

HONEST BCZ

HONEST Butane Refillable Torch Lighter (Model BCZ) Instruction Manual

Model: BCZ

1. IMPORTANT SAFETY WARNINGS

Please read and understand all safety warnings before using your HONEST Butane Refillable Torch Lighter. Failure to follow these instructions may result in injury or property damage.

- Lighter contains inflammable gas under pressure.
- Keep lighter away from face when lighting or regulating the flame.
- When refilling, keep lighter away from open flame or other ignition sources.
- **KEEP AWAY FROM CHILDREN.** This product is not a toy.
- Do not pierce the lighter or throw it into fire.
- Never play with lighters.
- The lighter has been adjusted for perfect functioning; do not attempt any technical modifications.
- After using the lighter, ensure the flame is completely extinguished and the burner valve is tightly closed.
- Do not keep the flame lit for more than 10 seconds continuously to prevent overheating.

2. PRODUCT OVERVIEW

The HONEST Butane Refillable Torch Lighter, Model BCZ, is a versatile and portable tool designed for a wide range of applications. It features a robust design, Piezo Ignition Technology, and an adjustable flame for precise control. This lighter is shipped without gas for safety and requires butane fuel for operation.

Portable Size

Easy To Use

Image: The HONEST Butane Torch Lighter, illustrating its compact and portable size with dimensions of 3.15 inches (80mm) in length and 5.55 inches (141mm) in height.

3. SETUP AND REFILLING INSTRUCTIONS

Your HONEST torch lighter is shipped without butane gas. Please follow these steps carefully to refill the lighter before first use.

Refilling Procedure:

1. Place the lighter upside down on a stable, flat surface.
2. Insert the nozzle of a universal butane gas container firmly and vertically into the fill valve located at the bottom of the lighter.
3. Press down for approximately 10-15 seconds until the tank is filled. You may hear a hissing sound as gas transfers.
4. After refilling, wait a few minutes (at least 3-5 minutes) before attempting to ignite the lighter. This allows the inner gas pressure to stabilize.

Adjustable and Refillable

Utility Butane Torch Lighter With Blue Jet Flame

4. OPERATING INSTRUCTIONS

Ignition:

To ignite the lighter, simply slide up the Piezo Ignition switch. The lighter is designed for effortless one-hand operation and can be used at any angle, including upside down.

Flame Adjustment:

The lighter features an adjustable temperature regulator. Use a thin screwdriver to turn the adjusting ring (B) at the base of the lighter: turn towards '+' to increase the flame size and intensity, or towards '-' to decrease it. The flame temperature can reach up to 1300 °C (2372 °F).

Versatile Applications:

This torch lighter is suitable for a variety of tasks:

- **Culinary Use:** Ideal for caramelizing sugar on crème brûlée, glazing baked ham, searing steak, roasting bell peppers, melting cheese, and toasting breadcrumbs.
- **Household Use:** Useful for lighting fireplaces, candles, or cigars.
- **Hobbies & Crafts:** Perfect for arts and crafts projects, jewelry making, and welding.
- **Outdoor Activities:** Suitable for multiple camping applications and outdoor ignition needs.

2. Light a Cigar

1. Pilot Gas Stove

3. Gourmet Cooking

4. Outdoor ignition

5. MAINTENANCE

To ensure the longevity and safe operation of your HONEST torch lighter, follow these maintenance guidelines:

- Always ensure the flame is completely extinguished and the burner valve is closed after each use.
- Store the lighter in a cool, dry place, away from direct sunlight and heat sources.
- Keep the lighter clean by wiping it with a soft, dry cloth. Avoid using abrasive cleaners or solvents.
- Do not attempt to disassemble or modify the lighter, as this can compromise its safety and functionality.

6. TROUBLESHOOTING (FAQ)

If you encounter any issues with your HONEST torch lighter, refer to the following common problems and solutions:

Q1: Gas sprays out when refilling.

A1: This often indicates that there is still gas or air remaining in the lighter's tank. Release any residual gas before attempting to refill. This can be done by pressing the fill valve with a small tool until no more gas escapes.

Q2: Flame bursts excessively or is too large.

A2: The gas flow is too high. Adjust the gas flow regulator (ring B) towards the '-' symbol using a thin screwdriver to decrease the flame size.

Q3: Flame is very small or flickers.

A3: The gas flow is too low. Adjust the gas flow regulator (ring B) towards the '+' symbol using a thin screwdriver to increase the flame size.

Q4: The lighter does not ignite itself.

A4: This suggests an issue with the spark mechanism. If the spark mechanism is broken, please contact customer support for a replacement.

Q5: The lighter does not work, and the issue is not listed above.

A5: Please contact our customer support with your order number. Providing your order details will help us assist you more effectively.

7. SPECIFICATIONS

Feature	Detail
Brand	HONEST
Model Number	BCZ
Color	Blue
Item Type	Torch Lighter
