VINGLI cooler007

VINGLI 60QT Rolling Ice Chest Instruction Manual

Model: cooler007

INTRODUCTION

This manual provides instructions for the assembly, operation, maintenance, and troubleshooting of your VINGLI 60QT Rolling Ice Chest. Please read this manual thoroughly before use to ensure proper function and longevity of your product.

SAFETY INFORMATION

- Keep children away from the cooler during assembly. Small parts may pose a choking hazard.
- Ensure all parts are securely fastened before use.
- Do not overload the cooler. Refer to the capacity specifications.
- Use caution when moving the cooler, especially when full. Ensure wheels are locked when stationary to prevent unintended movement.
- Do not use abrasive cleaners or harsh chemicals, as these may damage the finish.
- Always drain water completely after use to prevent mold and mildew.

PARTS LIST

Before assembly, verify that all components listed below are present and undamaged.

- Cooler Basin (60QT capacity)
- Rolling Cart Frame
- Lids (2, dual-access)
- Wheels (4, 2 with locks)
- Bottom Storage Shelf
- Bottle Opener with Cap Catcher
- Drain Plug with Detachable Water Pipe

- Handles (2, side-mounted)
- Assembly Hardware (screws, washers, wrench)

SETUP AND ASSEMBLY

Follow these steps to assemble your VINGLI Rolling Ice Chest.

Step 1: Attach Wheels to Cart Frame

Secure the four wheels to the bottom of the rolling cart frame using the provided hardware. Ensure the two lockable wheels are positioned on the same side for easier access when locking.

Step 2: Assemble Cart Frame and Bottom Shelf

Connect the vertical supports to the wheeled base and attach the bottom storage shelf. Use the appropriate screws and tighten them securely.

Step 3: Place Cooler Basin onto Cart Frame

Carefully place the cooler basin onto the assembled cart frame. The basin is designed to sit securely on the frame but is detachable for portability.

OPERATING INSTRUCTIONS

Filling the Cooler

Open the dual-access lids by lifting the ergonomic lid handles. Place beverages and ice into the cooler basin. The 60QT capacity can hold up to 75 cans or 40 bottles.

Maintaining Temperature

The cooler is designed to keep contents cool for up to 48 hours and warm for up to 8 hours. For optimal performance, pre-chill the cooler before adding cold items and minimize lid opening.

Using the Bottle Opener

The built-in bottle opener is located on the side of the cooler. Use it to open bottled beverages. Bottle caps will fall into the attached cap catcher for easy disposal.

Mobility and Stability

Use the multi-directional rolling wheels to move the cooler. When the cooler is in its desired position, engage the locks on the two lockable wheels to prevent movement.

Draining the Cooler

After use, remove the drain plug and attach the detachable water pipe to drain melted ice water. Ensure the cooler is positioned to

allow water to flow away from the unit.

MAINTENANCE

- **Cleaning:** Clean the interior and exterior of the cooler with mild soap and water after each use. Rinse thoroughly and dry completely to prevent odors and mildew.
- **Storage:** Store the cooler in a dry, cool place when not in use. Ensure the lids are slightly ajar to allow for air circulation and prevent moisture buildup.
- **Wheel Care:** Periodically check the wheels for debris and ensure they roll smoothly. Lubricate if necessary.
- **Drain Plug:** Ensure the drain plug is clean and free of obstructions for efficient draining.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Cooler not keeping items cold/warm effectively.	Lids not fully closed; cooler not pre-chilled; excessive lid opening; insufficient ice.	Ensure lids are securely closed. Pre-chill the cooler before use. Minimize lid opening. Use adequate amount of ice.
Water leakage from drain.	Drain plug not securely closed; drain pipe not properly attached.	Ensure drain plug is tightly sealed. Verify the detachable water pipe is correctly fitted.
Wheels not rolling smoothly or locking.	Debris in wheels; locking mechanism obstructed or damaged.	Clean wheels of any debris. Check locking mechanism for obstructions. If damaged, contact support.
Cooler basin difficult to detach/reattach.	Misalignment; debris in connection points.	Ensure proper alignment when detaching/reattaching. Clear any debris from the connection points.

SPECIFICATIONS

Feature	Detail
Brand	VINGLI
Model Name	cooler007
Capacity	60 Quarts (approx. 75 cans or 40 bottles)
Color	White
Material	Iron, Plastic (Insulation: Polyurethane Foam)
Product Dimensions (D x W x H)	16.9" x 32.3" x 33.5"
Special Features	Built-In Bottle Opener, Cap Catcher, Drain Hole, Insulated, Wheeled (2 lockable casters), Detachable Basin, Bottom Storage Shelf
Cooling Performance	Keeps cool for 48 hours
Warming Performance	Keeps warm for 8 hours
