## 2. SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury to persons. This appliance is intended for domestic use only.

### 2.1 General Safety

- Ensure the appliance is properly grounded.
- Do not operate the dishwasher if it is damaged.

- Keep children away from the appliance during operation.
- Use only detergents and rinse aids specifically designed for dishwashers.
- Sharp items should be loaded with points and edges down to prevent injury.

## 2.2 Electrical Safety

- Do not pull the power cord to disconnect the appliance. Always grasp the plug firmly.
- Do not touch the plug with wet hands.
- Ensure the electrical outlet is suitable for the appliance's power requirements.

## 2.3 Water Safety

- Check water hoses regularly for signs of wear or damage.
- Ensure water connections are tight to prevent leaks.

## 3. SETUP AND INSTALLATION

---

The Electrolux EES68615L is a total integrated dishwasher designed to blend seamlessly with your kitchen cabinetry. It requires professional installation. Please note that the decorative front panel and handle are not included with the appliance and must be supplied separately to match your kitchen design.

### 3.1 Unpacking

Carefully remove all packaging materials. Inspect the dishwasher for any damage incurred during transit. Report any damage to your retailer immediately.

### 3.2 Water and Electrical Connections

Ensure water supply and drainage connections are correctly made according to local plumbing codes. The appliance requires a 220-240V, 50Hz electrical supply. All connections should be performed by a qualified technician.

## 4. OPERATING INSTRUCTIONS

Your Electrolux EES68615L dishwasher is equipped with advanced features for efficient and effective dishwashing.

### 4.1 Control Panel and Program Selection

The QuickSelect control panel allows for intuitive program selection. Use the sliding control to adjust the cycle

duration, and the Ecometer will visually guide you to the most water and energy-efficient program for your load.

The image is a side-by-side comparison of two dishwasher racks. On the left, labeled 'senza AirDry', the dishes are covered in water droplets. On the right, labeled 'con AirDry', the dishes are clean and dry. The racks contain yellow plastic cups and clear glass bottles.

### 4.3 Washing Technology

- **SatelliteClean:** This technology ensures thorough cleaning with a satellite spray arm that changes the angle of the water jet, reaching every corner of the dishwasher.
- **ExtraHygiene:** For maximum sanitization, this function maintains a temperature between 65°C and 69°C during the final rinse for at least 10 minutes, removing over 99.99% of bacteria.

### 4.4 Drying Performance

The AirDry technology automatically opens the dishwasher door slightly at the end of the cycle, allowing natural air to complete the drying process, resulting in perfectly dry dishes and reduced energy consumption.

## 5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your dishwasher.

### 5.1 Cleaning the Filters

The dishwasher features removable filters. Regularly clean these filters to prevent blockages and maintain wash performance. Refer to the detailed instructions in the full user manual for filter removal and cleaning procedures.

### 5.2 Descaling

Depending on your water hardness, periodic descaling may be necessary. Use a dishwasher descaler product as recommended by Electrolux to prevent limescale buildup.

## 6. TROUBLESHOOTING

Before contacting service, consult the following common issues and solutions:

Problem	Possible Cause	Solution
Dishwasher does not start	Power supply issue, door not closed properly, program not selected.	Check power connection, ensure door is latched, select a program and press start.
Dishes not clean	Improper loading, clogged spray arms, insufficient detergent, dirty filters.	Reload dishes correctly, clean spray arm nozzles, use appropriate detergent, clean filters.
Water leakage	Hose connections loose, door seal damaged, excessive foam.	Check hose connections, inspect door seal for damage, use less detergent.
Excessive noise	Items interfering with spray arms, foreign object in pump, improper installation.	Rearrange dishes, check for foreign objects, ensure proper leveling.

For more detailed troubleshooting, refer to the complete user manual or contact Electrolux customer support.
