# KRIDDO 2-in-1 Kids Tricycle and Toddler Balance Bike (Model KB007)

Instruction Manual

## 1. INTRODUCTION

---

The KRIDDO 2-in-1 Kids Tricycle and Toddler Balance Bike is designed to adapt to your child's developmental stages, offering both a stable tricycle mode and a balance bike mode. This versatile product supports children aged 18 months to 3 years in learning essential riding skills, from stability to balance, in a safe and engaging manner.

### 4.2. Attaching Rear Wheel and Training Wheels

1. Align the rear wheel with the rear fork of the bike frame.
2. Insert the axle through the wheel and frame, ensuring the 'UP' sign on the frame is facing upwards.
3. Secure the axle with the provided bolts using the tool kit.
4. Attach the training wheels to the designated slots on either side of the rear wheel. Ensure they click securely into place.

### 4.3. Attaching Front Wheel and Pedals

1. Insert the front wheel into the front fork.
2. Secure the front wheel with the provided bolts.
3. Attach the pedals by pressing the button on the pedal and inserting it into the front wheel's axle until it clicks.

### 4.4. Installing Handlebars and Seat

1. Insert the handlebars into the front tube of the frame.
2. Adjust the handlebar height using the quick-release clamp and tighten securely.
3. Insert the seat post into the seat tube.
4. Adjust the seat height using the quick-release clamp and tighten securely.

## 5. OPERATING INSTRUCTIONS

### 5.1. Adjusting Handlebars and Seat Height

The handlebars and seat can be adjusted without tools to ensure the most comfortable and appropriate height for your child. Simply open the quick-release clamp, slide the component to the desired height, and close the clamp firmly.

### 5.2. Switching to Balance Bike Mode

1. **Remove Pedals:** Press the button on each pedal and pull them outwards to detach. The pedals can be conveniently stored in the designated slot under the rear seat to prevent loss.

2. **Remove Training Wheels:** Press the release button on each training wheel and slide them off the rear wheel axle.
3. Ensure all removed parts are stored safely.

## 6. MAINTENANCE

---

- **Cleaning:** Wipe down the bike with a damp cloth and mild soap. Avoid harsh chemicals.
- **Tires:** The bike features never-flat Ethylene Vinyl Acetate (EVA) tires, requiring no inflation. Regularly check for debris or damage.
- **Frame:** The carbon steel frame is durable. Inspect for any signs of rust or damage, especially after exposure to moisture.
- **Moving Parts:** Periodically check all moving parts, including wheels, handlebars, and seat adjustments, for smooth operation and secure fastening.

## 7. TROUBLESHOOTING

- **Loose Components:** If any part feels loose, re-tighten the corresponding bolts or quick-release clamps.
- **Difficulty Switching Modes:** Ensure all release buttons are fully pressed and components are aligned correctly when attaching or detaching.
- **Unstable Ride:** Verify that the seat and handlebars are adjusted to the correct height for your child, allowing them to comfortably reach the ground with their feet in balance bike mode.
