1. SETUP AND INSTALLATION

This section provides instructions for the physical installation and initial setup of your Inefala car stereo.

1.1 Package Contents and Dimensions

Before installation, verify all components are present and understand the unit's dimensions for proper fitting.

Image: Product dimensions (9-inch screen, 230mm width, 135mm height) and included accessories: Power Cable, Horn Cable, Mounting Bracket, User Manual, and 12LED Rear Camera.

1.2 Wiring Port Diagram

Refer to the following diagram for connecting the main wiring harness to your vehicle's electrical system.

Ensure all connections are secure and correctly matched to prevent damage.

Image: Rear view of the car stereo unit showing various input/output ports (RCA, D-BUS, FM antenna, USB) and a detailed color-coded wiring harness diagram with labels for each wire (e.g., Front Left Speaker +, Auto Antenna Power, ACC Ignition, Backup, SWC).

1.3 Backup Camera Wiring

To install the included backup camera, follow this wiring guide. Proper connection ensures the camera activates automatically when reversing.

Image: Diagram illustrating the connection of the backup camera to the car stereo. The camera's video cable connects to the stereo's video input, and the camera's power cable (red wire) connects to the reversing lamp's positive (+) terminal, while the black wire connects to ground (GND).

2. OPERATING INSTRUCTIONS

This section details the various functions and features of your Inefala car stereo.

2.1 Wireless Carplay and Android Auto

Connect your smartphone wirelessly to access navigation, music, calls, and messages through the car stereo interface.

2.7 Detachable Touch Screen

The 9-inch touch screen is detachable for security and convenience. To detach, gently press the release mechanism and pull the screen away from the main unit. To reattach, align the screen with the connectors and push until it clicks into place.

3. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your car stereo.

- **Cleaning the Screen:** Use a soft, lint-free cloth to wipe the touch screen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid abrasive materials or harsh chemicals.
- **Cleaning the Unit:** Keep the main unit and its connections free from dust and debris. Use a dry cloth or a soft brush.

- **Detachable Screen Care:** When the screen is detached, store it in a protective case to prevent scratches or damage. Avoid exposing it to extreme temperatures.
- **Connection Integrity:** Periodically check all wiring connections to ensure they are secure and free from corrosion.

4. TROUBLESHOOTING

This section addresses common issues you might encounter with your Inefala car stereo.

Problem	Possible Cause	Solution
Unit does not power on	Incorrect wiring; Blown fuse; Power supply issue	Check power and ground connections. Verify the fuse in the car's fuse box and on the stereo's wiring harness. Ensure the ACC (ignition) wire is connected correctly.
No sound	Speaker wires disconnected; Volume too low; Mute function active; Incorrect audio settings	Check all speaker wire connections. Increase volume. Deactivate mute. Verify audio output settings (e.g., fader/balance).
Bluetooth not connecting	Bluetooth off on phone/stereo; Pairing mode not active; Device already paired to another unit	Ensure Bluetooth is enabled on both devices. Put the stereo in pairing mode. Forget previous connections on your phone and try pairing again.
Rear view camera not displaying	Camera wiring incorrect; Reverse trigger wire not connected; Faulty camera	Check camera power and video connections. Ensure the reverse trigger wire (BACK) is connected to the vehicle's reverse light circuit. Test camera functionality if possible.
Touch screen unresponsive	Software glitch; Screen calibration needed; Physical damage	Restart the unit. Perform a screen calibration if available in settings. If the issue persists, contact support.
