Clihome 10ft Offset Cantilever Patio Umbrella

Clihome 10ft Offset Cantilever Patio Umbrella Instruction Manual

Model: 10ft Offset Cantilever Patio Umbrella

Introduction

Thank you for choosing the Clihome 10ft Offset Cantilever Patio Umbrella. This manual provides essential information for the safe assembly, operation, maintenance, and storage of your new outdoor umbrella. Please read these instructions carefully before use and retain them for future reference.

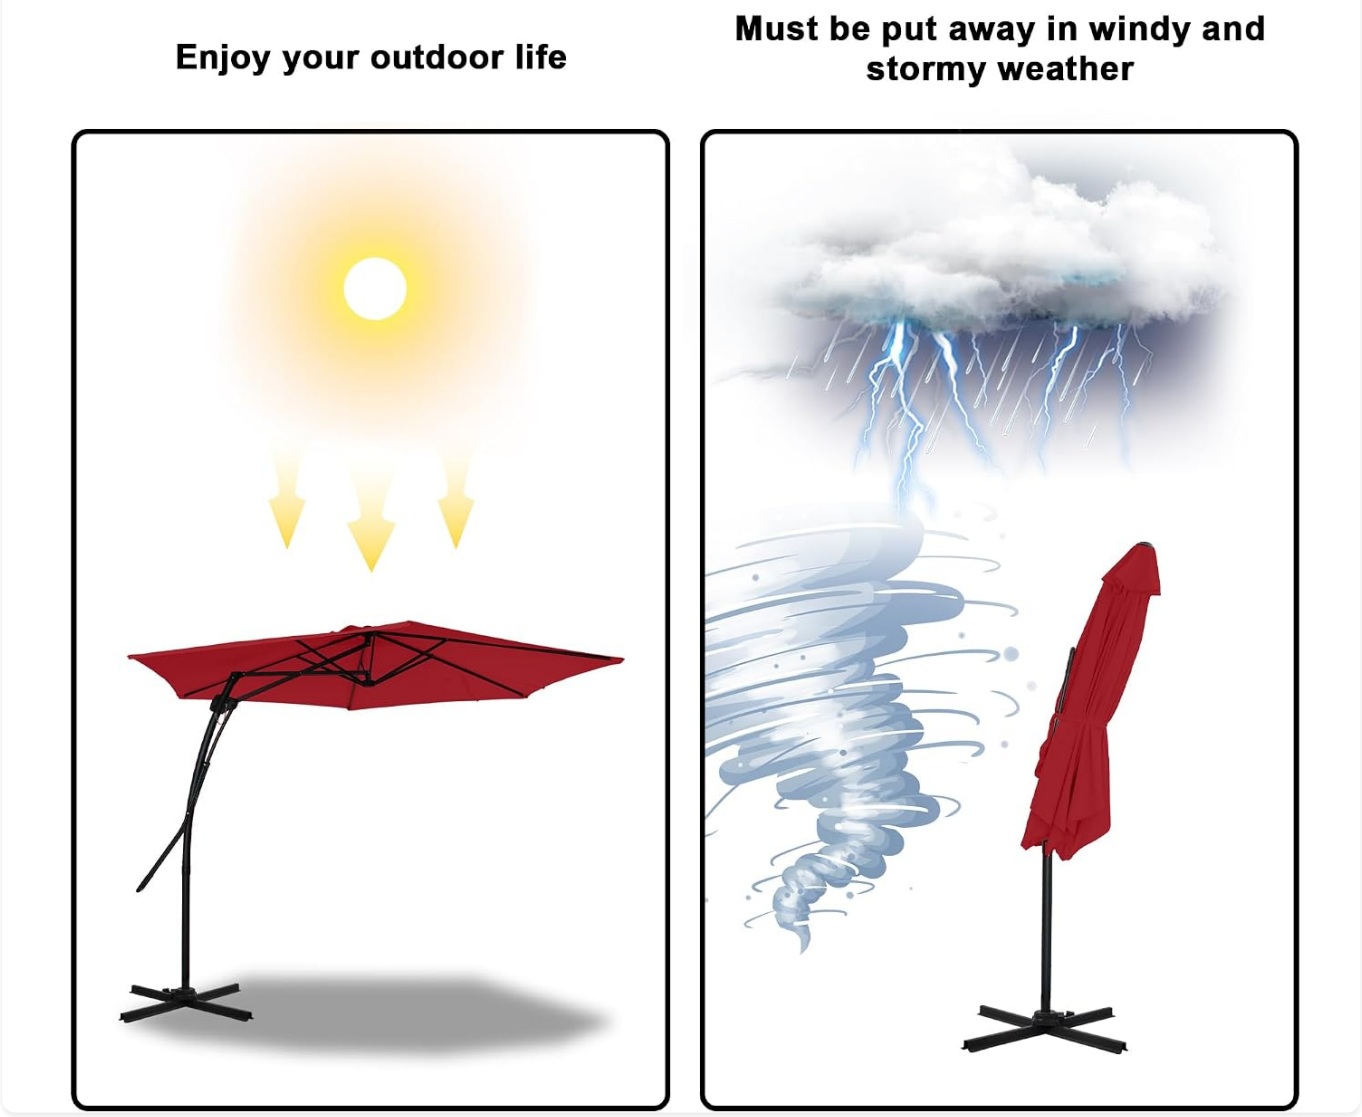

The Clihome 10ft Offset Cantilever Patio Umbrella provides ample shade for various outdoor settings.

Important Safety Information

- **Base Not Included:** This umbrella is supplied with a cross-shaped base. **Weighted base or securing fixtures are required and not included.** Ensure the base is adequately weighted or secured to prevent tipping.
- **Wind and Stormy Weather:** Always close and secure the umbrella in windy conditions, strong gusts, or stormy weather. Failure to do so can result in damage to the umbrella and potential injury.
- **Clearance:** Ensure sufficient clearance around the umbrella when opening, closing, or rotating to avoid contact with objects or persons.
- **Assembly:** Follow all assembly instructions carefully. Do not attempt to modify the umbrella structure.
- **Children and Pets:** Keep children and pets away from the umbrella during operation to prevent accidents.

NOT INCLUDE BASE

Always close and secure the umbrella during windy or stormy conditions.

Package Contents

Please verify that all components are present before beginning assembly:

- Umbrella Canopy with Ribs
- Main Pole Assembly
- Cross-shaped Base
- Crank Handle (integrated)
- Foot Pedal (integrated)

Setup Instructions

Follow these steps to assemble your cantilever patio umbrella:

1. **Position the Cross-shaped Base:** Place the cross-shaped base in your desired location. Ensure the surface is flat and stable.
2. **Secure the Base:** Place appropriate weights (e.g., sandbags, concrete blocks, or specialized base weights, **not**

included) onto the cross-shaped base to provide stability. This is crucial for safety.

3. **Attach the Main Pole:** Insert the main pole assembly into the center of the secured cross-shaped base. Tighten any securing bolts or knobs to ensure the pole is firmly attached.
4. **Attach the Umbrella Canopy:** Carefully lift the umbrella canopy assembly and attach it to the main pole. Ensure all connections are secure.

The umbrella pole securely attached to the cross-shaped base.

Operating Instructions

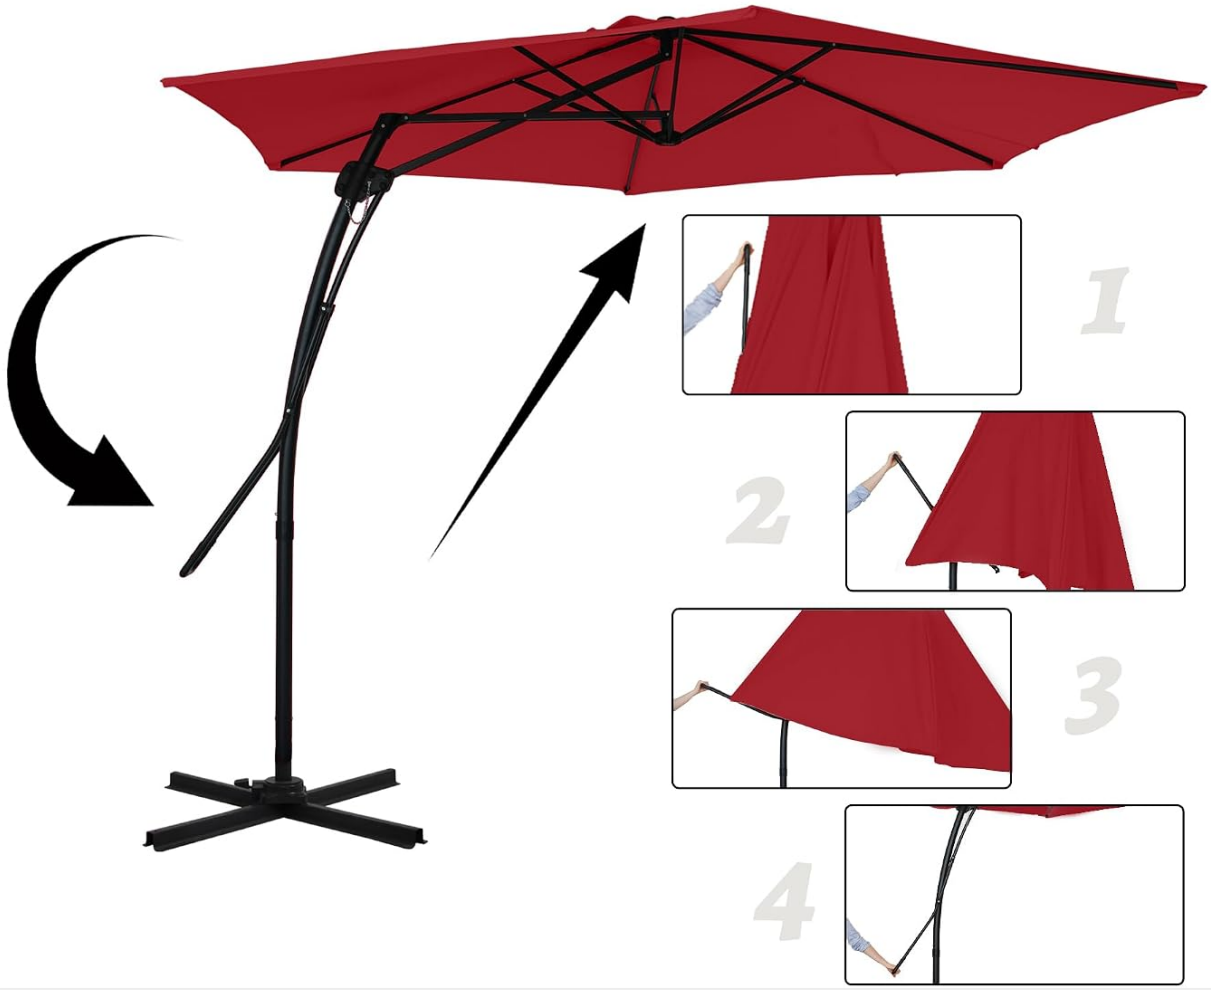

Opening and Closing the Umbrella

The Clihome cantilever umbrella features a convenient one-pull open/close handle for effortless operation.

1. **To Open:** Gently pull the integrated handle downwards. The canopy will extend and open. Continue until fully extended and locked into position.
2. **To Close:** Push the integrated handle upwards. The canopy will retract and fold. Ensure it is fully closed and secured, especially before storing or in windy conditions.

Easy-to-Use Handle

This outdoor cantilever umbrella is equipped with a convenient one pull open and close handle, which is effortless to operate compared to traditional outdoor umbrellas.

The integrated handle simplifies opening and closing the umbrella canopy.

360-Degree Rotation

Adjust the shade position easily with the integrated foot pedal.

1. **To Rotate:** Step on the foot pedal located at the base of the main pole. This will unlock the rotation mechanism.
2. **Adjust Position:** Gently rotate the umbrella canopy to your desired shade position.
3. **Lock Position:** Release the foot pedal to lock the umbrella in place.

The 360-degree rotating foot pedal allows for easy adjustment of shade.

Maintenance

- **Cleaning the Canopy:** The polyester fabric is water-resistant and UV-protected. Clean the canopy periodically with mild

soap and water. Rinse thoroughly and allow to air dry completely before closing or storing. Do not use harsh chemicals or abrasive cleaners.

- **Frame Care:** The all-steel pole and ribs are designed for durability. Wipe down the frame with a damp cloth as needed to remove dirt and debris. Inspect for any signs of rust or damage and address promptly.
- **Lubrication:** Periodically check the crank mechanism and rotating foot pedal for smooth operation. Apply a silicone-based lubricant if necessary.

Storage

Proper storage extends the life of your umbrella:

- Always close the umbrella when not in use or during adverse weather conditions.
- For long-term storage, especially during off-season or severe weather, it is recommended to remove the canopy from the pole and store both components in a dry, protected area.
- Ensure the canopy is completely dry before storing to prevent mold and mildew.

Troubleshooting

- **Umbrella not opening/closing smoothly:** Check for any obstructions in the mechanism or canopy fabric. Ensure the crank handle is not jammed. Apply lubricant if the mechanism feels stiff.
- **Umbrella unstable:** Verify that the cross-shaped base is adequately weighted and placed on a flat surface. Ensure the main pole is securely fastened to the base.
- **Canopy appears loose:** Inspect the ribs and canopy attachments for any damage or disconnections.
