SETUP

1. Initial Charging

Before first use, fully charge the earbuds and the charging case. Connect the supplied USB Type-C cable to the charging case and a power source. The case supports wireless charging for added convenience.

2. Pairing with Your Device

1. Open the charging case. The earbuds will automatically enter pairing mode.
2. On your device (smartphone, tablet, etc.), enable Bluetooth and search for "JBL Live Beam 3" in the list of available devices.
3. Select "JBL Live Beam 3" to connect. A voice prompt will confirm successful pairing.

3. Eartip Fit

Proper eartip fit is crucial for optimal sound quality and noise cancellation. Experiment with the three included sizes

of ear tips to find the best seal for your ears. A snug fit enhances bass response and active noise cancelling performance.

4. JBL Headphones App Installation

For full customization and advanced features, download the JBL Headphones App from your device's app store. The app allows you to adjust EQ settings, control noise cancellation, and personalize other functions.

OPERATING INSTRUCTIONS

Smart Charging Case with Touchscreen Display

The 1.45-inch touchscreen display on the Smart Charging Case provides direct control over various earbud features without needing to access the JBL App on your smartphone. You can adjust volume, EQ, music playback, manage calls, and view messages directly from the case. The screen can also be customized with your favorite photos as a screensaver.

True Adaptive Noise Cancelling (ANC)

The earbuds feature best-in-class True Adaptive Noise Cancelling, which uses four noise-sensing microphones to automatically adjust to your surroundings in real-time. This allows you to either completely block out external distractions or control the amount of ambient sound you wish to hear. The JBL Headphones App includes an audio compensation filter to fine-tune ANC levels based on your ear canal's unique shape.

JBL Spatial Sound

Experience immersive audio with JBL Spatial Sound, designed to make movies and music feel as if the sound is coming from all around you, similar to a live concert experience.

Call Features

Equipped with six beamforming microphones, the earbuds effectively reduce wind and noise interference, ensuring clear voice transmission during calls. Personal Sound Amplification allows for customized ambient sound levels, and a voice equalizer and voice level optimizer provide full control over your outgoing voice and incoming audio levels.

Battery Life and Charging

The JBL Live Beam 3 offers up to 12 hours of playback on a single charge (with ANC off), with an additional 36 hours provided by the charging case, totaling 48 hours of combined playback. For quick power-ups, a 10-minute charge via the USB Type-C cable provides approximately four hours of playtime. The charging case also supports wireless charging.

Multi-Point Connection

The earbuds support multi-point connection, allowing seamless switching between two Bluetooth-enabled devices. For example, you can listen to music on your tablet and instantly switch to answer a call on your smartphone.

Waterproof and Dustproof

With an IP55 rating, the JBL Live Beam 3 earbuds are resistant to dust and water splashes, making them suitable for various environments and activities.

Google Finder Integration

Utilize Google Finder to locate your earbuds if they are misplaced, providing an additional layer of convenience and security.

MAINTENANCE

Cleaning

- Regularly clean the earbuds, especially the eartips and charging contacts, with a soft, dry, lint-free cloth.
- Remove eartips and clean them with mild soap and water if necessary, ensuring they are completely dry before reattaching.
- Use a cotton swab to gently clean any debris from the earbud grilles.

Storage

Always store the earbuds in their charging case when not in use to protect them from damage and to keep them charged. Avoid exposing the earbuds or case to extreme temperatures, humidity, or direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
No sound from earbuds	Earbuds not paired, low battery, volume too low.	Ensure earbuds are paired, charge earbuds and case, increase volume on device and earbuds.
Earbuds not pairing	Bluetooth off, earbuds not in pairing mode, interference.	Ensure Bluetooth is on, place earbuds in case and reopen to enter pairing mode, move away from other wireless devices.
Charging issues	Cable not connected properly, dirty charging contacts, faulty power source.	Check cable connection, clean charging contacts on earbuds and case, try a different USB port or power adapter.
Active Noise Cancelling (ANC) not effective	Improper eartip fit, ANC not activated, environmental noise too high.	Adjust eartip size for a better seal, ensure ANC is enabled via the case or app, note that ANC has limitations in extremely noisy environments.

SPECIFICATIONS

Model Name	JBL Live Beam 3
Item Model Number	JBLLIVEBEAM3BLKAM
Brand	JBL
Connectivity Technology	Wireless (Bluetooth)
Noise Control	Adaptive Noise Cancellation
Battery Life	48 Hours (Total Playback)
