MAINTENANCE

Proper maintenance will ensure the longevity and continued performance of your bed frame.

General Care:

- Regularly wipe down the wooden surfaces with a soft, dry cloth to remove dust.
- For deeper cleaning, use a slightly damp cloth with a mild wood cleaner, then dry immediately.
- Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish and rattan.
- Periodically check all screws and bolts and tighten them as needed to maintain stability.
- The silent pads between the bed frame and wooden slats are designed to reduce noise; ensure they remain in place.

Under-Bed Space:

The 8-inch clearance beneath the bed frame allows for convenient storage and easy cleaning. A robot vacuum can easily pass through, helping to keep your bedroom tidy.
