Blackview Tab 90WiFi

Blackview Tab 90WiFi Android 15 Tablet Instruction Manual

Model: Tab 90WiFi

PRODUCT OVERVIEW

The Blackview Tab 90WiFi is an 11-inch Android 15 tablet designed for versatile use, from entertainment to productivity. It features a Unisoc T606 Octa-core CPU, 12GB RAM (4GB physical + 8GB virtual) and 128GB internal storage, expandable up to 2TB via TF card. The tablet boasts an 8200mAh battery for extended use, 5G WiFi, Bluetooth 5.0, and Widevine L1 support for high-definition streaming. It includes a 13MP rear camera and an 8MP front camera, along with Face ID for secure access.

What's in the Box

- Blackview Tab 90WiFi Tablet (128GB SSD)
- USB-A to USB-C Cable (for charging and data transfer)
- SIM Removal Tool (for TF card expansion)
- Basic User Manual

Setup

1. Initial Charge

Before first use, ensure the tablet is fully charged. Connect the provided USB-C cable to the tablet's charging port and the other end to a compatible USB power adapter (not included). Charge for at least 30 minutes before powering on, especially if the battery is completely depleted.

2. Power On/Off

To power on, press and hold the Power Button (located on the left side when in landscape orientation) for 3-5 seconds until the Blackview logo appears. To power off, press and hold the Power Button, then select "Power off" from the on-screen options.

3. Initial Setup Wizard

Upon first power-on, the Android 15 setup wizard will guide you through essential configurations:

1. **Language Selection:** Choose your preferred language (e.g., English (United States)).
2. **Wi-Fi Connection:** Select your Wi-Fi network from the list and enter the password. The tablet supports 5G Wi-Fi for faster speeds.
3. **Google Account Setup:** Sign in with your existing Google account or create a new one. This is essential for accessing the Google Play Store and other Google services.
4. **System Navigation:** Choose between "Gestural navigation" (swipe-based) or "3-buttons navigation" (traditional home, back, and recent apps buttons).
5. **Face ID Setup:** Follow the on-screen prompts to set up Face ID for quick and secure unlocking.
6. **Date & Time:** Confirm or adjust date and time settings.
7. **Privacy Settings:** Review and adjust privacy permissions for applications.

4. Expanding Storage (Optional)

The tablet supports up to 2TB TF (microSD) card expansion. To install a TF card:

1. Locate the TF card slot on the right side of the tablet.
2. Use the provided SIM removal tool to gently eject the card tray.
3. Place the TF card into the designated slot on the tray, ensuring correct orientation.
4. Carefully reinsert the tray into the tablet until it clicks into place.

OPERATING THE TABLET

User Interface and Navigation

The Blackview Tab 90WiFi runs on Android 15, offering an intuitive and customizable user experience. The home screen provides quick access to frequently used apps and widgets. Swipe left or right to navigate between home screens. Swipe down from the top of the screen to access the notification shade and quick settings panel.

Basic Functions

- **Volume Control:** Use the Volume Up/Down buttons on the left side of the tablet to adjust media, alarm, and ringtone volumes.
- **Screen Rotation:** The tablet supports automatic screen rotation. You can enable/disable this feature in the quick settings panel or Display settings.
- **App Management:** Access the System Manager app to optimize performance, free up storage space, manage

apps, and enable smart power saving.

- **Google Play Store:** Download and install a wide variety of apps, games, movies, and books.
- **Web Browsing:** Use the pre-installed Chrome browser or download another browser from the Play Store for internet access.

Multimedia

- **Video Playback:** The 11-inch IPS display with Widevine L1 support provides an immersive viewing experience for streaming services like Netflix, Disney+, and Hulu.
- **Audio:** Enjoy stereo sound through the dual speakers located on the sides of the tablet. A 3.5mm headphone jack is also available for private listening.
- **Camera:** The 13MP rear camera and 8MP front camera are suitable for casual photography, video calls, and scanning documents.

Productivity Features

- **WPS Office:** The tablet comes with WPS Office pre-installed, allowing you to create and edit documents, presentations, and spreadsheets.
- **Split Screen:** Utilize the split-screen feature for multitasking, running two apps side-by-side.
- **PC Mode:** Transform your tablet into a more desktop-like experience for enhanced productivity.

MAINTENANCE

- **Software Updates:** Regularly check for and install system updates to ensure optimal performance, security, and access to new features. Go to Settings > System > System update.
- **Cleaning:** Use a soft, lint-free cloth to clean the screen and body of the tablet. Avoid using harsh chemicals or abrasive materials.
- **Storage Management:** Periodically clear unnecessary files, cache data, and uninstall unused apps to free up storage space and maintain performance. The System Manager app can assist with this.
- **Battery Care:** To prolong battery life, avoid extreme temperatures. For long-term storage, charge the battery to around 50-60%.

TROUBLESHOOTING

- **Tablet Not Powering On:** Ensure the battery is sufficiently charged. Connect to a power source and try again after 30 minutes. If still unresponsive, perform a forced restart by holding the Power Button for 10-15 seconds.
- **Apps Crashing/Freezing:** Close the problematic app and reopen it. If the issue persists, clear the app's cache (Settings > Apps & notifications > [App Name] > Storage & cache > Clear cache). As a last resort, uninstall and reinstall the app.
- **Wi-Fi Connectivity Issues:** Ensure Wi-Fi is enabled in settings. Restart your Wi-Fi router. Forget the network and reconnect.
- **Slow Performance:** Close background apps. Clear cache and temporary files using the System Manager. Restart the tablet. Consider a factory reset if issues persist (backup data first).
- **Face ID Not Working:** Ensure your face is well-lit and unobstructed. Re-register your Face ID in Settings > Security.
