4. PRODUCT FEATURES AND COMPONENTS

The VGR V-051 Professional Hair Clipper is designed for precision and ease of use. Familiarize yourself with its key

features and components:

- **Ceramic and Powder Metallurgic U-Type Blade:** Engineered for smooth, snag-free cutting performance, gentle on delicate skin. These blades are non-corrosive, ensuring durability and longevity.
- **Digital LED Display:** Provides real-time information on remaining power status, oil indicator, and charging indicator.
- **Adjustable Taper Lever:** Allows for fine-tuning of cutting length without changing guide combs, from 0.8mm to 2.0mm.
- **Powerful 2500mAh Li-ion Battery:** Offers up to 300 minutes of continuous cordless operation on a full 3-hour charge.
- **Versatile Charging:** Supports charging via Type-C cable and USB cord.
- **Corded and Cordless Operation:** Provides flexibility for use with or without the power cord.

5. SETUP

5.1 Initial Charging

Before first use, fully charge the hair clipper. Connect the Type-C charging cable to the clipper and the USB cord to a suitable power adapter (not included) or USB port. The LED display will indicate charging status. A full charge takes approximately 3 hours and provides up to 300 minutes of runtime.

5.2 Attaching Guide Combs

To achieve desired hair lengths, select one of the four adjustable cutting guide combs. Align the comb with the clipper blade and push it firmly until it clicks into place. Ensure it is securely attached before use.

GUIDE COMB

4 attachment guards for superior comfort and cut quality

Image 5.1: Visual guide on how to adjust the cutting length using the guide comb and the taper lever.

6. OPERATING INSTRUCTIONS

6.1 Turning On/Off

To turn the clipper on, slide the ON/OFF switch located on the side of the device upwards. To turn it off, slide the switch downwards.

6.2 Adjusting Cutting Length

The VGR V-051 offers versatile length adjustments:

- **Without Guide Comb:** Use the adjustable taper lever on the side of the clipper to set the cutting length between 0.8mm and 2.0mm.
- **With Guide Combs:** Attach one of the four provided guide combs. These combs allow for cutting lengths up to a maximum of 12mm. The specific length depends on the comb size (e.g., 3mm, 6mm, 9mm, 12mm).

6.3 Corded and Cordless Use

The clipper can be used both corded (while plugged in and charging) and cordless (on battery power). This provides flexibility for various grooming scenarios.

7. MAINTENANCE AND CLEANING

Regular cleaning and maintenance will ensure the longevity and optimal performance of your hair clipper.

7.1 Cleaning the Blades

1. Ensure the clipper is turned off and unplugged from any power source.
2. Use the provided cleaning brush to remove any hair clippings from the blades and the clipper head.
3. For a more thorough clean, you may carefully detach the blade assembly (refer to specific instructions if available in a separate diagram or video, otherwise proceed with caution).

7.2 Oiling the Blades

After every few uses, or if the clipper feels sluggish, apply a few drops of the included oil to the blades. Turn the clipper on for a few seconds to allow the oil to distribute evenly. This helps maintain blade sharpness and smooth operation.

7.3 Storage

Store the clipper in a dry, cool place, away from direct sunlight and moisture. Always replace the blade protection cap when not in use to prevent damage to the blades.

8. TROUBLESHOOTING

If you encounter any issues with your VGR V-051 Hair Clipper, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Clipper does not turn on.	Battery is depleted.	Charge the clipper fully (approx. 3 hours).
Clipper runs slowly or pulls hair.	Blades are dirty or not oiled.	Clean the blades thoroughly and apply oil.
Battery runtime is shorter than expected.	Battery not fully charged or aging battery.	Ensure full charge cycle. If issue persists, contact customer support.
LED display not working.	Malfunction.	Contact customer support for assistance.

9. SPECIFICATIONS
