

## NEEWER MA016

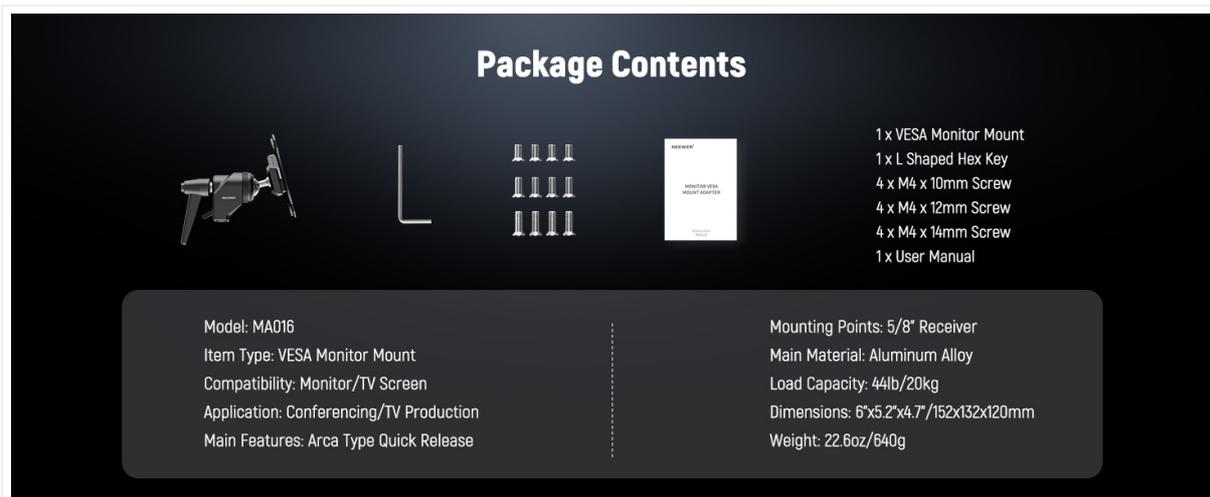

# NEEWER MA016 VESA Monitor Mount Adapter User Manual

Model: MA016

## 1. INTRODUCTION

This manual provides detailed instructions for the proper setup, operation, and maintenance of your NEEWER MA016 VESA Monitor Mount Adapter. Please read this manual thoroughly before using the product to ensure safe and efficient operation. This adapter is designed to securely attach flat displays, TV screens, and field monitors to various stands.

## 2. PACKAGE CONTENTS

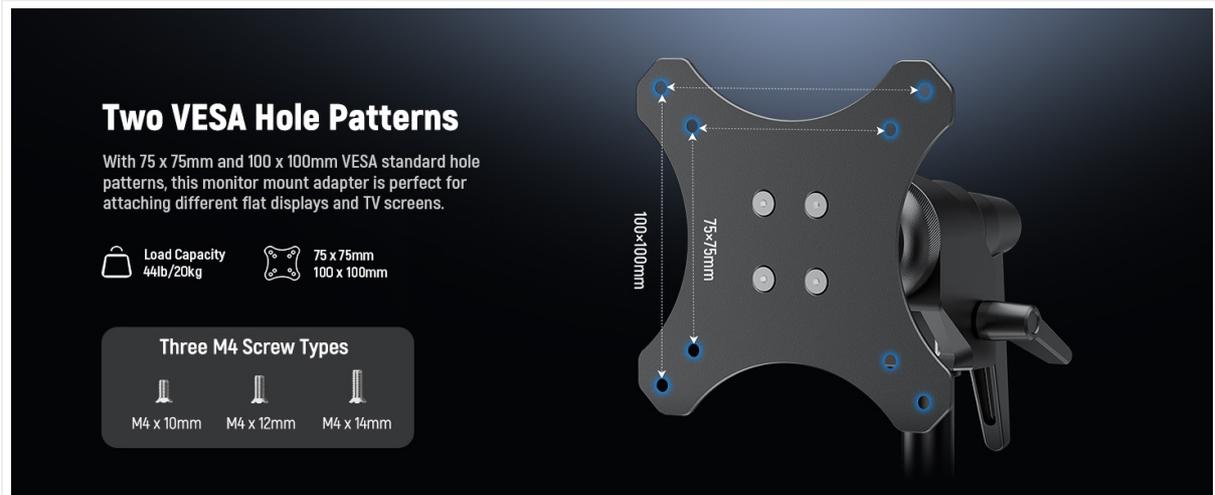

The NEEWER MA016 package includes the following items:

- 1 x VESA Monitor Mount
- 1 x L Shaped Hex Key
- 4 x M4 x 10mm Screw
- 4 x M4 x 12mm Screw
- 4 x M4 x 14mm Screw
- 1 x User Manual

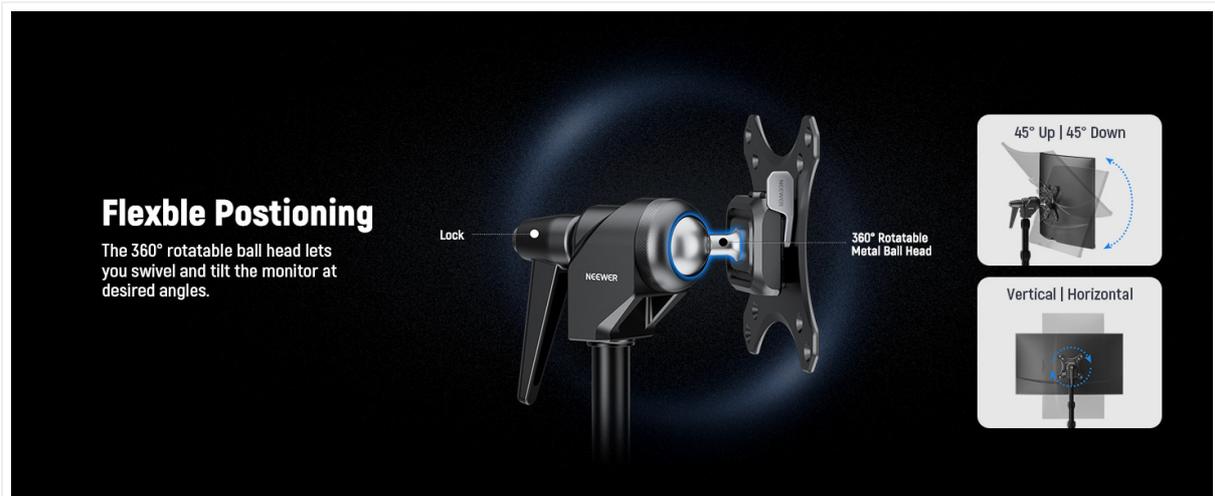

### 3. SETUP AND INSTALLATION

#### 3.1 Attaching the VESA Plate to Your Monitor

The VESA plate supports 75 x 75mm and 100 x 100mm hole patterns. Select the appropriate M4 screws (10mm, 12mm, or 14mm) based on your monitor's thread depth. Use the provided L-shaped hex key to securely fasten the VESA plate to the back of your monitor or TV screen. Ensure all screws are tightened to prevent movement.

#### 3.2 Mounting the Adapter to a Stand

The adapter features a universal 5/8" receiver. This allows it to be mounted onto any C-stand, desktop monitor stand, or heavy-duty light stand equipped with a 5/8" stud. Slide the adapter onto the stud and secure it using the integrated locking mechanism on the stand (stand not included).

#### 3.3 Using the Arca Type Quick Release

## Arca Type Quick Release

Compatible with the Arca type quick release mounting system.

The Arca Type quick release clamp allows for rapid attachment and detachment of your monitor. To attach, align the VESA plate (with monitor) to the quick release clamp and slide it in until it locks securely. To release, press the quick release lever and slide the monitor off. Always ensure the clamp is fully engaged before leaving the monitor unattended.

## 4. OPERATING INSTRUCTIONS

### 4.1 Adjusting the Ball Head

The integrated 360° rotatable metal ball head provides extensive flexibility for monitor positioning. Loosen the long lever handle to adjust the monitor's angle. You can rotate it 360° for vertical or horizontal viewing and tilt it up to 90° for optimal viewing angles. Once the desired position is achieved, tighten the lever handle firmly to lock the ball head in place.

## 5. MAINTENANCE

- **Cleaning:** Wipe the mount with a soft, dry cloth. Avoid abrasive cleaners or solvents.
- **Inspection:** Regularly check all screws and locking mechanisms for tightness. Ensure the quick release functions smoothly.
- **Lubrication:** No special lubrication is required for the ball head or quick release mechanism under normal use.
- **Storage:** Store the mount in a dry, cool place when not in use.

## 6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Monitor wobbles or sags.	Ball head not tightened sufficiently. Monitor weight exceeds maximum load.	Ensure the ball head lever is firmly tightened. Verify monitor weight is within the 44lb/20kg limit.
Quick release mechanism is stiff.	Dust or debris in the mechanism.	Clean the quick release mechanism with a soft, dry brush. Avoid applying lubricants.

Problem	Possible Cause	Solution
Mount does not fit the stand.	Incorrect stand stud size.	Ensure your stand has a standard 5/8" stud.

## 7. SPECIFICATIONS

---

**Model:** MA016

**Mounting Type:** Stand Mount (5/8" Receiver)

**VESA Compatibility:** 75 x 75mm, 100 x 100mm

**Maximum Load Capacity:** 44lb / 20kg

**Material:** Aluminum Alloy

**Ball Head Rotation:** 360°

**Ball Head Tilt:** 90°

**Quick Release Type:** Arca Type

**Included Screws:** M4 x 10mm, M4 x 12mm, M4 x 14mm

**Item Weight:** 1.32 pounds (601.01 Grams)

**Product Dimensions:** Approximately 6" x 5.2" x 4.7" (152 x 132 x 120mm) -*Note: Dimensions are approximate and may refer to packaging or overall assembled size.*
