

VGR VGR-906

VGR 003 Fresh Fade Hair Clipper Instruction Manual

Model: VGR-906

1. INTRODUCTION AND SAFETY INFORMATION

The VGR 003 Fresh Fade Hair Clipper is a professional-grade, cord/cordless rechargeable hair cutting tool designed for precise grooming. This manual provides essential information for safe and effective use, maintenance, and troubleshooting.

Important Safety Precautions:

- Use with caution near the face and eyes.
- Keep out of reach of children.
- Avoid ingestion or inhalation of small parts.
- Clean the clipper according to the maintenance instructions provided.
- Do not immerse the clipper in water.
- Ensure the device is fully charged before first use to optimize battery life.

2. PACKAGE CONTENTS

The VGR 003 Fresh Fade Hair Clipper kit includes the following items:

- VGR 003 Hair Clipper (1 unit)
- Guide Combs (6 units: 1.5mm, 3mm, 4.5mm, 6mm, 9mm, 12mm)
- USB Charging Cable (1 unit)
- Cleaning Brush (1 unit)
- Lubricant Oil (1 bottle)
- Blade Protector (1 unit)
- Hair Comb (1 unit)

POWERFUL MOTOR

The magnetic motor runs at **9000 RPM**, tuned for increased power, efficiency, and performance

4. SETUP AND CHARGING

Initial Charge:

Before first use, fully charge the clipper. Connect the USB charging cable to the charging port at the bottom of the clipper and plug the other end into a compatible USB power adapter (not included). The LCD display will show the charging progress. A full charge takes approximately 3 hours and provides up to 250 minutes of cordless operation.

Attaching Guide Combs:

Select the desired guide comb from the 6 available sizes (1.5mm, 3mm, 4.5mm, 6mm, 9mm, 12mm). Align the comb with the clipper blade and push it firmly until it clicks into place. Ensure the comb is securely attached before operating the clipper.

6 GUIDE COMBS

5. OPERATING INSTRUCTIONS

1. Ensure the clipper is charged and the desired guide comb is attached.
2. Turn on the device using the power button. The LCD display will illuminate, showing the battery percentage and current speed.
3. Adjust the speed if necessary using the speed control button. The clipper offers two speed modes.
4. Adjust the taper lever on the side of the clipper to fine-tune the cutting length between comb sizes.
5. Begin cutting hair with the clipper, moving from top to bottom or against the direction of hair growth for an even cut.
6. After use, turn off the clipper.

6. MAINTENANCE

Cleaning the Blades:

- After each use, ensure the clipper is turned off and unplugged if charging.
- Remove the guide comb.
- Use the provided cleaning brush to remove any loose hair from the blades and the clipper body.
- For thorough cleaning, carefully detach the blade assembly if instructed by the manufacturer (refer to specific diagrams if available).

Lubricating the Blades:

- Apply a few drops of the provided lubricant oil to the blades after cleaning.
- Turn on the clipper for a few seconds to allow the oil to distribute evenly across the blades. This helps maintain cutting efficiency and prolong blade life.
- Wipe off any excess oil with a clean cloth.

Storage:

- Store the clipper in a dry, cool place, away from direct sunlight and moisture.
- Use the blade protector to cover the blades when not in use to prevent damage.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Clipper does not turn on.	Low battery or no charge.	Charge the clipper fully using the provided USB cable.
Clipper pulls hair or cuts unevenly.	Blades are dull, dirty, or not properly oiled. Guide comb not securely attached.	Clean and oil the blades. Ensure the guide comb is firmly in place. Consider professional blade sharpening or replacement if blades are dull.
Clipper makes unusual noise.	Blades require lubrication or are misaligned. Internal issue.	Apply lubricant oil to the blades. If the issue persists, contact customer support.
Battery life is shorter than expected.	Battery not fully charged or aging battery.	Ensure the clipper is fully charged. Over time, battery capacity may decrease.
