CC KITS Option 2

CC KITS Full-Size Conversion Kit Bed Rails for Viv + Rae Convertible Cribs - Option 2 Instruction Manual

PRODUCT OVERVIEW

This manual provides instructions for the CC KITS Full-Size Conversion Kit Bed Rails, designed to convert specific Viv + Rae convertible cribs into a full-size bed. This kit facilitates a secure and comfortable transition for your child as they grow, utilizing the existing crib headboard and footboard.

Children grow fast. Too fast. And it is now time for them to move into a big kids' bed. If you purchased a convertible crib, you may now be looking for the bed rail kit to convert your crib to a bed. CC KITS is here to help. With our 100% solid wood kits, our products will extend the life of your crib so your child can enjoy for years to come. The full-size conversion kit is designed to easily convert your crib to a full-size bed, using both your headboard and footboard. The bed rails simply replace the sides of your crib to accommodate your growing child. By allowing the crib to grow with your child, you ensure an easy transition into the "big-boy" or "big-girl" bed, establishing a sense of normalcy and routine. Your kids will love it, but you will love it more.
Check out the great add-ons below to complete your room. Happy Growing!

CRIB COMPATIBILITY GUIDE (OPTION 2)

This conversion kit is specifically designed for certain Viv + Rae convertible crib models. Please ensure your crib matches the compatibility list below for **Option 2**.

- **OPTION 1:** ONLY Fits the Archer, Bennett, Fancy, Hetzel, Hubble, Lizette & Naomi (w/ Changer) Convertible Cribs by Viv + Rae.
- **OPTION 2 (This Product):** ONLY Fits the Althoff, Aguon, Angeles, Askins, Brister & Brittain Convertible Cribs by Viv + Rae.
- **OPTION 3:** ONLY Fits the Marquez, Mason & Ririe Convertible Cribs by Viv + Rae.
- **OPTION 4:** ONLY Fits Roy & Rudd Convertible Cribs by Viv + Rae.

If your crib model or finish is not listed, please contact the manufacturer for assistance to ensure proper compatibility.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. The kit includes:

- Two (2) Wooden Bed Rails
- Four (4) Slats
- Required Hardware
- Instruction Manual (this document)

Additional slats, safety bed rail guards, and mattresses are sold separately and are not included in this kit.

SETUP AND INSTALLATION

The conversion process from crib to full-size bed is designed to be straightforward, typically taking 20-30 minutes. Please follow these general steps:

1. **Prepare the Crib:** Disassemble the crib sides, retaining the headboard and footboard.
2. **Attach Bed Rails:** Secure the two wooden bed rails to the existing headboard and footboard of your Viv + Rae crib. Ensure all connections are tight and stable.
3. **Install Slats:** Place the provided four slats across the bed rails to support the mattress. For enhanced support, additional slats can be purchased separately.
4. **Mattress Placement:** Position a full-size mattress onto the installed slats.

It is recommended to use slats for mattress support rather than a box spring, as slats can provide a more appropriate mattress height for a child's bed.

Comparison of mattress height with slats versus a box spring.

OPERATING AND USAGE

Once assembled, the conversion kit transforms your crib into a stable full-size bed. This allows for continued use of your existing crib's headboard and footboard, providing a familiar and comfortable sleeping environment for your child.

The bed is designed to support up to 600 pounds when paired with additional slats (sold separately). Ensure the mattress fits snugly within the frame to prevent gaps.

MAINTENANCE

To maintain the quality and safety of your bed conversion kit:

- Regularly inspect all hardware and connections to ensure they remain tight.
- Clean the wooden surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals.
- The kit features water-based, non-toxic finishes, free from lead and phthalates.

Product is made with non-toxic finishes.

TROUBLESHOOTING

If you encounter issues during assembly or use, consider the following:

- **Loose Side Panels:** If the side panels (headboard/footboard) feel loose after attaching the conversion rails, ensure that the hardware provided with the conversion kit is correctly installed. In some cases, using the original crib hardware for the bottom two holes of the side panels, in conjunction with the conversion kit hardware, may provide a more secure fit.
- **Compatibility Issues:** Double-check that your crib model is listed under "Option 2" in the Compatibility Guide. Incorrect compatibility can lead to assembly difficulties.
- **Missing Parts:** If any parts are missing or damaged, contact customer support immediately.

SPECIFICATIONS

Brand	CC KITS
Model Option	Option 2
Color	Weathered White/Birch White
Material	100% Solid Wood
Product Dimensions	75"W x 5"H (Rails)
Weight Capacity	Up to 600 lbs (with additional slats)
