5. Maintenance and Care

Proper care will extend the life of your smoker cover:

- **Cleaning:** To clean the cover, simply hose it down with water. For stubborn dirt, use a mild soap solution and a soft brush, then rinse thoroughly.
- **Drying:** Allow the cover to air dry completely before storing or placing it back on the smoker to prevent mildew.
- **Storage:** When not in use, store the cover in a dry, shaded area.

6. Troubleshooting

- **Cover Blows Off:** Ensure the cover is fully seated and adjusted. If high winds are a frequent concern, consider securing the cover with additional straps or bungee cords (not included) around the base of the smoker.
- **Fading:** While designed to be fade-resistant, prolonged exposure to intense direct sunlight over many months may cause some color change. Regular cleaning and occasional repositioning can help.
- **Water Accumulation:** Ensure the cover is taut and not pooling water. If water is getting through, inspect the cover for any damage or tears.
