## 4. FITTING YOUR EARBUDS

For optimal sound quality and noise cancellation, a proper fit is crucial. The JBL Live Buds 3 come with four sizes of ear tips to ensure a comfortable and secure seal.

### 4.1 Choosing the Right Ear Tips

- Experiment with different ear tip sizes to find the best fit for your ears.
- A good fit provides a tight seal, which enhances bass performance and noise cancellation.
- If the earbuds feel loose or sound quality is poor, try a larger size. If they feel uncomfortable or cause pressure, try a smaller size.

### 4.2 Inserting the Earbuds

1. Gently insert the earbud into your ear canal.
2. Rotate the earbud slightly forward or backward until it feels snug and secure.
3. The stem of the earbud should point towards your mouth.
