is correctly positioned between metal components to reduce friction.
- Verify that the mattress is properly seated on the slats and not causing friction against the frame.

- **Instability/Wobbling:**

- Confirm that all support legs are making even contact with the floor. Adjust if necessary.
- Re-tighten all assembly bolts.
- Ensure the bed frame is on a level surface.

- **Mattress Slippage:**

- The embedded design of the slats is intended to prevent slippage. Ensure the mattress is correctly aligned within the frame.
- If slippage persists, consider using a non-slip mattress pad between the mattress and the slats.

7. SPECIFICATIONS

Feature	Detail
Brand	AMERLIFE
Model Number	BMB018
Size	King
Product Dimensions	82.5"L x 76"W x 49.2"H
Headboard Height	49.2"
Ground To Item Distance	11.8 Inches (Under-bed storage height)
Compatible Mattress Size	King, 76" x 80" (9-16" mattress height)
Weight Capacity	900 lbs
Color	Reclaimed Barnwood
Finish Type	Painted
Furniture Finish	Wood
Headboard Material	Engineered Wood
Special Features	Barn Door Headboard & Footboard, No Box Spring Needed, Noise-Free Design
Assembly Required	Yes
Item Weight	104.1 pounds
