X9 Performance X9RFBLERGBAL

X9 Performance Ergonomic Wireless Keyboard with Trackball User Manual

Model: X9RFBLERGBAL

1. INTRODUCTION

Thank you for choosing the X9 Performance Ergonomic Wireless Keyboard with Trackball. This keyboard is designed to enhance your typing comfort and efficiency with its split ergonomic layout, integrated trackball, and convenient features. This manual provides detailed instructions to help you set up, operate, and maintain your new keyboard.

2. SETUP

2.1. What's in the Box

- X9 Performance Ergonomic Wireless Keyboard
- USB-A 2.4GHz Wireless Adapter
- USB-C Charging Cable
- User Manual (this document)

2.2. Connecting Your Keyboard

The X9 Performance keyboard uses a 2.4GHz wireless connection via a USB-A adapter. No software installation is required for basic functionality.

1. Locate the USB-A wireless adapter. It is typically stored in a compartment on the underside of the keyboard for safekeeping.
2. Plug the USB-A wireless adapter into an available USB-A port on your computer (PC or Chrome device).

3. Turn on the keyboard using the power switch, usually located on the underside or side of the keyboard. The keyboard should automatically connect to your computer.

Image: The keyboard's underside showing the USB-A dongle storage and the USB-C charging port, highlighting its wireless and rechargeable capabilities.

2.3. Charging the Keyboard

The keyboard features a built-in 2000mAh rechargeable battery. To charge:

- Connect the provided USB-C charging cable to the USB-C port on the keyboard.
- Connect the other end of the USB-C cable to a USB power source (e.g., computer USB port, USB wall adapter).
- The charging indicator light on the keyboard will illuminate during charging and turn off when fully charged. A full charge can provide up to 12 months of use.

3. OPERATING INSTRUCTIONS

3.1. Ergonomic Design and Comfort

The keyboard's split and sloped structure, combined with an integrated wrist rest, is designed to promote a natural hand and wrist posture, reducing strain during extended typing sessions.

Image: The keyboard's ergonomic split design and integrated wrist rest, illustrating how it promotes comfortable typing posture.

3.2. Integrated Trackball and Mouse Controls

The keyboard features a centralized trackball for thumb-controlled navigation, eliminating the need for a separate mouse. It includes dedicated mouse buttons and a scroll wheel.

- **Trackball:** Use your thumb to control the cursor movement.
- **Left Click Button:** Located to the left of the trackball.
- **Right Click Button:** Located to the right of the trackball.
- **Scroll Wheel:** Positioned above the trackball for vertical scrolling.

3.3. Adjusting Trackball Sensitivity

You can fine-tune the trackball's cursor speed through your computer's operating system settings.

- **For Windows PC:**

  1. Open **Settings**.
  2. Navigate to **Bluetooth & devices**.
  3. Select **Mouse**.
  4. Adjust the **Mouse pointer speed** slider to your preferred sensitivity.

Image: Step-by-step visual guide on how to adjust trackball sensitivity within Windows settings.

3.4. Backlight Adjustment

The keyboard features white backlighting with 3 adjustable brightness levels for optimal visibility in various lighting conditions.

- To cycle through brightness levels (Off, Low, Medium, High), press the dedicated backlight control key (often indicated by a light bulb icon or similar).

WIRELESS AND RECHARGEABLE.

4. MAINTENANCE

4.1. Cleaning the Keyboard

To ensure longevity and optimal performance, clean your keyboard regularly:

- Disconnect the keyboard from your computer before cleaning.
- Use a soft, lint-free cloth slightly dampened with water or a mild, non-abrasive cleaning solution.
- Avoid spraying liquids directly onto the keyboard.
- For dust and debris between keys, use compressed air.

4.2. Trackball Cleaning

If the trackball's movement becomes rough or inaccurate, it may need cleaning:

- Gently remove the trackball from its housing (refer to product diagrams if available for specific removal instructions).
- Clean the trackball and the inside of its housing, especially the small rollers or sensors, with a clean, lint-free cloth.
- Reinsert the trackball into its housing.

4.3. Battery Care

- Avoid fully discharging the battery frequently to prolong its lifespan.
- Store the keyboard in a cool, dry place when not in use for extended periods.

5. TROUBLESHOOTING

If you encounter issues with your X9 Performance keyboard, try the following solutions:

5.1. Keyboard Not Responding / Connectivity Issues

- **Check Power:** Ensure the keyboard is turned on and fully charged. Connect the USB-C charging cable to verify if the battery is low.
- **USB Adapter:** Ensure the 2.4GHz USB-A adapter is securely plugged into a working USB port on your computer. Try a different USB port.
- **Re-pair:** If connection is lost, try unplugging and re-plugging the USB adapter. Turn the keyboard off and on again.
- **Interference:** Move the keyboard closer to the USB adapter or away from other wireless devices that might cause interference.

5.2. Trackball Not Moving Smoothly or Inaccurately

- **Clean Trackball:** Refer to Section 4.2 for trackball cleaning instructions. Dust or debris can affect performance.
- **Adjust Sensitivity:** The trackball sensitivity might be too low or too high for your preference. Refer to Section 3.3 for instructions on adjusting trackball sensitivity in your operating system settings.

5.3. Backlight Not Working

- **Check Brightness Level:** Press the backlight control key (often with a light bulb icon) to cycle through brightness levels and ensure it's not set to 'Off'.
- **Battery Level:** Ensure the keyboard has sufficient battery charge. Low battery might disable backlighting to conserve power.

6. SPECIFICATIONS

| Feature	Detail
Brand	X9 Performance

Model Number	X9RFBLERGBAL
Product Dimensions	18.3"L x 8.7"W x 0.3"H (18.3 x 8.7 x 0.3 inches)
