## 2. Applying the Tempered Glass Screen Protector

1. **Clean the Screen:** Use a microfiber cloth to thoroughly clean your phone's screen, removing all dust, smudges, and fingerprints. Ensure the screen is completely dry.
2. **Align the Protector:** Carefully peel off the protective film from the adhesive side of the tempered glass. Align the protector precisely with your phone's screen, paying attention to cutouts for the speaker and camera.
3. **Apply:** Once aligned, gently lower the tempered glass onto the screen. It will adhere automatically. If there are any bubbles, gently push them towards the edges using a soft cloth or a squeegee.

## OPERATING INSTRUCTIONS

---

### Using the Kickstand Feature

To use the kickstand, simply fold the back cover of the case along the designated crease. This will prop up your phone at an adjustable viewing angle, ideal for watching videos, making video calls, or browsing content hands-free.

### Utilizing Card Storage

The wallet case is equipped with multiple card slots on the inside flap. Gently slide your credit cards, ID cards, or small amounts of cash into these designated slots. The design ensures your valuables are kept secure and easily accessible.

## — CARD STORAGE —

- Carry 2 cards
- Combines a card package and phone frame in one handy unit

### Magnetic Closure

The case features a magnetic closure to keep the front flap securely shut. This helps protect your screen and keeps your cards and money safely inside the wallet section. To open, simply pull the flap away from the phone.

## MAINTENANCE

- **Case Cleaning:** For the PU leather case, wipe gently with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the material and design.
- **Screen Protector Care:** Clean the tempered glass screen protector with a clean, dry microfiber cloth. For stubborn smudges, a small amount of screen cleaner can be applied to the cloth (not directly to the screen).
- **Avoid Extreme Conditions:** Do not expose the product to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.

## TROUBLESHOOTING

### Case Fit Issues

If the case does not fit correctly, ensure you have the correct model (Oukitel C37). Re-align the phone and gently press it into the case, ensuring all buttons and ports are properly seated.

### Screen Protector Bubbles

Small bubbles after installation are common. Use a soft cloth or a credit card wrapped in a cloth to gently push bubbles towards the nearest edge. For persistent bubbles, lift the nearest corner of the protector slightly and re-apply slowly, ensuring no dust is trapped underneath.

### Magnetic Closure Weakness

If the magnetic closure seems weak, ensure no excessive items (e.g., too many cards or bulky cash) are stored in the card slots, as this can prevent the magnet from fully engaging.
