LUXPRO XP918

LUXPRO XP918 2500 Lumen Rechargeable Flashlight with Power Bank

MODEL: XP918

1. Introduction

Thank you for choosing the LUXPRO XP918 Rechargeable Flashlight. This manual provides essential information for the safe and efficient operation, maintenance, and care of your device. Please read this manual thoroughly before use and retain it for future reference.

Safety Information

- Do not look directly into the LED light beam to avoid eye injury.
- Keep out of reach of children.
- Do not attempt to disassemble the flashlight; this may void the warranty and cause damage.
- Avoid exposing the flashlight to extreme temperatures or direct sunlight for prolonged periods.
- This product is not water resistant. Avoid immersion in water or exposure to heavy rain.

2. Product Overview

The LUXPRO XP918 is a high-performance rechargeable LED flashlight designed for powerful illumination and versatile functionality, including a power bank feature. It is constructed from durable aircraft-grade aluminum.

Figure 2.1: The LUXPRO XP918 flashlight, showcasing its robust design and integrated button.

Key Features:

- **High Lumen Output:** Delivers up to 2500 lumens, with a beam distance of up to 280 meters.

- **Rechargeable Battery:** Equipped with a built-in 2600mAh Lithium Ion battery.
- **Smart Indicator Button:** Provides battery status feedback.
- **Power Bank Function:** USB-C port allows charging of external devices.
- **Durable Construction:** Crafted from aircraft-grade aluminum.

3. Setup

Initial Charging

Before first use, it is recommended to fully charge your LUXPRO XP918 flashlight. The flashlight comes with a built-in Lithium Ion battery.

1. Locate the USB-C charging port on the flashlight.
2. Connect a standard USB-C charging cable (not included) to the flashlight's port and to a compatible USB power source (e.g., wall adapter, computer USB port).

3. The smart indicator button will illuminate to show charging status. Refer to the "Charging and Power Bank Function" section for details on indicator lights.
4. Allow the flashlight to charge until the indicator shows a full charge.

4. Operating Instructions

Turning On/Off and Mode Selection

The XP918 features multiple light modes for various illumination needs.

Figure 4.1: The smart indicator button on the XP918, used for power and mode selection.

1. **To Turn On:** Press the smart indicator button once. The flashlight will activate in its last used mode.
2. **To Change Modes:** While the flashlight is on, press the smart indicator button repeatedly to cycle through the available light modes (e.g., High, Low, Ultra Low).
3. **To Turn Off:** Press and hold the smart indicator button for approximately 1 second.

The XP918 offers powerful illumination, reaching up to 280 meters in High mode.

Powerful Illumination

Experience the brilliance of 2500 lumens in High Mode, providing an intense beam that reaches up to 280 meters.

Figure 4.2: The XP918 flashlight emitting a powerful beam, illustrating its 2500 lumen output and long beam distance.

5. Charging and Power Bank Function

Charging the Flashlight

The XP918 is equipped with a built-in rechargeable battery. Use the USB-C port for charging.

- Connect a USB-C cable to the flashlight's charging port and a power source.
- The smart indicator button will show charging status. A red glow indicates the charge is below 25%. The indicator will change color or turn off when fully charged (refer to product packaging for specific indicator behavior).

Using as a Power Bank

The XP918 can also function as a portable power bank to charge other devices.

Versatile Function

Designed to meet your illumination needs and doubles as a power bank.

Figure 5.1: The XP918 flashlight highlighting its versatile function, including the ability to act as a power bank.

1. Connect your device's charging cable (USB-C to your device's port) to the flashlight's USB-C port.
2. The flashlight will begin to supply power to your device.
3. Monitor the smart indicator button for the flashlight's remaining battery level.

6. Maintenance

Cleaning

- Wipe the flashlight with a soft, damp cloth.
- Do not use abrasive cleaners or solvents.

Storage

- Store the flashlight in a cool, dry place away from direct sunlight.
- For long-term storage, charge the battery to approximately 50% every 3-6 months to maintain battery health.

7. Troubleshooting

Problem	Possible Cause	Solution
Flashlight does not turn on.	Battery is depleted.	Charge the flashlight using a USB-C cable.
Flashlight does not charge.	Faulty cable or power source.	Try a different USB-C cable and/or power adapter. Ensure connections are secure.
Power bank function not working.	Flashlight battery too low or device not compatible.	Ensure the flashlight has sufficient charge. Verify your device is compatible with USB-C charging.
Light output is dim.	Battery is low or in a lower mode.	Recharge the flashlight. Cycle through modes to select a brighter setting.

8. Specifications
