AULA F2068Pro

AULA F2068Pro Mechanical Gaming Keyboard User Manual

Model: F2068Pro | Brand: AULA

1. PRODUCT OVERVIEW

The AULA F2068Pro is a 104-key wired mechanical gaming keyboard designed for high performance and durability. It features an all-metal panel, RGB backlighting, and programmable keys, making it suitable for various computing and gaming needs.

Image: AULA F2068Pro Mechanical Gaming Keyboard showcasing its full layout and RGB lighting.

Key Features:

- **Mechanical Linear Red Switches:** Designed for smooth, quiet, and responsive keystrokes with a light actuation force of 45g and 2mm actuation distance, ensuring fast trigger response and rebound speed.
- **Rainbow Backlit RGB:** Offers 28 default and 2 customizable unique backlighting modes with 5 levels of brightness and speed adjustments.

- **All-Metal Panel & Floating Keycaps:** Features a sturdy aluminum panel with a brushed finish for durability and a premium feel. Floating keycaps allow for easy cleaning.
- **All Keys Programmable:** Supports macro editing for remapping key functions, setting shortcuts, and combining multiple keys. LED backlit effects can also be adjusted via software.
- **N-key Anti-Ghosting:** Ensures all 104 keys register simultaneously, preventing missed inputs during intense gaming sessions.
- **Ergonomic Design:** Provides a comfortable 7° typing angle to reduce hand fatigue during prolonged use.

## 2. WHAT'S IN THE BOX

- AULA F2068Pro Mechanical Gaming Keyboard
- USB Cable
- Keycap Puller
- User Manual

## 3. SETUP

The AULA F2068Pro keyboard is plug-and-play, requiring no special drivers for basic functionality. For advanced customization, software is available.

1. **Connect the Keyboard:** Plug the USB-A connector of the keyboard cable into an available USB port on your computer (PC, Mac, Laptop, Gaming Console).
2. **System Recognition:** Your operating system will automatically detect and install the necessary drivers for basic keyboard functionality.
3. **Software Installation (Optional):** For macro editing and advanced RGB lighting customization, download the professional software from the official AULA website ([aulastar.com](http://aulastar.com)). Follow the on-screen instructions for installation.

## 4. OPERATING INSTRUCTIONS

### 4.1. RGB Backlighting Control

The keyboard offers extensive RGB lighting customization. Use the FN (Function) key in combination with other keys to control lighting effects.

- **Change Lighting Modes:** Press **FN + INS** to cycle through 28 default lighting effects.
- **Adjust Brightness:** Press **FN + ↑ (Up Arrow)** to increase brightness (5 levels). Press **FN + ↓ (Down Arrow)** to decrease brightness.

- **Adjust Speed:** Press **FN + ← (Left Arrow)** to decrease speed. Press **FN + → (Right Arrow)** to increase speed.
- **Pro-Gamer Modes:** Press **FN + 1-8** to activate pre-set Pro-gamer lighting modes for specific game types (e.g., FPS, CF, COD, RTS, LOL, Car Race, NBA, LOL Jane).
- **Customized Lighting:** Use **FN + 9** or **FN + 0** to enter customization mode. Press **FN + END** to record/store customized lights. Press **FN + ESC** to clear custom lighting and restore default.

## 4.2. Programmable Keys

The AULA F2068Pro allows for macro editing and key remapping through its dedicated software. This enables users to personalize key functions, set shortcuts, or combine multiple key presses into a single command for enhanced efficiency in gaming and work.

- **Macro Editing:** Utilize the professional software (available at [aulastar.com](http://aulastar.com)) to create and assign macros to any key.
- **Key Remapping:** Change the default function of any key to suit your preferences.

### 4.3. Anti-Ghosting

The keyboard features N-key anti-ghosting, ensuring that all 104 keys can be pressed simultaneously and registered accurately. This is crucial for fast-paced gaming where multiple key inputs are common.

- **Full N-Key Rollover:** All keys work at the same time, preventing conflicts and ensuring every command is executed.
- **Windows Key Lock:** Press **FN + WIN** to lock the Windows key, preventing accidental presses during gaming.
- **Keyboard Lock:** Press **FN + F12** to lock the entire keyboard.

### 4.4. Ergonomic Design

The keyboard is designed with user comfort in mind, featuring a stepped key layout, U-shaped keys, and adjustable feet to achieve an optimal typing angle.

- **Adjustable Feet:** Utilize the foldable feet on the underside of the keyboard to set a comfortable 7° typing angle.
- **Stepped Key Layout:** The varying heights and angles of the keycaps conform to the natural curve of your fingers,

reducing strain.

- **U-Shaped Keycaps:** Each keycap is contoured to cradle your fingertips, enhancing typing accuracy and comfort.

## 5. MAINTENANCE

Regular cleaning and proper care will extend the lifespan of your AULA F2068Pro keyboard.

- **General Cleaning:** Use a soft, dry cloth to wipe down the keyboard surface. For stubborn dirt, a slightly damp cloth can be used, ensuring no liquid enters the switches.
- **Keycap Cleaning:** The floating keycaps are designed for easy removal. Use the included keycap puller to gently remove keycaps for thorough cleaning underneath. Clean keycaps with mild soap and water, then dry completely before reattaching.

- **Dust Removal:** Use compressed air to blow away dust and debris from between and under the keys.

## 6. TROUBLESHOOTING

If you encounter issues with your AULA F2068Pro keyboard, try the following steps:

- **Keyboard Not Responding:**

- Ensure the USB cable is securely plugged into both the keyboard and the computer.
- Try plugging the keyboard into a different USB port.
- Restart your computer.

- **RGB Lighting Not Working/Incorrect:**

- Check FN key combinations (FN + INS, FN + ↑/↓, FN + ←/→) to ensure correct mode, brightness, and speed settings.
- If using custom settings, try resetting to default by pressing **FN + ESC**.
- Ensure the AULA software is installed and updated if you are using custom profiles.

- **Keys Not Registering (Ghosting):**

- The keyboard has N-key anti-ghosting. If specific keys are not registering, ensure no debris is under the keycap. Use the keycap puller to check and clean.
- Test the keyboard on another computer to rule out system-specific issues.

- **Software Issues:**

- Reinstall the AULA software from [aulastar.com](http://aulastar.com).
- Ensure your operating system is up to date.
