

CAMOLO GEEK MG03

CAMOLO GEEK MG03 Magnetic Pocket Phone Tripod Instruction Manual

Model: MG03
Brand: CAMOLO GEEK

INTRODUCTION

This manual provides instructions for the safe and effective use of your CAMOLO GEEK MG03 Magnetic Pocket Phone Tripod. Please read this manual thoroughly before use and retain it for future reference.

KEY FEATURES

- Compact and Lightweight Design (165g / 5.8oz)
- Steadfast Stability with Hidden Split Legs
- Arca-Swiss Compatible Base with Multiple Screw Holes (1/4", 3/8")
- Magnetic Compatibility (MagSafe for iPhone 12-15 series, included metal ring for other phones/cases)
- Versatile Use (phone stand, handheld stick, tripod mount, overhead mount)
- Tri-Fold Free Angles Adjustable (310°, 360°, 180° adjustment, extends from 3.15" to 10.24")

SETUP AND ASSEMBLY

Unfolding the Tripod

The MG03 tripod features a compact, foldable design. Gently unfold the articulated arms to extend the stand. The joints are designed to be firm to maintain stability.

MULTIPLE CONNECTION BASE

Compatible with **Arca-Swiss** Mount

3/8" Screw hole

1/4" Screw hole

Video Description: This video demonstrates the unfolding of the magnetic pocket phone tripod and its basic use with a MagSafe-compatible iPhone, showcasing its compact and adjustable design.

Attaching Your Smartphone

The tripod features a powerful magnetic ring for secure attachment.

For MagSafe Compatible Devices (iPhone 12-15 Series or MagSafe Cases)

Simply align your MagSafe-compatible iPhone or phone case with the magnetic ring on the tripod. The magnets will securely attach the device.

For Other Smartphones or Cases

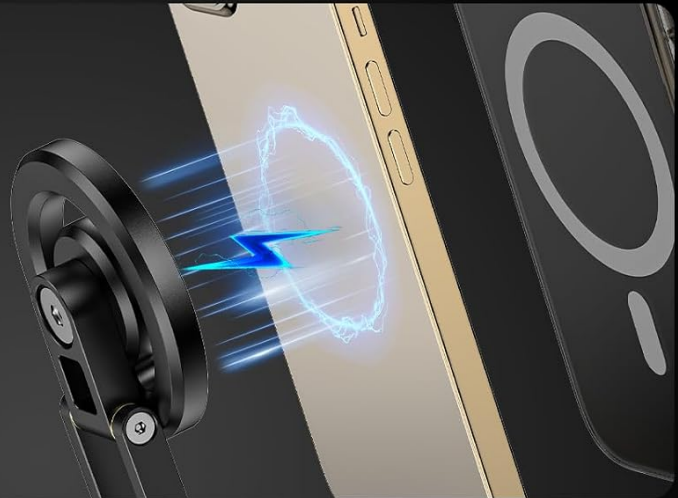

If your phone or case is not MagSafe compatible, use the included metal ring. Peel off the adhesive backing and carefully center the metal ring on the back of your phone or case. Once attached, your device can be magnetically secured to the tripod.

COMPATIBLE WITH ALL PHONES

Metal ring included for the phones without Magsafe or with thick phone case

☒ Case with MagSafe

☒ Other phones & cases with
Sticked Metal Ring(included)

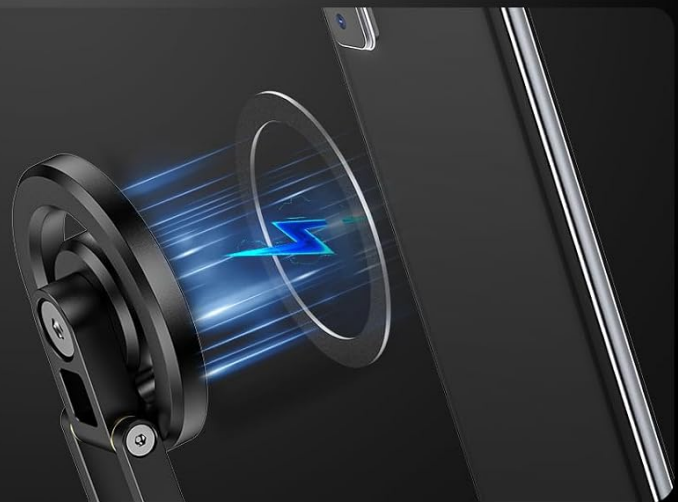

Image Description: A diagram illustrating how a MagSafe-compatible iPhone attaches to the tripod, and how to use the included metal ring for other phones or cases to achieve magnetic compatibility.

OPERATING INSTRUCTIONS

Adjusting Angles and Height

The MG03 tripod offers multi-angle adjustment with its tri-fold design. Each folding angle supports 310°, 360°, and 180° of adjustment. The length can be adjusted from 3.15 inches (80mm) to 10.24 inches (260mm), with a maximum expanded elevation of 7.1 inches (180mm). A 360-degree rotating pivot at the top allows for flexible camera positioning.

FREE ARTICULATION ADJUSTMENT

Image Description: Diagrams illustrating the various angle adjustments possible with the tripod's articulated joints and rotating magnetic head, including 120°, 180°, and 360° rotations.

Video Description: This video illustrates the various adjustable angles and versatile configurations of the Camolo MagSafe stand, highlighting its sturdy and compact nature for different usage scenarios.

Using as a Tripod Mount

The base of the tripod can be transformed into an Arca-Swiss quick release plate. This allows for rapid attachment to any tripod head with a compatible mounting system. Additionally, the base features multiple bottom screw holes (3 x 1/4" and 1 x 3/8") for seamless integration with various tripods, monopods, and gimbals.

FOLDABLE & PORTABLE

Folded: 8.2x6x2.45cm / 3.2x2.3x0.96inch Weight: 165g / 5.8oz

Image Description: The tripod's base is shown with various screw holes (1/4 inch and 3/8 inch) and an Arca-Swiss type plate, demonstrating its compatibility with external tripod mounts.

CARE AND MAINTENANCE

To ensure the longevity of your MG03 tripod, keep it clean and free from dust and debris. Wipe with a soft, dry cloth. Avoid exposing the device to extreme temperatures or harsh chemicals.

TROUBLESHOOTING

Phone Not Staying Securely Attached

Ensure your phone or case is MagSafe compatible. If using the included metal ring, verify it is properly centered and securely adhered to a clean, flat surface on your phone or case. The magnetic holding force is approximately 3 lbs.

Joints are Too Stiff or Too Loose

The joints are designed to be firm for stability. If they feel excessively stiff, gentle, consistent pressure should allow for adjustment. If they become too loose over time, the screws at the joints may be tightened with an appropriate

Allen wrench (not included).

PRODUCT SPECIFICATIONS

Feature	Detail
Product Dimensions	3.15 x 10.24 x 7.1 inches
