KEY FEATURES

- **Firm Queen Mattress:** Combines multiple foam layers with reinforced pocket springs, offering optimal firmness and targeted support for all sleeping positions.
- **Advanced Breathable Design:** Features an open-coil system that delivers 10X more airflow than all-foam beds. Gel-infused foam helps maintain an optimal sleep temperature.
- **Premium Motion Isolation:** Built with 800+ 2.0mm reinforced steel coils, each individually wrapped to significantly reduce motion transfer, ensuring undisturbed sleep.
- **CertiPUR-US Certified Materials:** Meets CertiPUR-US, OEKO-TEX, and CFR1633 standards, ensuring the mattress is made without fiberglass or harmful substances.
- **Elegant Eurotop:** The quilted Euro top adds a layer of comfort and better utilizes the full surface of the mattress, promoting relaxation from head to toe.

SETUP GUIDE

Your BedStory mattress arrives conveniently vacuum-sealed and rolled in a box. Follow these steps for proper setup:

1. Carefully remove the mattress from its packaging. Place the rolled mattress on your bed frame or a flat, clean surface where it will be used.
2. Unroll the mattress and carefully cut the plastic wrapping. The mattress will begin to expand immediately.
3. Allow the mattress to fully expand for at least **72 hours**. During this time, the mattress will decompress and reach its intended size and firmness. Ventilation in the room can aid this process.
4. Ensure the mattress is used with a compatible bed frame or foundation to ensure stability and prevent the mattress from slipping.

USAGE GUIDELINES

The BedStory Firm Queen Mattress is designed for optimal comfort and support. Its hybrid construction provides a balance of contouring memory foam and stable pocket springs. You may notice a slight new mattress scent upon unboxing; this is normal and will dissipate within a few days in a well-ventilated room. The mattress is engineered to minimize motion transfer, allowing for undisturbed sleep even with a partner.

CARE AND MAINTENANCE

Proper care will extend the life and performance of your BedStory mattress:

- **Mattress Protection:** Use a mattress protector to guard against spills, stains, and allergens.
- **Spot Cleaning:** For minor spills, gently blot with a clean cloth and mild soap. Avoid saturating the mattress with water. Do not use harsh chemicals.
- **Rotation:** To ensure even wear and prolong the mattress's lifespan, rotate it 180 degrees every 3-6 months. This mattress is not designed to be flipped.
- **Ventilation:** Periodically air out your mattress by removing bedding to allow for air circulation.

TROUBLESHOOTING

If you encounter any issues with your BedStory mattress, consider the following common solutions:

- **Initial Odor:** A new mattress may have a slight
