Ailiber Ailiber Protective Case for Cloud Mobile Stratus C7

Ailiber Protective Case for Cloud Mobile Stratus C7 User Manual

Model: Cloud Mobile Stratus C7 Compatible Case

PRODUCT OVERVIEW

The Ailiber Protective Case is designed specifically for the Cloud Mobile Stratus C7 (5.5 inches, Released 2023, Android 12, 16GB). This heavy-duty case provides comprehensive protection for your device, featuring military-grade drop resistance, a built-in ring kickstand, and compatibility with magnetic car mounts. It also includes a full-screen tempered glass protector for enhanced display safety.

SETUP AND INSTALLATION

Case Installation

To install the Ailiber Protective Case, ensure your Cloud Mobile Stratus C7 phone is clean and free of dust. Gently align the phone with the case, ensuring all buttons and ports are correctly positioned. Press the phone firmly into the case until it is securely seated. The case is designed with a dual-layer material, combining soft TPU and hard PC, for optimal protection.

Advanced materials Ingenuous integration

Soft TPU protects the phone
Hard PC blocks external forces

Built-in Kickstand

Metal patch

Hard PC

Soft silicone

Figure 2: Exploded view illustrating the multi-layered construction of the Ailiber case, including soft TPU, hard PC, and integrated metal patch for the kickstand.

Screen Protector Installation

Proper installation of the tempered glass screen protector is crucial for optimal performance. Follow these steps carefully:

- 1. Preparation:** Ensure your hands are clean and dry. If available, watch an online video tutorial for screen protector installation for visual guidance.
- 2. Clean the Screen:** Thoroughly clean the phone screen using the provided wet wipe, followed by the dry wipe. Use the dust absorber sticker to remove any remaining dust particles or fingerprints.
- 3. Positioning:** Gently pick up the tempered glass screen protector. Carefully predict its installation position on your phone screen. You may use guide stickers to align it precisely.
- 4. Application:** Peel off the clear thin protective film from the back of the screen protector. Place the screen protector onto the screen horizontally and slowly.
- 5. Adhesion:** Lightly tap the middle of the screen protector. It should automatically adhere to the screen.
- 6. Bubble Removal:** If any bubbles appear, they may indicate trapped dust. Gently scrape the bubbles towards the edge of the screen using a soft card (e.g., a credit card) to push them out.

OPERATING INSTRUCTIONS

Using the Ring Kickstand

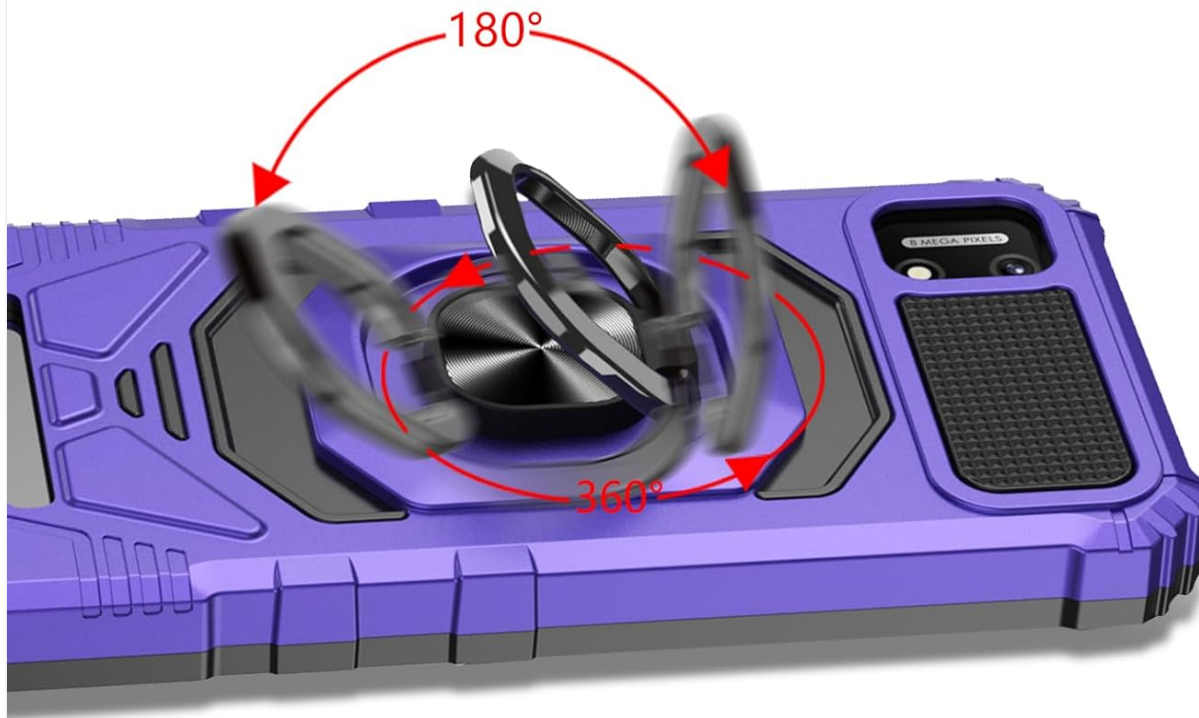

The integrated metal ring on the back of the case serves as a versatile kickstand. To use it, simply pull the ring outwards until it clicks into place. The ring can rotate 180 or 360 degrees, allowing you to prop your phone in various angles for comfortable hands-free viewing of videos or video calls, both in portrait and landscape orientations.

Magnetic Car Mount Compatibility

The case features a built-in metal magnetic sheet, allowing for direct and stable adsorption to magnetic car mount holders (car mount not included). This provides a convenient and secure way to use your phone for navigation or hands-free calls while driving.

Comes with magnetic, Convenient for car mount

Built-in magnetic attraction,
stable and not falling,
suitable for all magnetic car mount

Figure 5: The case's integrated magnetic plate allows for easy and secure attachment to a magnetic car mount.

MAINTENANCE

To ensure the longevity and appearance of your Ailiber Protective Case and screen protector, follow these maintenance guidelines:

- **Cleaning the Case:** Wipe the case regularly with a soft, damp cloth to remove dust, dirt, and fingerprints. For stubborn stains, a mild soap solution can be used, followed by wiping with a clean, dry cloth. Avoid harsh chemicals or abrasive materials.
- **Cleaning the Screen Protector:** Use a microfiber cloth to gently wipe the screen protector. For smudges, a screen cleaner spray designed for electronics can be applied to the cloth (not directly to the screen) and then wiped.
- **Inspect for Damage:** Periodically inspect the case for any signs of wear or damage, especially around the corners and edges, to ensure continued protection.

TROUBLESHOOTING

This section addresses common issues you might encounter:

- **Screen Protector Bubbles:** If bubbles appear after installation, it is often due to trapped dust or improper alignment. Re-clean the screen thoroughly and reapply the protector, ensuring no dust particles are present. Use a card to gently push bubbles towards the edges.
- **Difficulty Pressing Buttons:** If the phone's power or volume buttons are hard to press after case installation, ensure the phone is seated correctly within the case and that the case's button covers are aligned with the phone's buttons.
- **Charging Port Obstruction:** If the charging cable does not fit properly, check for any misalignment of the case around the charging port. Ensure the case is fully snapped onto the phone.
- **Kickstand Malfunction:** If the ring kickstand becomes loose or breaks, this may indicate wear from frequent use or impact. While the case is designed for durability, excessive force can cause damage.

SPECIFICATIONS

Feature	Detail
Compatibility	Cloud Mobile Stratus C7 (5.5 inches, Released 2023, Android 12, 16GB)
Material	Soft TPU (Thermoplastic Polyurethane), Hard PC (Polycarbonate), Rubber
