

Kelty Coyote 65L (Model 922611124BK)

Kelty Coyote 65L Internal Frame Backpack User Manual

Model: Coyote 65L (922611124BK)

1. INTRODUCTION

The Kelty Coyote 65L Internal Frame Backpack is designed for hiking, backpacking, and travel, offering a blend of comfort, stability, and ample storage. This manual provides essential information for setting up, using, and maintaining your backpack to ensure optimal performance and longevity.

2. KEY FEATURES

- **65 Liters Capacity:** Ample storage for essential gear, with an optimal carry weight of 30-55 pounds.
- **Advanced Perimeter Frame:** Provides superior stability and weight transfer for comfortable carrying on varied terrain.
- **Fit-Pro Adjustment System:** Allows for quick and customized torso fit, adjustable even while on the move.
- **AMP-Flow Ventilated Back Panel:** Designed to keep your back cool and dry by promoting airflow.
- **Multiple Pockets:** Includes Kelty Signature wing pockets, two front zippered pockets, a central organizer pocket, a security sleeve on the top lid, water bottle pockets, and a dedicated sleeping bag compartment.
- **Hydration Compatible:** Features a built-in hydration sleeve for easy access to water.
- **Durable Construction:** Made from polyester material with water-resistant properties.

3. SETUP AND FITTING

Proper fitting of your Kelty Coyote backpack is crucial for comfort and load distribution. The Fit-Pro adjustment system allows for personalized torso and hipbelt settings.

3.1 Torso Adjustment (Fit-Pro System)

The Fit-Pro system enables quick and easy adjustment of the torso length. This can be done on the fly to optimize comfort, especially when shedding layers or transferring the pack to another user.

HYDRATION READY

Figure 3.1: Quick-Custom Comfort with Fit-Pro Torso Adjustment System.

To adjust, loosen the straps connecting the shoulder harness to the main pack body. Slide the shoulder harness up or down along the internal frame until it aligns with your torso length. Secure the straps firmly once the desired fit is achieved.

3.2 Hipbelt Adjustment

The padded hipbelt is designed to transfer the majority of the pack's weight to your hips, reducing strain on your shoulders. Ensure the hipbelt sits comfortably over your iliac crest (hip bones).

Figure 3.2: Rear view showing the padded hipbelt and ventilated back panel.

Fasten the large buckle clip across your waist and tighten the straps until the pack feels secure and the weight is evenly distributed. The hipbelt features pockets for convenient access to small items.

3.3 Shoulder Straps and Sternum Strap

Adjust the shoulder straps so they conform to your shoulders without excessive gaps or pressure points. The sternum strap, located across your chest, helps stabilize the shoulder straps and can be adjusted for height and tension.

Figure 3.3: Proper fit of the Kelty Coyote backpack with adjusted shoulder and sternum straps.

4. PACKING INSTRUCTIONS

Efficient packing maximizes comfort and accessibility. Utilize the various compartments and attachment points to organize your gear.

4.1 Main Compartment Access

The main compartment offers large J-zip top-loading access. Pack heavier items closer to your back and centered to maintain balance.

Figure 4.1: Top-loading access to the main compartment.

4.2 Sleeping Bag Compartment

A dedicated zippered compartment at the bottom provides easy access to your sleeping bag without disturbing other contents.

4.3 External Pockets and Attachment Points

Utilize the various external pockets for items you need to access quickly. Daisy chains and loops are available for attaching additional gear like trekking poles or ice axes.

- **Front Zippered Pockets:** For quick grab access to frequently used items.
- **Hipbelt Pockets:** One stretch and one zippered pocket for small essentials like snacks or a phone.
- **Water Bottle Pockets:** Securely hold water bottles on the sides.
- **Hydration Sleeve:** Internal sleeve for a hydration bladder with a port for the drinking tube.

5. CARE AND MAINTENANCE

To ensure the longevity of your Kelty Coyote backpack, follow these care instructions:

- **Cleaning:** Wipe with a damp cloth to remove dirt and debris. Avoid harsh chemicals or machine washing, as this can damage the fabric and coatings.
- **Drying:** Allow the backpack to air dry completely before storing to prevent mildew.
- **Storage:** Store in a cool, dry place away from direct sunlight.

6. SPECIFICATIONS

Feature	Detail
