5. Maintenance

5.1 Wireless Charging

The wallet supports wireless charging and lasts up to 6 months on a single charge. No special charging cable is required. Use a standard Magsafe wireless charger (not included).

- **Charging Status Light:** Orange light indicates charging. Green light indicates full charge.
- **Charging Position:** Due to opposing magnets between the wallet and some Magsafe wireless chargers, manual adjustment of the wallet's position may be necessary to align its magnetic ring with the charger's central position for optimal charging.

6. Troubleshooting

6.1 Pairing Issues

If you encounter difficulties pairing your wallet with the Find My app:

- Ensure your iPhone's Bluetooth is active and the wallet is within close proximity.
- Perform a factory reset on the wallet: Short press the power button 4 times, then long press for 3 seconds. After the reset, attempt to pair again.

6.2 Locating Your Wallet

The Find My app offers several features to help you locate your wallet:

- **Real-time Location:** View your wallet's current location on a map.
- **Play Sound:** If nearby (within Bluetooth range of 50m/164ft), play a sound on your wallet to help pinpoint its exact location.
- **Left-Behind Notification:** Receive alerts on your iPhone if you leave your wallet behind.
- **Lost Mode:** Enable Lost Mode in the Find My app to leave a contact message for anyone who finds your wallet.
