Nostalgia NSPFP6SS6A Stirring Popcorn Popper Instruction Manual

Model: NSPFP6SS6A

INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient operation of your Nostalgia NSPFP6SS6A Stirring Popcorn Popper. This appliance is designed to produce up to 24 cups of popcorn per batch using a stirring mechanism for even heat distribution. Please read all instructions carefully before initial use and retain this manual for future reference.

IMPORTANT SAFEGUARDS

When using electrical appliances, basic safety precautions should always be followed, including:

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or any part of the unit in water or other liquids.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not provided by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let the cord hang over the edge of a table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Do not use the appliance for other than intended use.
- A short power-supply cord is provided to reduce the risk resulting from becoming entangled in or tripping over a longer cord.

PARTS AND FEATURES

Familiarize yourself with the components of your popcorn popper:

- Base Unit with Non-Stick Cooking Plate and Stirring Rod
- Transparent Dome Lid (doubles as serving bowl)
- Cool-Touch Handles
- Kernel Measuring Cup (1/4 cup)
- Oil Measuring Spoon (1 tablespoon)

STIRRING POPCORN POPPER!

☁ pops up to 24 cups
of popcorn per batch

☁ 2-in-1
popping bowl

☁ motorized stirring
rod for even popping!

☁ convenient
countertop size

Image: A collage of close-up views highlighting specific features: the cool-touch handles for safe handling, the vent holes on the lid which also serve as a butter melting tray, and the non-stick cooking plate for easy cleanup.

SETUP

1. Before first use, wipe down all surfaces with a damp cloth and dry thoroughly.
2. Ensure the appliance is placed on a stable, heat-resistant surface away from water sources.
3. Verify that the stirring rod is properly seated in the center of the cooking plate.
4. Ensure the dome lid is securely placed on the base unit.

OPERATING INSTRUCTIONS

Follow these steps to make popcorn:

1. Using the provided oil measuring spoon, add 1 tablespoon of your preferred popping oil to the non-stick cooking plate.

2. Using the provided kernel measuring cup, add 1/4 cup of popcorn kernels to the cooking plate. Do not overfill.
3. Place the transparent dome lid securely on the base unit. If desired, place butter on the vent holes of the lid to melt while popping.
4. Plug the appliance into a standard electrical outlet. The unit will begin heating immediately.
5. The stirring rod will rotate to ensure even distribution of kernels and oil.
6. Listen for the popping to begin. Once the popping slows to 1-2 seconds between pops, unplug the unit.
7. Carefully grasp the cool-touch handles and invert the entire unit, using the dome lid as a serving bowl.
8. Add desired seasonings and enjoy.

MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity of your appliance:

1. Always unplug the unit and allow it to cool completely before cleaning.
2. The non-stick cooking plate can be wiped clean with a damp cloth and mild soap. Do not use abrasive cleaners or scouring pads.
3. The transparent dome lid can be washed in warm, soapy water. Rinse thoroughly and dry.
4. Do not immerse the base unit or electrical cord in water or any other liquid.
5. Store the appliance in a cool, dry place.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Popcorn not popping or very few kernels pop.	<ul style="list-style-type: none">◦ Not enough oil.◦ Old or dry kernels.◦ Appliance not plugged in.	<ul style="list-style-type: none">◦ Ensure 1 tablespoon of oil is used.◦ Use fresh popcorn kernels.◦ Check power connection.
Popcorn is burning.	<ul style="list-style-type: none">◦ Too much oil or kernels.◦ Left on too long after popping stops.	<ul style="list-style-type: none">◦ Use recommended measurements (1 tbsp oil, 1/4 cup kernels).◦ Unplug immediately once popping slows significantly.
Stirring rod not rotating.	<ul style="list-style-type: none">◦ Not properly seated.◦ Obstruction.	<ul style="list-style-type: none">◦ Ensure stirring rod is correctly positioned.◦ Check for any debris preventing rotation.
