SETUP

Follow these steps to set up your DEWENWILS Digital Timer Outlet:

1. **Initial Reset:** Before first use or after a long period of inactivity, use a small pin or paperclip to press the 'R' (Reset) button located on the front of the timer. This clears all previous settings.

2. **Set Current Time:**

- Press and hold the 'Time' button.
- While holding 'Time', press 'Hour' to adjust the hour.
- While holding 'Time', press 'Min' to adjust the minute.
- Release 'Time' when the correct time is set.

3. **Set a Program:** The timer allows for up to 3 ON/OFF programs daily.

- Press the 'Prog' button once to enter Program 1 ON setting. The display will show '1 ON'.
- Use 'Hour' and 'Min' buttons to set the desired ON time for Program 1.
- Press 'Prog' again to enter Program 1 OFF setting. The display will show '1 OFF'.
- Use 'Hour' and 'Min' buttons to set the desired OFF time for Program 1.
- Repeat for Program 2 and Program 3 if needed.
- After setting all desired programs, press the 'Time' button to exit programming mode.

OPERATING INSTRUCTIONS

Once programmed, select the desired operating mode using the side switch:

- **AUTO Mode:** Slide the side switch to 'AUTO'. In this mode, the timer will automatically turn the connected device ON and OFF according to your programmed schedules. The display will show 'ON AUTO' or 'OFF AUTO'.
- **ON Mode:** Slide the side switch to 'ON'. The connected device will remain continuously ON, overriding any programmed schedules. The display will show 'ON'.
- **OFF Mode:** Slide the side switch to 'OFF'. The connected device will remain continuously OFF, overriding any programmed schedules. The display will show 'OFF'.

MAINTENANCE

- Clean the timer with a dry, soft cloth. Do not use liquid cleaners or sprays.

- Store in a cool, dry place when not in use.

- Periodically check the timer and connected devices for any signs of damage or wear.

TROUBLESHOOTING

- **Device not turning ON/OFF as programmed:**

  - Ensure the side switch is set to 'AUTO'.
  - Verify that the current time is set correctly.
  - Check that the ON and OFF times for your programs are correctly entered and do not overlap unintentionally.
  - Confirm the connected device is functioning properly when plugged directly into a wall outlet.

- **Display is blank or dim:**

  - Ensure the timer is securely plugged into a live electrical outlet.
  - The backup battery may be low. Plug the timer into an outlet for several hours to charge the internal battery.

- **Settings lost after power outage:**

  - The internal backup battery may be depleted. The battery retains settings for up to 3 months. If the outage exceeds this, settings may need to be re-entered.

SPECIFICATIONS

- **Voltage:** 125V AC

- **Frequency:** 60Hz

- **Max Load:** 15A / 1000W

- **Material:** Plastic

- **Product Dimensions:** 4.21"D x 1.85"W x 3.62"H
