Belkin BBD003-WH-2PK

Belkin BoostCharge Braided USB-C to USB-A Charging Cable User Manual

Model: BBD003-WH-2PK

Brand: Belkin

1. INTRODUCTION

This manual provides essential information for the proper use and maintenance of your Belkin BoostCharge Braided USB-C to USB-A Charging Cables. These cables are designed for reliable charging and data transfer across a wide range of compatible devices.

2. WHAT'S IN THE BOX

Your package should contain the following items:

- 2 x 3.3ft (1 meter) Belkin BoostCharge Braided USB-C to USB-A Cables

3. SETUP

Setting up your Belkin BoostCharge cable is straightforward. Follow these steps to begin charging or transferring data:

1. **Identify Connectors:** Locate the USB-A connector (the rectangular end) and the USB-C connector (the smaller, reversible end) on your cable.
2. **Connect to Power Source/Host Device:** Insert the USB-A connector into a compatible USB-A port on a wall charger, car charger, power bank, or computer. Ensure the port provides sufficient power for charging.
3. **Connect to Your Device:** Insert the USB-C connector into the USB-C port of your compatible device (e.g., smartphone, tablet, gaming console). The USB-C connector is reversible, so it can be inserted in either orientation.
4. **Verify Connection:** Once connected, your device should indicate that it is charging or connected for data transfer.

Get the Right Cable Length

Image: A person using a laptop with a phone connected via the 3.3ft (1M) cable, demonstrating typical usage scenarios.

4. OPERATING INSTRUCTIONS

Your Belkin BoostCharge cable supports both charging and data transfer functionalities.

4.1. Charging Your Device

Connect the USB-A end to a power adapter and the USB-C end to your device. The cable supports up to 15W charging, providing efficient power delivery to compatible devices.

15W Charging 480 Mbps Data Transfer

Image: A smartphone connected to the cable, displaying '15W Charging' and '480 Mbps Data Transfer' capabilities.

4.2. Data Transfer

To transfer data, connect the USB-A end to a computer's USB-A port and the USB-C end to your device. The cable supports data transfer speeds of up to 480 Mbps, allowing for quick syncing of music, photos, and other files.

4.3. Wide Compatibility

These cables are compatible with a broad range of USB-C enabled devices, including but not limited to:

- Apple iPhone 16 Series, iPhone 15 Series
- Samsung Galaxy S25 Series

- Google Pixel 9 & 8, Pixel 10 Series
- iPad Pro, USB-C tablets
- Nintendo Switch 2
- Devices supporting Apple Carplay and Android Auto

Wide Compatibility

Charge and transfer data for your USB-C phones, tablets and other devices.

Compatible with USB-C devices like the iPhone 15 series, iPad Pro, and Galaxy S24 Series.

Image: An assortment of modern smartphones and tablets, highlighting the cable's wide compatibility with USB-C devices.

5. MAINTENANCE

To ensure the longevity and optimal performance of your Belkin BoostCharge Braided USB-C to USB-A cables, follow these maintenance guidelines:

- **Handle with Care:** Avoid excessive bending, twisting, or pulling on the cable, especially near the connectors. While designed for durability, extreme stress can cause damage.

- **Keep Clean:** Periodically wipe the cable and connectors with a dry, soft cloth to remove dust and debris. Avoid using harsh chemicals or abrasive materials.
- **Proper Storage:** When not in use, coil the cable loosely. Avoid tightly wrapping or knotting the cable, which can stress the internal wires.
- **Avoid Extreme Conditions:** Do not expose the cable to extreme temperatures, direct sunlight for prolonged periods, or moisture.

Built to Last

Tested to survive*

30,000 bends

10,000 plugs

*Based on internal testing.

6. TROUBLESHOOTING

If you encounter issues with your Belkin BoostCharge cable, refer to the following common troubleshooting steps:

- **Device Not Charging:**

- Ensure both ends of the cable are securely connected.
- Try a different power adapter or USB-A port.
- Test the cable with a different device to rule out a device-specific issue.
- Check if the power source is active and providing power.

- **Slow Charging:**

- Verify that your power adapter supports the required wattage for your device (up to 15W for this cable).
- Ensure your device's charging port is clean and free of debris.
- Avoid using the device heavily while charging, as this can slow down the process.

- **Data Transfer Issues:**

- Confirm that your computer's USB-A port is functioning correctly.
- Ensure your device is set to 'File Transfer' or 'MTP' mode when connected to a computer, if applicable.
- Restart both your device and computer.

- **Cable Damage:**

- Visually inspect the cable for any signs of fraying, cuts, or bent connectors. Discontinue use if damage is observed.

7. SPECIFICATIONS

Detailed technical specifications for the Belkin BoostCharge Braided USB-C to USB-A Cable:

Model Number	BBD003-WH-2PK
Connector Type	USB Type A, USB Type C
Cable Type	USB
Cable Length	3.3 ft (1 meter)
Color	White
Data Transfer Rate	0.48 Gigabits Per Second (480 Mbps)
Maximum Charging Power	15W
Maximum Voltage	5 Volts
Special Features	Braided, Data Transfer, Superior Durability, USB-IF Certified
Durability Testing	30,000 bends, 10,000 plug-ins
Unit Count	2 cables per pack

Engineered for Safety

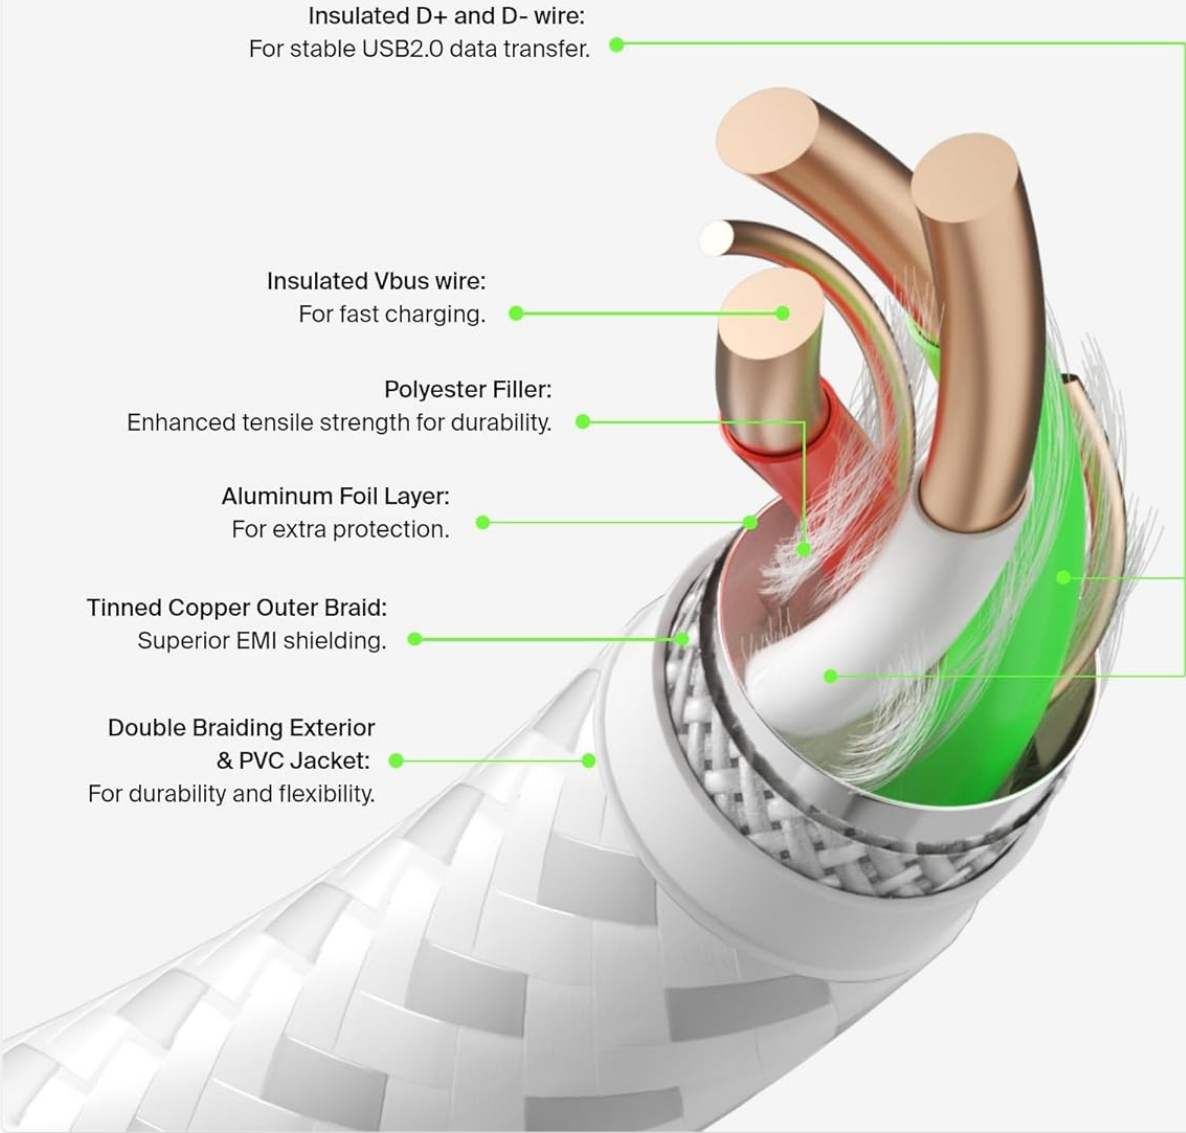

Image: An exploded view diagram illustrating the engineered layers of the cable, including insulated wires, polyester filler, aluminum foil, tinned copper braid, and double braiding for safety and durability.

USB-IF Certified

USB-IF certified cables ensure fast, safe charging and reliable data transfers. Protect your devices.
