## Xilecam B0D2MQDY9S

# Xilecam Night Vision Goggles User Manual

Model: B0D2MQDY9S | Brand: Xilecam

## 1. INTRODUCTION

---

Thank you for choosing the Xilecam Night Vision Goggles. This device is designed to provide clear vision in low-light and complete darkness conditions, making it ideal for various outdoor activities such as camping, hunting, security, and wildlife observation. Featuring 1080P video recording, 12MP image capture, 8X digital zoom, and a 3-inch display, these binoculars offer enhanced visibility and recording capabilities. Please read this manual thoroughly to ensure proper operation and maintenance of your device.

## 2. WHAT'S IN THE BOX

---

Upon unpacking, please verify that all the following items are included:

- Night Vision Goggles
- User Manual
- Lanyard
- 32GB Memory Card
- Charging Cable (USB Type-C)

### 3. PRODUCT OVERVIEW

Familiarize yourself with the main components and controls of your Night Vision Goggles:

1. **Objective Lens:** Captures light from the scene. Features a 25mm multi-layer coated optical lens.
2. **Infrared Illuminator (IR):** Provides invisible light for night vision in complete darkness. Features 7 adjustable levels.
3. **Focus Adjustment Ring:** Manual adjustment for clear images at various distances.
4. **Eyepiece/Display Screen:** 3.0-inch high-definition screen for viewing images and videos.
5. **Control Buttons:** Power, Mode, IR Level, Zoom, Menu, Record/Capture.
6. **Battery Compartment:** Houses the 5000mAh rechargeable Lithium-Ion battery.
7. **USB-C Port:** For charging the device.
8. **TF Card Slot:** For inserting the 32GB memory card to store recordings.

## 4. SETUP

---

### 4.1 Charging the Battery

The device comes with a built-in 5000mAh rechargeable Lithium-Ion battery. Before first use, fully charge the device.

1. Connect the provided USB-C charging cable to the device's USB-C port.
2. Plug the other end of the cable into a USB power adapter (not included) or a computer's USB port.
3. The charging indicator will show the charging status. Once fully charged, the indicator will change (refer to the device's display for specific icons).

### 4.2 Inserting the Memory Card

A 32GB memory card is included for storing photos and videos.

1. Locate the TF card slot on the side of the device.
2. Gently insert the memory card into the slot with the gold contacts facing down until it clicks into place.
3. To remove, push the card in slightly until it springs out.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Power On/Off

- **Power On:** Press and hold the Power button for a few seconds until the screen illuminates.
- **Power Off:** Press and hold the Power button again until the screen turns off.

### 5.2 Mode Selection

The device supports Photo Mode and Video Mode.

- Press the **Mode** button to switch between Photo (12MP) and Video (1080P) recording modes.

# DAY & NIGHT

## PHOTO MODE AND VIDEO MODE

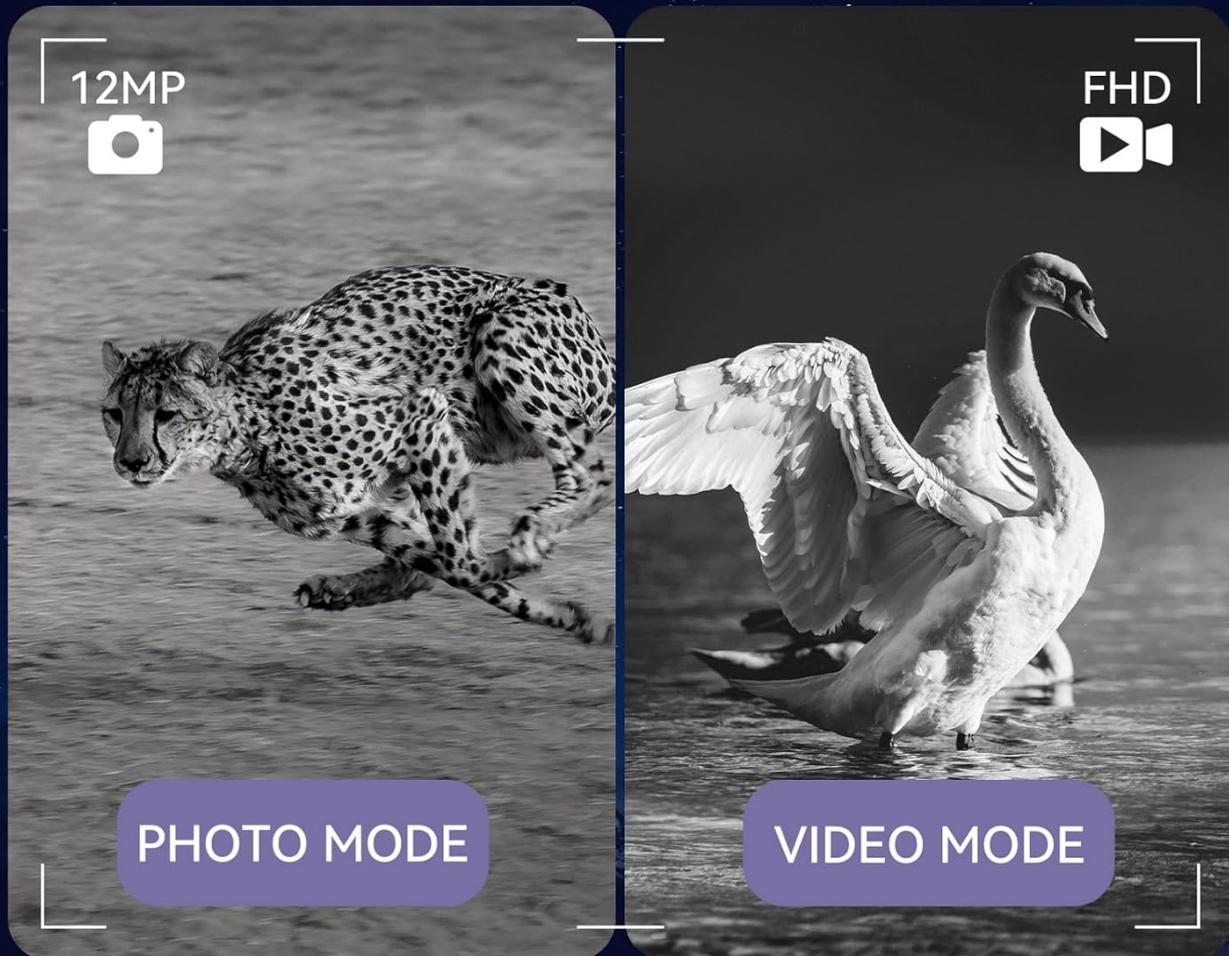

Image 5.1: Day and Night modes, illustrating the Photo (12MP) and Video (FHD) options.

### 5.3 Adjusting Infrared (IR) Levels

The infrared illuminator enhances visibility in dark conditions. There are 7 adjustable IR levels.

- In night vision mode, press the **IR+** button to increase the IR intensity.
- Press the **IR-** button to decrease the IR intensity.
- Higher IR levels provide brighter images in darker environments but may consume more battery.

# 7 LEVELS IR

Fearless Of The Night, Clearly Visible In The Darkness

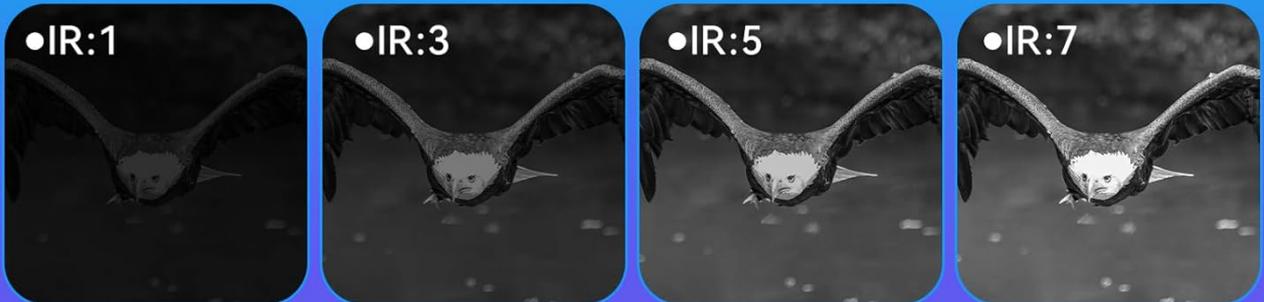

Image 5.2: The 7 levels of infrared illumination, demonstrating how visibility improves with higher IR settings.

## 5.4 Digital Zoom

The device features an 8X digital zoom to magnify distant objects.

- Use the **Zoom+** button to zoom in.
- Use the **Zoom-** button to zoom out.

## 5.5 Manual Focus

For optimal clarity, adjust the focus ring on the objective lens.

- Rotate the **Focus Adjustment Ring** (located around the objective lens) until the image on the screen appears sharp.

## 5.6 Capturing Photos and Videos

- In Photo Mode, press the **Record/Capture** button once to take a picture.
- In Video Mode, press the **Record/Capture** button once to start recording. Press it again to stop recording.

## 5.7 Screen Brightness Adjustment

Adjust the screen brightness to protect your eyes and avoid startling wildlife.

- Navigate to the menu settings to find the screen brightness option.
- Select your desired brightness level (e.g., 10%, 30%, 50%, 70%, 90%).

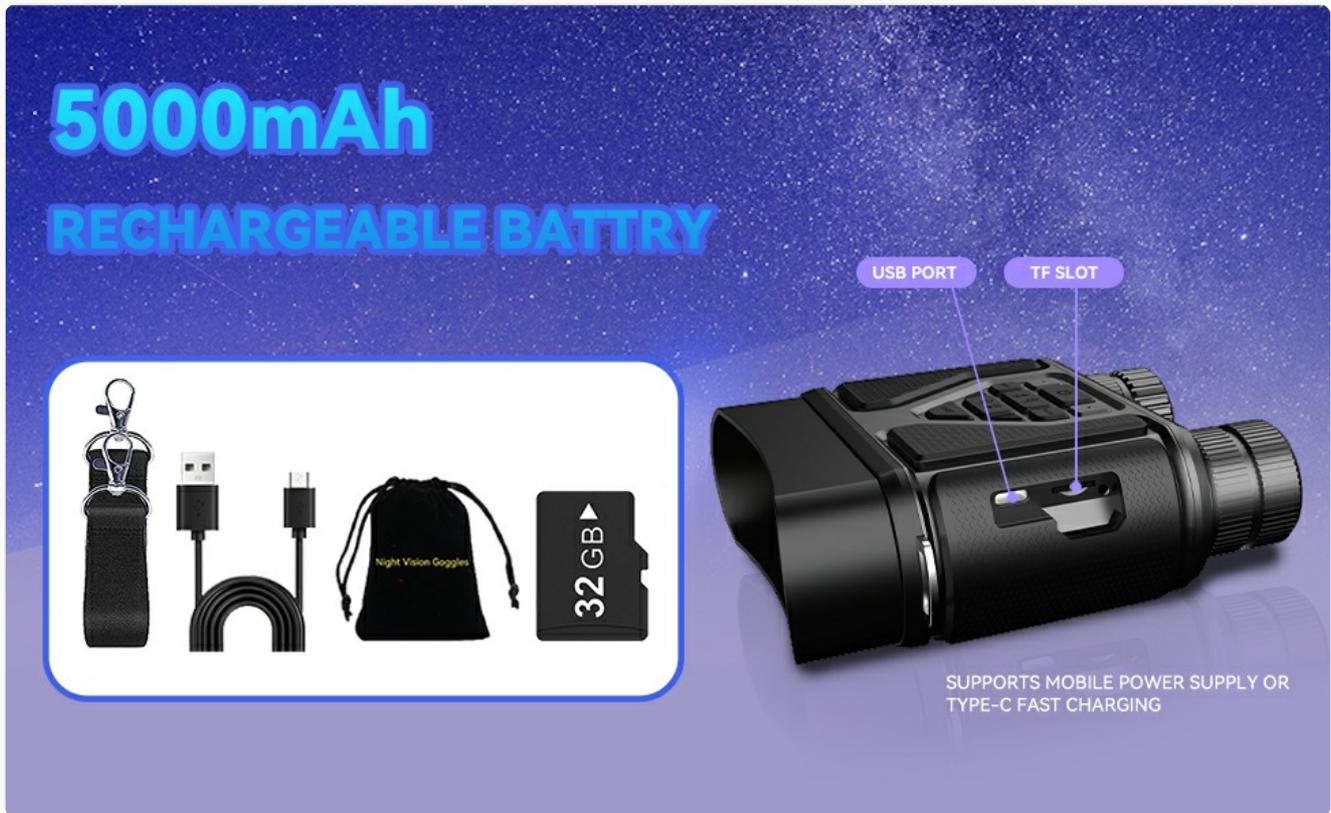

Image 5.3: Screen brightness adjustment options, demonstrating how different levels impact visibility and user discretion.

## 6. MAINTENANCE

### 6.1 Cleaning

- **Lenses:** Use a soft, lint-free cloth specifically designed for optical lenses. Gently wipe the lens surfaces. For stubborn smudges, use a small amount of lens cleaning solution.
- **Body:** Wipe the body of the device with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.

### 6.2 Storage

- Store the device in a cool, dry place, away from direct sunlight and extreme temperatures.
- Use the provided storage bag to protect the device from dust and scratches.
- If storing for an extended period, ensure the battery is partially charged (around 50%) to prolong its lifespan.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device does not power on	Low battery; Power button not pressed correctly	Charge the battery fully; Press and hold the Power button for several seconds
Image is blurry	Improper focus; Dirty lens	Adjust the manual focus ring; Clean the objective lens
Cannot see in total darkness	IR illuminator off or too low	Increase IR level using the IR+ button
Cannot record photos/videos	Memory card full or not inserted; Incorrect mode selected	Insert/replace memory card; Ensure card is properly formatted; Switch to Photo or Video mode
Short battery life	High IR level usage; Frequent recording	Reduce IR level when not needed; Fully charge battery before use; Consider using a power bank for extended use

## 8. SPECIFICATIONS

---

- **Model:** B0D2MQDY9S
- **Image Resolution:** 12MP
- **Video Resolution:** 1080P FHD
- **Display Screen:** 3.0-inch High-Definition
