USAGE AND PLACEMENT

The ZINUS WonderBox(TM) Smart Box Spring is designed to provide optimal support for your mattress.

- **Mattress Placement:** Once the box spring is securely placed on your bed frame, carefully position your mattress on top of the box spring. Ensure the mattress is centered and aligned.
- **Height Customization:** This box spring offers two height options. The standard assembly provides a 9-inch height. Refer to the assembly instructions for details on achieving a 5-inch lower profile, if desired.
- **Weight Capacity:** The durable steel construction is engineered to support significant weight. Refer to the specifications section for the maximum weight capacity.

MAINTENANCE

Proper maintenance will help extend the life of your ZINUS WonderBox(TM) Smart Box Spring.

- **Cleaning the Cover:** The fabric cover can be spot cleaned with a mild detergent and a damp cloth. Avoid saturating the fabric. Allow to air dry completely before placing the mattress back on.
- **Frame Inspection:** Periodically check the metal frame connections to ensure they remain secure. If any connections feel loose, re-engage the locking brackets firmly.
- **Avoid Excessive Moisture:** Keep the box spring in a dry environment to prevent rust on the metal frame and mildew on the fabric cover.

TROUBLESHOOTING

If you encounter any issues with your ZINUS WonderBox(TM) Smart Box Spring, refer to the following common problems

and solutions.

Problem	Possible Cause	Solution
Squeaking Noise	Loose frame connections or uneven placement on bed frame.	Ensure all frame connections are fully engaged and secure. Verify the box spring is evenly seated on your bed frame.
Box Spring Feels Unstable	Improper assembly or not placed on a stable bed frame.	Re-check all assembly steps to ensure components are correctly locked. Confirm your bed frame is sturdy and level.
Difficulty Installing Cover	Cover not aligned correctly or frame not fully assembled.	Ensure the metal frame is completely and correctly assembled. Align the cover carefully with the corners of the frame before pulling it down.
