Tilcare Portable Bottle Warmer Instruction Manual

Model: B0D37TCFGQ

1. INTRODUCTION

Thank you for choosing the Tilcare Portable Bottle Warmer. This device is designed to provide a convenient and safe way to warm breast milk, formula, or water to the ideal temperature for your baby, whether at home or on the go. Please read this manual thoroughly before first use to ensure proper operation and maintenance.

Image: The Tilcare Portable Bottle Warmer, a compact green device, is displayed alongside a baby bottle and a formula dispenser, highlighting its portability and utility for feeding.

2. SAFETY INFORMATION

- Always ensure the cap is securely closed to prevent leaks.
- The device features a default lock mechanism to prevent accidental activation. Always unlock before use.
- The double-walled design helps prevent scalding from hot water. Exercise caution when handling hot liquids.
- Do not immerse the electronic base in water.
- Use only the provided charging cable and a compatible power adapter.
- Keep out of reach of children.
- Always test the temperature of the milk or formula before feeding your baby.

3. PRODUCT OVERVIEW

The Tilcare Portable Bottle Warmer is designed for ease of use and portability. It features a durable construction and intuitive controls.

Key Components:

- **Main Unit:** Double-walled, 316 stainless steel inner lid, BPA-free construction.
- **Control Panel:** LCD temperature display, power button, temperature adjustment buttons (+/-), unlock button.
- **Charging Port:** USB-C port with silicone plug.
- **Carrying Strap:** For easy transport.
- **Formula Dispenser:** Included for spill-proof formula preparation.

4. SETUP

4.1 Initial Cleaning

1. Before first use, wash the interior of the bottle warmer and the cap with warm, soapy water.
2. Rinse thoroughly and allow to air dry.
3. Wipe the exterior with a damp cloth. Do not immerse the main unit in water.

4.2 Charging the Device

1. Locate the USB-C charging port on the side of the warmer, protected by a silicone plug.
2. Connect the provided USB-C cable to the warmer and plug the other end into a compatible USB power adapter (not included).
3. A full charge takes approximately 3 hours. The battery indicator on the LCD screen will show charging status.
4. Ensure the silicone plug is securely closed after charging to protect the port from moisture.

5. OPERATING INSTRUCTIONS

Follow these steps to warm your baby's milk or water:

1. **Fill the Warmer:** Open the cap and pour breast milk, formula, or water into the insulated bottle. The capacity is 17oz (500mL).
2. **Secure the Cap:** Close the cap tightly to prevent any spills.
3. **Power On:** Press and hold the power button for 5 seconds to turn on the device. The LCD screen will display the current temperature.
4. **Unlock:** Long press the "unlock" button (lock icon) to enable temperature adjustments.
5. **Set Temperature:** Use the '+' and '-' keys to select your desired temperature between 37-55°C (98-131°F).
6. **Start Warming:** Press the power/unlock button once to confirm your chosen temperature and begin the warming process. The device will heat the liquid in approximately 5-10 minutes and maintain the set temperature for up to 12 hours.
7. **Dispense:** Once warmed, open the cap and carefully pour the liquid into a baby bottle.
8. **Test Temperature:** Always test the temperature of the liquid on your wrist before feeding your baby.

Easy to Use

1

Open the cap & fill in the insulated bottle

2

Close the cap, press and hold the 'power' button for 5 seconds

3

Long press on the "unlock" button

4

Make use of '+' and '-' keys to select to your desired level

5

To set your chosen temperature press the power/unlock button once

5.1 Using the Formula Dispenser

The included formula dispenser ensures mess-free preparation. Fill the dispenser with the desired amount of formula powder. When ready to feed, pour the warmed water from the Tilcare warmer into a baby bottle, then add the formula from the dispenser. Shake well until dissolved.

Mess-Free Preparations

Day or night, at home or on the go – our Formula Dispenser is designed to make feeding a breeze.

5.2 Preserving Nutrients

The precise temperature control of the Tilcare warmer helps preserve essential nutrients in breast milk and formula by preventing overheating. The gentle and even heating process ensures optimal nutrition for your baby.

Image: A cutaway diagram of the Tilcare Portable Bottle Warmer shows how heat is gently and evenly distributed to warm milk or formula, preventing nutrient loss.

6. MAINTENANCE

6.1 Cleaning

- After each use, empty any remaining liquid.
- Wash the interior and cap with warm, soapy water. The 316 stainless steel inner lid is easy to clean.
- Rinse thoroughly to remove all soap residue.
- Wipe the exterior of the warmer with a soft, damp cloth. Do not use abrasive cleaners or immerse the electronic base in water.
- Ensure all parts are completely dry before reassembling or storing.

6.2 Storage

Store the bottle warmer in a cool, dry place away from direct sunlight when not in use. Ensure the device is clean and dry before storage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not turn on.	Low battery or not charged.	Charge the device fully (approx. 3 hours). Ensure the power button is pressed and held for 5 seconds.
Device not heating.	Temperature not set or not confirmed. Device is locked.	Ensure the device is unlocked by long-pressing the unlock button. Set the desired temperature and press the power/unlock button once to start heating.
Liquid is leaking.	Cap not securely closed or seal is compromised.	Ensure the cap is tightened properly. Check the food-grade silicone seal for any damage or misalignment.
Battery drains quickly.	Frequent use, extreme temperatures, or aging battery.	Ensure the device is fully charged before each use. Battery life can vary based on usage and ambient temperature. Contact customer support if issues persist.
Charging issues.	Faulty cable, adapter, or charging port.	Try a different USB-C cable and power adapter. Ensure the charging port is clean and free of debris.

8. SPECIFICATIONS

Feature	Detail
Model Number	B0D37TCFGQ
Capacity	17 oz (500 mL)
Temperature Range	37-55°C (98-131°F)
Heating Time	5-10 minutes (approx.)
Temperature Hold Time	Up to 12 hours
Battery Capacity	5000mAh Lithium Ion
Charging Time	Approx. 3 hours
Materials	BPA-free, 316 Stainless Steel inner lid
Dimensions (L x W x H)	13.46 x 5.08 x 4.8 inches
Item Weight	2.25 pounds

9. WARRANTY AND SUPPORT

For warranty information or technical support, please contact Tilcare customer service. Refer to your purchase documentation for specific warranty terms and contact details. You can also visit the official Tilcare website for further assistance.

Tilcare was founded with the Hippocratic principles of medicine in mind, focusing on the ancient command of helping those in need to improve their health and enhance their quality of life.
