OPERATING INSTRUCTIONS (USAGE)

- **Television Placement:** Place your television centrally on the top surface of the cabinet. Ensure the TV's base fits securely within the cabinet's dimensions and does not overhang.
- **Storage:** Utilize the two central compartments with doors to store items you wish to keep out of sight, such as cables, remote controls, or media.
- **Display:** The two open shelves on either side are ideal for displaying decorative objects, books, or smaller media devices. Remember the 5 kg weight limit per shelf.
- **Cable Management:** While not explicitly designed with cable holes, cables can be routed discreetly behind the unit or through the open sections.

- **Spills:** Wipe up spills immediately to prevent staining or damage to the material.
- **Sunlight:** Avoid prolonged exposure to direct sunlight, which can cause fading or discoloration over time.
- **Heat:** Do not place hot items directly on the surface without protective coasters.

- **Stability Check:** Periodically check all screws and connections to ensure they remain tight. Re-tighten if necessary.

TROUBLESHOOTING

If you encounter any issues with your DERANA TV Cabinet, please refer to the following common solutions:

- **Wobbly Cabinet:** Ensure the cabinet is on a level surface. Check all assembly screws and tighten them. Verify that the anti-tip hardware is securely installed.
- **Doors Not Aligning:** Adjust the hinges on the doors. Most furniture hinges allow for minor adjustments to align doors properly. Refer to the assembly manual for specific hinge adjustment instructions.
