### 3. SETUP AND ASSEMBLY

---

Follow these steps to assemble your Sona SFS 9009DC fan:

1. **Unpack Components:** Carefully remove all parts from the packaging. Ensure all components listed in Section 2 are present.
2. **Assemble the Base:** Place the stand pole into the base. Secure it firmly according to the markings or locking mechanism provided.
3. **Attach Fan Head:** Mount the fan head assembly onto the top of the stand pole. Ensure it clicks into place or is securely fastened with any provided screws or locking rings.
4. **Positioning:** Place the assembled fan on a firm, level surface. Ensure there is adequate space around the fan for proper air circulation and oscillation.
5. **Connect Power:** Plug the power cord into a standard electrical outlet.

### 4. OPERATING INSTRUCTIONS

---

Your Sona SFS 9009DC fan can be operated using the control panel on the fan unit or the included remote control.

#### Control Panel / Remote Control Functions:

- **Power On/Off:** Press the power button to turn the fan on or off.
- **Speed Adjustment:** Use the speed buttons (often marked '+' and '-') to cycle through the 9 available wind speeds.
- **Oscillation (3D):** Press the oscillation button to activate or deactivate the 3D oscillation function, which moves the fan head horizontally and vertically for wider air distribution.
- **Reversible Wind Function:** Activate this feature to change the direction of airflow, allowing for either direct cooling or air circulation towards the ceiling/walls.
- **Ioniser Function:** Press the ioniser button to release negative ions into the air, which can help to purify the air.
- **Timer Function:** Use the timer button to set the fan to operate for a specific duration (up to 8 hours). The fan will automatically turn off once the set time expires.
- **Memory Function:** The fan will remember your last used settings (speed, oscillation, etc.) when turned off and resume them upon restart.

### 5. MAINTENANCE AND CLEANING

---

Regular cleaning ensures optimal performance and extends the life of your fan.

1. **Disconnect Power:** Always unplug the fan from the power outlet before cleaning.
2. **Clean Exterior:** Wipe the exterior surfaces of the fan, stand, and base with a soft, damp cloth. Do not use abrasive cleaners or solvents.
3. **Clean Fan Guards and Blades:** The anti-rusting plastic fan guards can be carefully removed (refer to specific instructions if provided with your unit for guard removal) to access the fan blades. Use a soft brush

or vacuum cleaner to remove dust and debris from the blades and inside the guards. Ensure all parts are dry before reassembling and operating.

4. **Storage:** If storing the fan for an extended period, clean it thoroughly and store it in a dry, cool place, preferably in its original packaging.

## 6. TROUBLESHOOTING

---

If you encounter issues with your Sona SFS 9009DC fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not turn on.	No power supply. Power button not pressed.	Check if the power cord is securely plugged into a working outlet. Press the power button on the fan or remote.
Weak or no airflow.	Fan speed too low. Fan guards or blades are dirty.	Increase the fan speed. Unplug the fan and clean the guards and blades as per Section 5.
Oscillation not working.	Oscillation function is off. Obstruction.	Press the oscillation button to activate. Ensure there are no objects blocking the fan's movement.
Remote control not working.	Batteries are dead or incorrectly inserted. Obstruction between remote and fan.	Replace batteries with new ones, ensuring correct polarity. Ensure a clear line of sight between the remote and the fan's receiver.

If the problem persists after trying these solutions, please contact customer support.
