## INTRODUCTION

This manual provides detailed instructions for the WAVLINK UMD308 USB-C Triple Display Docking Station. This versatile device expands your laptop's connectivity, offering multiple display outputs, power delivery, and additional USB ports for enhanced productivity.

## SAFETY INFORMATION

- Keep the device away from water, fire, and high temperatures.
- Do not attempt to disassemble or repair the device yourself.
- Use only compatible power adapters (not included) for power delivery.
- Ensure proper ventilation to prevent overheating.

## PACKAGE CONTENTS

- WAVLINK UMD308 USB-C Triple Display Docking Station
- Quick Start Guide (refer to this manual for detailed instructions)

## PRODUCT OVERVIEW

The WAVLINK UMD308 is a compact 7-in-1 USB-C docking station designed to expand your Windows laptop's capabilities. It features multiple ports for video output, power delivery, and peripheral connectivity.

### Port Layout

# 7-IN-1 USB-C Dock

Enjoy multiple display with WAVLINK triple display docking station

Image: Top view of the WAVLINK UMD308 docking station highlighting its ports: PD In (100W), DP (8K@60Hz), HDMI1 (8K@60Hz), HDMI2 (8K@60Hz). The bottom view shows three USB 2.0 ports (480Mbps) and the Host Type-C cable (95W Output) for connecting to the laptop.

- **USB-C Power Delivery (PD In):** Up to 100W input for charging your laptop (95W output).
- **DisplayPort (DP):** Supports up to 8K@60Hz single display.
- **HDMI 1 & HDMI 2:** Each supports up to 8K@60Hz single display.
- **USB 2.0 Type-A Ports (x3):** For connecting peripherals like keyboards, mice, and USB drives (480Mbps data transfer).
- **Host Type-C Cable:** Connects to your laptop's USB-C port.

## SETUP

1. **Connect to Laptop:** Plug the integrated USB-C cable from the WAVLINK UMD308 into your laptop's USB-C port. Ensure your laptop's USB-C port supports video output (DP Alt Mode) and charging for full functionality.
2. **Power Delivery (Optional):** If your laptop supports USB-C charging, connect a compatible 20V/5A (100W) USB-C power adapter (not included) to the PD In port on the docking station. This will provide up to 95W pass-through charging to your laptop.
3. **Connect Displays:** Connect your external monitors to the DisplayPort, HDMI 1, and HDMI 2 ports on the docking station using appropriate cables.

4. **Connect Peripherals:** Plug your USB devices (keyboard, mouse, USB drives, etc.) into the three USB 2.0 Type-A ports.

### Compatibility Notes:

- **Windows Systems Only:** This docking station is compatible with Windows 11/10/8.1/8/7, Chrome OS, Linux, iPad OS, Harmony OS, and Android. It is **not compatible with MAC OS computers**
- **USB-C Port Requirements:** Your laptop's USB-C port must support video output (DP Alt Mode) and charging for the adapter to function correctly.
- **DisplayPort 1.4 + DSC 1.2:** For optimal resolution (e.g., Triple 4K@60Hz), ensure your laptop's USB-C port supports DP1.4 with DSC1.2. If not, the extended display resolution may be limited.

#### Note Before Purchase:

Please make sure the type-c port of the host support video output(dp alt mode), or the adapter could not work.

#### Examples for Supported Type-C

Thunderbolt 3/4  
Full Function

Data+  
Displayport Alt

Data+PD+  
Displayport Alt

Others.....

#### Examples for Unsupported Type-C

Only Data  
Transfer

Only Charging

Only Data+  
Power Delivery

Others.....

Image: Visual guide illustrating examples of supported USB-C ports (Thunderbolt 3/4 Full Function, Data+Displayport Alt, Data+PD+Displayport Alt) and unsupported USB-C ports (Only Data Transfer, Only Charging, Only Data+Power Delivery).

## Please Note

1. Not compatible with any MAC OS computer

2. Please make sure that the USB-C access port of the computer supports video output and charging. The product does not include a charger, please use a 20V/5A charger.

3. Please pay attention to the maximum number of displays supported by your computer. Some Windows computers can only support 3 displays including the host display.

4. Please confirm whether your computer C port supports DP1.4 and DSC. If not, the resolution of the extended display will be limited.

Image: A summary of important notes: Not compatible with MAC OS, USB-C port must support video output, some Windows laptops may only support 3 monitors (including host screen), and DP1.4+DSC1.2 is required for high resolutions.

## OPERATING INSTRUCTIONS

### Display Modes:

The WAVLINK UMD308 supports various display configurations for Windows systems:

- **Single Display:** Up to 8K@60Hz via DisplayPort or either HDMI port.
- **Dual Displays:** Supports various combinations, e.g., 4K@120Hz + 4K@60Hz.
- **Triple Displays (Extend Mode - Windows Only):** Achieve 4K@60Hz on all three external monitors (DP+HDMI1+HDMI2), provided your laptop supports DP1.4+DSC1.2. This mode provides additional desktop space.
- **Mirror Mode (Windows Only):** Duplicate your laptop screen across all connected external monitors at 4K@60Hz.

# 8K

**HDMI1**  
8K@60Hz

**HDMI2**  
8K@60Hz

**DP**  
8K@60Hz

## Crystal-Clear Enjoyment

Please make sure the USB-C port on the laptop supports video output

Image: A laptop connected to a single external monitor displaying 8K resolution, demonstrating the "Crystal-Clear Enjoyment" of the docking station.

### Up to 8K@60Hz Single Display

	Windows & Mac OS	
	Windows(DP1.4+DSC1.2)	Mac OS
HDMI 1	8K@60Hz	4K@60Hz
HDMI 2	8K@60Hz	4K@60Hz
DP	8K@60Hz	4K@60Hz

Image: A table detailing single display resolutions: HDMI 1 and HDMI 2 support 8K@60Hz for Windows (DP1.4+DSC1.2) and 4K@60Hz for Mac OS. DP supports 8K@60Hz for Windows (DP1.4+DSC1.2) and 4K@60Hz for Mac OS. A laptop is shown connected to a single 8K monitor.

Image: A setup showing a laptop connected to three external monitors in Extend Mode on Windows, each displaying 4K@60Hz via DP, HDMI1, and HDMI2, providing additional desktop space.

Image: Two configurations for Windows: Extend Mode with three distinct 4K@60Hz displays (DP+HDMI1+HDMI2) and Mirror Mode with three mirrored 4K@60Hz displays.

## Power Delivery:

The PD In port allows you to charge your laptop while using the docking station. Connect your laptop's power adapter to the PD In port on the dock. The dock supports up to 100W input and provides up to 95W

output to your laptop.

Image: A laptop being charged via the WAVLINK UMD308 docking station, illustrating 100W input from a power adapter and 95W output to the laptop. Note: Charger and charging cable are not included.

### USB 2.0 Ports:

The three USB 2.0 ports provide connectivity for various peripherals, allowing you to connect a mouse, keyboard, USB flash drive, hard drive, phone, or printer. These ports offer data transfer speeds of up to 480Mbps.

# Syncing Data in Seconds

**3xUSB 2.0  
(480Mbps)**

Image: A laptop connected to the WAVLINK UMD308, which in turn is connected to multiple USB 2.0 devices such as a U disk, mouse, keyboard, hard drive, phone, and printer, demonstrating "Syncing Data in Seconds".

## TROUBLESHOOTING

- **No Display Output:** Ensure your laptop's USB-C port supports video output (DP Alt Mode). Verify all cables are securely connected.
- **Limited Resolution:** Confirm your laptop's USB-C port supports DP1.4 with DSC1.2 for maximum resolution.
- **Only 3 Monitors Supported (Windows):** Some Windows laptops have graphic card limitations and may only support 3 monitors (including the host screen). If you connect 3 external monitors and one has a black screen, try closing your laptop lid; the third external monitor should then work.
- **No Charging:** Ensure your laptop's USB-C port supports power delivery and you are using a compatible 100W power adapter connected to the dock's PD In port.
- **USB Peripherals Not Working:** Check connections. Ensure the devices do not require more power than the USB 2.0 ports can provide.

Video: This video from the seller, "Wirelessforce", explains how to determine the maximum number of monitors your computer supports, which is crucial for troubleshooting display issues with the docking station.

## SPECIFICATIONS

Feature	Specification
Product Dimensions	1.97 x 0.59 x 4.37 inches
Item Weight	4.2 ounces
Model Number	UMD308
Hardware Interface	DisplayPort, HDMI, USB 2.0 Type A, USB Type C
Compatible Devices	Dell/HP/Lenovo, Windows system computer
Total USB Ports	3
Data Transfer Rate	480 Megabits Per Second (USB 2.0)
Power Delivery	Up to 100W Input, 95W Output
Max Single Display Resolution	8K@60Hz
Max Triple Display Resolution (Windows)	4K@60Hz (DP1.4+DSC1.2 required)

Image: The WAVLINK UMD308 docking station with its dimensions labeled: 11.1cm/4.4in length and 5cm/2in width.

## MAINTENANCE

- Clean the device with a soft, dry cloth.
- Avoid dropping or subjecting the device to strong impacts.
- Store in a cool, dry place when not in use.

## WARRANTY AND SUPPORT

For warranty information and technical support, please refer to the official WAVLINK website or contact their customer service. You can find more information at [https://www.wavlink.com/en\\_us/WL-UMD308](https://www.wavlink.com/en_us/WL-UMD308).
