## VGR VGR906

# VGR 906 Fresh Fade Professional Hair Trimmer User Manual

Model: VGR906

## INTRODUCTION

---

The VGR 906 Fresh Fade Professional Hair Trimmer is designed for precise hair and beard grooming. Featuring a DLC T-Blade, a powerful 9000 RPM motor, and a long-lasting rechargeable battery, this cordless trimmer provides efficient and comfortable trimming for various hair types. This manual provides essential information for the safe and effective use, maintenance, and care of your VGR 906 trimmer.

## SAFETY INFORMATION

---

**Please read all safety instructions before use.**

- Avoid use on infants.
- Keep the device away from water and do not immerse it in liquids.
- Do not use the trimmer if the blades are damaged, as this may cause injury.
- Store the trimmer in a dry place when not in use.
- Keep out of reach of children.

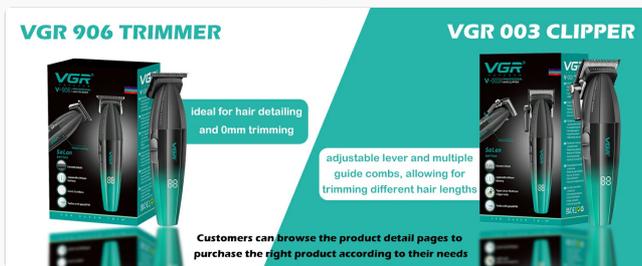

## PACKAGE CONTENTS

---

Verify that all items are present in the package:

The VGR 906 Fresh Fade Professional Hair Trimmer kit, including the trimmer, guide combs, charging cable, oil, and cleaning brush.

A visual representation of the accessories included with the VGR 906 trimmer.

- 1 x VGR 906 Hair Trimmer
- 1 x Lubricating Oil
- 1 x Cleaning Brush
- 3 x Guide Combs (1mm, 2mm, 3mm)
- 1 x USB Charging Cable
- 1 x Blade Protector
- 1 x Hair Comb

## SETUP

### Charging the Trimmer

Before first use, fully charge the trimmer. The device features a digital power display to indicate the battery level.

- Connect the provided USB Type-C charging cable to the trimmer's charging port.
- Plug the other end of the USB cable into a compatible USB power adapter (not included) or a USB port.
- The digital display will show the charging status. A full charge takes approximately 2.5 hours.
- A fully charged battery provides up to 240 minutes of continuous use.

## Attaching Guide Combs

The trimmer includes three guide combs (1mm, 2mm, 3mm) for varying cutting lengths.

- Select the desired guide comb.
- Align the comb with the trimmer blade and push it firmly until it clicks into place.
- To remove, gently pull the comb away from the blade.

## 3 GUIDE COMBS

## OPERATING INSTRUCTIONS

---

### Powering On/Off

Press the power button located on the side of the trimmer to turn it on or off.

### Adjusting Speed Settings

The VGR 906 features a two-speed motor, operating up to 9000 RPM. Press the power button once to turn on, and press again to switch between the two speed settings. The digital display will indicate the current speed.

The VGR 906 trimmer features a powerful 9000 RPM motor for efficient cutting.

Key operational features including adjustable speeds, DLC T-Blade, LED display, and USB-C charging interface.

## Trimming Techniques

The DLC carbon steel T-Blade is designed for 0mm cuts and precise detailing without pulling hair. The R-shaped chamfer helps prevent skin irritation.

- For general trimming, attach the desired guide comb.
- Hold the trimmer against the hair, moving it slowly against the direction of hair growth.
- For detailing and sharp lines, remove the guide comb and use the bare blade.
- Use light pressure and maintain a consistent angle for even results.

## MAINTENANCE

### Cleaning the Blades

Regular cleaning ensures optimal performance and extends the life of your trimmer.

- After each use, turn off the trimmer and detach any guide comb.
- Use the provided cleaning brush to remove loose hairs from the blades and the trimmer body.
- For a more thorough cleaning, the blades can be carefully removed (refer to specific blade removal instructions if available in a separate guide, otherwise proceed with caution).

### Lubricating the Blades

Apply a small amount of the included lubricating oil to the blades regularly to maintain smooth operation and prevent rust.

- After cleaning, apply 1-2 drops of oil across the top of the blades.

- Turn on the trimmer for a few seconds to allow the oil to distribute evenly.
- Wipe off any excess oil with a soft cloth.

## TROUBLESHOOTING

If you encounter issues with your VGR 906 trimmer, consider the following common solutions:

Problem	Possible Cause	Solution
Trimmer does not turn on	Low battery or no charge	Charge the trimmer fully using the provided USB cable. Check the digital display for battery level.
Blades pull hair or cut unevenly	Blades are dirty, dull, or not lubricated	Clean the blades thoroughly with the brush. Apply lubricating oil. If blades are dull, consider professional sharpening or replacement.
Reduced motor speed or power	Low battery or hair buildup in motor	Recharge the trimmer. Ensure blades are clean and free of hair.
Trimmer gets hot during use	Prolonged use or lack of lubrication	Allow the trimmer to cool down. Ensure blades are properly lubricated. Avoid continuous use for extended periods.

If the problem persists, please contact customer support.
