Lifezone BED-0426-QFE

Lifezone Queen Bed Frame with Bookcase Headboard, Storage Drawers, and Charging Station - Instruction Manual

Model: BED-0426-QFE | Brand: Lifezone

INTRODUCTION

Thank you for choosing the Lifezone Queen Bed Frame. This manual provides essential information for the safe assembly, operation, and maintenance of your new bed frame. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

Important Safety Information

- Do not exceed the weight capacity of 800 lbs.
- Be cautious around sharp edges and pinch points during assembly.
- Keep electronic devices away from the charging station when not in use.
- Always follow the assembly instructions carefully to prevent instability or collapse.
- Ensure all connections are securely tightened before use.

PACKAGE CONTENTS

Before assembly, verify that all components and hardware are present. Refer to the included parts list in your package for detailed identification. The installation video also provides a visual guide to the components.

For a comprehensive visual guide to all parts and hardware, please refer to the "Detailed Installation Video" provided by Lifezone. This video illustrates each component and step, ensuring you have everything needed for assembly.

SETUP: ASSEMBLY INSTRUCTIONS

Assembly requires two people and approximately 1.5-2 hours. Follow these steps carefully. An Allen wrench and screwdriver are included.

1. Headboard Frame Assembly

1. Assemble the vertical and horizontal wooden panels of the headboard using the provided screws and Allen wrench. Ensure all connections are snug.
2. Install the built-in charging station into the designated slot on the headboard panel. Secure it with the small screws.
3. Attach the remaining headboard panels, ensuring the charging station cable is threaded through the appropriate opening.
4. Insert the adjustable baffles into the headboard shelves.
5. Fasten the LED light strip along the top edge of the headboard using the provided clips and screws.

2. Bed Frame Assembly

1. Attach the side rails to the assembled headboard using the larger screws and washers.
2. Connect the footboard to the side rails.
3. Install the central support beams and legs. Ensure they are properly aligned and tightened for stability.
4. Unroll the anti-friction noise strip (Part N) and fit it onto the metal slats (Part 6) to prevent noise. Cut to length as needed.
5. Place the metal slats across the frame, securing them into the designated slots.

3. Storage Drawer Assembly

1. Assemble the wire baskets for the drawers.
2. Attach the wooden front panels to the assembled wire baskets.
3. Install the wheels onto the bottom of each drawer.
4. Carefully lift each drawer and align the screw on the drawer with the hole on the iron pipe of the bed frame, then hang it up. This allows the drawers to slide in and out smoothly and be secured.

OPERATING INSTRUCTIONS

Charging Station

The headboard features a built-in charging station with 2 AC outlets, 1 USB port, and 1 Type-C port. Simply plug the bed frame's power cord into a wall outlet to activate the charging station. This allows convenient charging of electronic devices directly from your headboard.

RGB LED Light Belt

The bed frame is equipped with an RGB LED light belt integrated into the headboard. Control the LED lights using the provided remote control or a compatible mobile application. You can adjust the color, brightness, mode (e.g., static, flashing), and set timing functions to suit your preference.

Storage Drawers

The bed frame includes four under-bed storage drawers. These drawers can be pulled out for access and pushed back in for a tidy appearance. They can be fixed to the bedside with a latch mechanism to prevent accidental slipping out.

MAINTENANCE

- **Cleaning:** Wipe down the wooden and metal surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners. For the upholstered headboard, use a fabric cleaner suitable for linen, spot cleaning as needed.
- **Tightening:** Periodically check all screws and bolts to ensure they remain tight. Re-tighten as necessary to maintain the bed frame's stability and prevent noise.
- **Electrical Components:** Ensure the charging station and LED light connections are secure. Do not attempt to repair electrical components yourself; contact qualified personnel if issues arise.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed frame is wobbly or noisy.	Loose screws or bolts; improper assembly of slats.	Check and tighten all screws and bolts. Ensure metal slats are correctly seated and the anti-friction strip is applied.
Charging station not working.	Power cord not fully plugged in; wall outlet issue; device cable fault.	Verify the bed frame's power cord is securely plugged into a functional wall outlet. Test with another device or cable.
LED lights not turning on or changing color.	Loose connection; remote control battery dead; app not connected.	Check the LED light strip connection. Replace remote control batteries. Ensure mobile app is correctly paired via Bluetooth.

Problem	Possible Cause	Solution
Storage drawers do not slide smoothly.	Obstruction; wheels not properly installed or damaged.	Clear any obstructions under the bed. Inspect drawer wheels for damage and ensure they are correctly installed.

SPECIFICATIONS
