vidaXL Sonoma Grey Bed Frame 90x190 cm Instruction Manual

Brand: **vidaXL** | Model: **845630**

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your vidaXL Sonoma Grey Bed Frame, model 845630. Designed for a 90x190 cm mattress, this bed frame offers a stable and comfortable foundation for a restful sleep. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

SETUP AND ASSEMBLY

Assembly of the vidaXL Sonoma Grey Bed Frame is required. Ensure all components are present and undamaged before starting. It is recommended to assemble the bed frame on a soft, clean surface to prevent scratches.

Required Tools (Not Included):

- Screwdriver (Phillips head)
- Allen wrench (often included with hardware, check packaging)

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Verify against the parts list (if provided in the physical manual) that all pieces are accounted for.
2. **Assemble Frame Sides:** Attach the side rails to the headboard and footboard using the provided hardware. Ensure all connections are secure but do not overtighten initially.

3. **Install Center Support:** Position and secure any central support beams or legs as indicated in the diagrams.
4. **Place Slats:** Lay the plywood slats across the frame. Ensure they are evenly spaced and securely fastened, if applicable. The slats are designed to provide optimal weight distribution for your mattress.
5. **Final Tightening:** Once the entire frame is assembled, go back and securely tighten all screws and bolts. Avoid excessive force to prevent damage.

OPERATING INSTRUCTIONS

The vidaXL Sonoma Grey Bed Frame is designed for straightforward use as a sleeping surface. Follow these guidelines for optimal performance and longevity.

Placing the Mattress:

- Ensure the bed frame is fully assembled and stable before placing a mattress on it.
- This bed frame is designed to accommodate a mattress with dimensions of **90 x 190 cm**. Using a mattress of different dimensions may affect stability and support.
- Carefully place your mattress onto the plywood slats, ensuring it is centered and lies flat across the entire surface.

Weight Capacity:

The maximum load capacity for this bed frame is **100 kg**. Exceeding this weight limit may compromise the structural

integrity of the frame and could lead to damage or injury.

Headboard Functionality:

The integrated headboard provides back support, making it suitable for activities such as reading or watching television while seated in bed.

MAINTENANCE

Regular maintenance will help preserve the appearance and structural integrity of your bed frame.

Cleaning:

- For general cleaning, wipe surfaces with a soft, damp cloth.
- Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the engineered wood finish and metal components.
- Promptly wipe away any spills to prevent staining or moisture damage.

Structural Inspection:

- Periodically check all screws, bolts, and connections to ensure they remain tight. Loose connections can lead to instability and squeaking.
- Inspect the plywood slats for any signs of damage or wear. Replace any broken slats immediately to maintain proper mattress support.

TROUBLESHOOTING

This section addresses common issues you might encounter with your bed frame.

Bed Frame Squeaks:

- **Cause:** Loose connections or friction between components.
- **Solution:** Re-tighten all assembly screws and bolts. Ensure all parts are correctly aligned. Applying a small amount of lubricant (e.g., silicone spray) to contact points between metal parts or where slats rest on the frame can also help.

Instability or Wobbling:

- **Cause:** Uneven assembly or loose hardware.
- **Solution:** Verify that all screws and bolts are fully tightened. Check that the bed frame is on a level surface. If the floor is uneven, consider using furniture pads or shims under the legs to stabilize it.

Damaged Slats:

- **Cause:** Excessive weight, impact, or material fatigue.
- **Solution:** Damaged slats should be replaced immediately to prevent mattress sagging and potential injury. Contact vidaXL customer support for information on replacement parts.

SPECIFICATIONS

Brand	vidaXL
Model Number	845630

Color	Sonoma Grey
Overall Dimensions (L x W x H)	193 x 93 x 74 cm
Matching Mattress Dimensions (W x L)	90 x 190 cm (Mattress not included)
Maximum Load Capacity	100 kg
Frame Material	Engineered wood, Metal
Slat Material	Plywood
Item Weight	24.4 kg
Assembly Required	Yes
