4. SETUP INSTRUCTIONS

1. **Placement:** Position the projector on a stable, flat surface or mount it using a compatible ceiling mount. Ensure adequate ventilation around the device.

2. **Power Connection:** Connect the power cord to the projector and then to a power outlet.
3. **Initial Power On:** Press the power button on the projector or the remote control to turn on the device.
4. **Focus and Keystone Adjustment:** Use the remote control for automatic electronic focus and keystone correction to achieve a clear and rectangular image.

5. OPERATING INSTRUCTIONS

5.1. Connecting External Devices (HDMI, USB, AV)

- **HDMI:** Connect your source device (e.g., laptop, gaming console, Fire TV Stick) to one of the HDMI ports using an HDMI cable. Select the corresponding HDMI input from the projector's source menu.
- **USB:** Insert a USB drive into the USB port to play media files directly.
- **AV:** Use the AV port for older devices requiring composite video and stereo audio connections.

5.2. Wired Screen Mirroring (iOS Devices Only)

To mirror your iOS device screen:

1. Connect your iOS device to the projector's USB OUT 5V port using a standard USB cable.

2. On the projector's main menu, navigate to and select the "Mirroring" option.
3. Your iOS device will display a "Trust This Computer?" prompt. Confirm by tapping "Trust". If prompted, enter your device's lock screen password.
4. The screen mirroring will initiate automatically.

Figure 5: Wired Screen Mirroring Setup

5.3. Bluetooth Connectivity (2-Way)

The projector features two-way Bluetooth 5.1:

- **Output Mode:** Connect the projector to external Bluetooth speakers or headphones for enhanced audio.
- **Input Mode:** Use the projector as a Bluetooth speaker by connecting your smartphone or other Bluetooth-enabled device to it.

Figure 6: Two-way Bluetooth Connectivity

6. MAINTENANCE

- **Lens Cleaning:** Use a soft, lint-free cloth and specialized lens cleaning solution to gently clean the projector lens. Avoid abrasive materials.
- **Ventilation:** Ensure the projector's ventilation ports are clear of obstructions to prevent overheating. Do not block the air inlets or outlets.

- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures. Use the lens cover to protect the lens from dust.

7. TROUBLESHOOTING

- **No Image:** Check power connections, ensure the correct input source is selected, and verify the source device is powered on and outputting a signal.
- **Blurry Image:** Adjust the electronic focus using the remote control. Ensure the projector is placed at an appropriate distance from the screen.
- **Image Not Rectangular:** Use the electronic keystone correction feature via the remote control to adjust the image shape.
- **No Sound:** Check the volume settings on both the projector and the source device. Ensure external speakers or headphones are correctly connected or paired via Bluetooth.
- **iOS Screen Mirroring Not Working:** Ensure the USB cable is securely connected to the projector's USB OUT 5V port and your iOS device. Confirm the "Trust This Computer?" prompt on your iOS device. Note that some OTT apps may restrict screen mirroring due to copyright.
